

1965 ANNUAL REPORT

CHICAGO TRANSIT AUTHORITY

CHICAGO TRANSIT AUTHORITY

TWENTY-FIRST ANNUAL REPORT

For the Fiscal Year Ended December 25, 1965

THE YEAR IN BRIEF

FINANCIAL SUMMARY

	1965	1964
Passenger Revenues (Exclusive of Charter Service)	\$135,789,599	\$131,117,302
Other Revenues	3,101,881	3,026,894
Total Revenue	138,891,480	134,144,196
Total Operating Payroll (including employee benefits)	95,109,524	90,803,744
Provision for Injuries and Damages	7,536,349	8,618,183
Other Operating and Maintenance Expenses	17,767,848	16,508,553
Total Operation and Maintenance Expenses	120,413,721	115,930,480
Debt Service Requirements	8,084,812	8,072,807
Provision for Depreciation—Current Period	11,111,318	10,731,536
Balance Available for Other Charges or (Deficit in Depreciation Provision)	(718,371)	(590,627)
Carry-Over of Prior Year's Deficiency	(351,022)	239,605
Balance Available for Other Charges or (Deficit in Depreciation Provision)	\$ (1,069,393)	\$ (351,022)

OPERATING SUMMARY

Originating Revenue Passengers—		
Surface System	388,076,702	379,251,204
Rapid Transit System	114,597,086	111,218,011
Combined System	502,673,788	490,469,215
Revenue Car and Bus Miles—		
Surface System	111,067,942	108,584,240
Rapid Transit System	44,349,196	44,080,246
Combined System	155,417,138	152,664,486
Passengers Carried per Mile Operated—		
Surface System	3.49	3.49
Rapid Transit System	2.58	2.52
Combined System	3.23	3.21
Population of Chicago	3,534,000	3,534,000
Rides per Capita	142	139
Number of Active Employees at December 25	12,188	12,491

() Denotes red figures.

CHICAGO TRANSIT BOARD

James R. Quinn, Vice Chairman
(M) Term Expires August 31, 1971

William W. McKenna, Secretary
(M) Term Expires August 31, 1967

George L. DeMent, Chairman
(M) Term Expires August 31, 1966

Joseph D. Murphy
(M) Term Expires August 31, 1965*

Raymond J. Peacock
(G) Term Expires August 31, 1968

James E. Rutherford
(G) Term Expires August 31, 1969

Mrs. Bernice T. Van der Vries
(G) Term Expires August 31, 1970

M—Appointed by the Mayor of the City of Chicago.
G—Appointed by the Governor of the State of Illinois.

*—Continues to serve until a successor has been appointed and has qualified.

THOMAS B. O'CONNOR, General Manager

WILLIAM J. LYNCH, General Attorney

OPERATIONS REVIEW

Riding Trends

Employment in the Chicago area increased during 1965 and helped reverse the downward trend in riding which had formerly prevailed. An increase in revenue passengers resulted in the last quarter period of 1964 and continued during 1965. A full year of operation of the Skokie Swift line, new air-

conditioned, high-performance 2000-series cars on the Lake and West-Northwest Rapid Transit routes, the addition of 250 new buses and improved economic conditions in the Chicago area contributed to the upswing in riding. Details of originating revenue passengers by four-week periods, arranged in approximate quarter years, for 1965 and 1964, are shown in the following table:

Periods	Originating Revenue Passengers		Increase	
	1965	1964	Number	Per Cent
1, 2, 3	114,355,348	113,093,037	1,262,311	1.10
4, 5, 6	117,782,144	114,487,094	3,295,050	2.88
7, 8, 9, 10	149,720,349	145,824,175	3,896,174	2.67
11, 12, 13	120,815,947	117,064,909	3,751,038	3.20
THIRTEEN PERIOD YEAR	<u>502,673,788</u>	<u>490,469,215</u>	<u>12,204,573</u>	<u>2.49</u>

Opened February 22, 1965, the new Peoria street entrance to the U of I-Halsted station on the West-Northwest rapid transit route serves the University of Illinois Chicago Circle campus on Chicago's near West Side.

The competitive strength of the grade-separated Rapid Transit system and the riding public's preference for high-speed service on grade-separated right-of-way is indicated by the fact that the 1965 passenger increase on the rapid transit system was 3.04% as contrasted to a 2.33% increase on the surface system. Each year since 1948 has shown a progressively greater portion of total revenue passengers patronizing the rapid transit system, except in 1963, when weather conditions hampered operations.

The annual riding volume for the 18 years of Authority operation is shown in the table below.

Modernization and Replacement Program

The modernization program, proposed when the Authority was organized, anticipated the purchase of 4,256 new buses and cars to replace rolling stock of the predecessor companies.

ORIGINATING REVENUE PASSENGERS

Calendar Year of	ORIGINATING REVENUE PASSENGERS						Per Cent of Total Revenue Passengers Carried by				
	Surface System			Rapid Transit System			Total Revenue Rides	Per Cent		Surf.	Rapid Transit
	Total Revenue Rides	Per Cent Reduction Under		Total Revenue Rides	Per Cent Reduction Under

*1965	388,076,702	+2.33	—	114,597,086	+3.04	—	502,673,788	+2.49	—	77.20	22.80

*The fiscal years 1964 and 1965 consist of thirteen four-week periods.

As of December 25, 1965, the Authority had purchased 5,417 new revenue vehicles, completing the modernization program and providing 1,161 additional new vehicles to replace equipment which had become over-age during the interim.

The total cost of these 5,417 new vehicles and auxiliary equipment was approximately \$152,100,000, of which \$90,234,000 covered the purchase of 4,463 surface units, and \$61,866,000 covered 954 rapid transit cars.

Expenditures and commitments under the modernization and replacement program to date aggregate approximately \$204,133,000: \$152,100,000 for the revenue vehicles referred to previously and \$52,033,000 for the construction and modernization of shops, operating garages, and other facilities such as terminals and fixed transportation equipment.

Construction Projects

The all-new ultra-modern street-level Tech-35th station on the North-South Rapid Transit route was completed and placed in operation, replacing facilities destroyed by fire in late 1962.

Archer garage was remodeled; bus service facilities, a fueling island, bus-fueling equipment and a bus washer were installed.

The Logan Square terminal of the West-Northwest Rapid Transit route was remodeled and an escalator installed to facilitate passenger movements.

Four additional storage tracks (0.43 miles) were laid in the Lake-Harlem yard. Construction of a new inspection shop was also started at this location.

An automatically-operated interlocking plant was installed at the 59th Street junction, where the Englewood and Jackson Park rapid transit branches converge.

Harding electrical substation was converted from 25-cycle to 60-cycle power, and to automatic operation. This is the first of 19 substations to be converted and modernized in a 10-year program, the approximate \$11,620,000 cost of which is to be shared by the Authority and the Commonwealth Edison Company.

Installation of an automatic train detection and overspeed control system began on the Lake Rapid Transit route. Under this system, each train will be equipped with cab signals; allowable speed, train

A 10-year program to replace obsolete electrical equipment in 19 of the Authority's substations was started during 1965 with the modernization of the Harding substation. Manually-operated electrical equipment (below) converting 25-cycle power for direct current traction use was replaced by modern silicon rectifiers (above) converting 60-cycle power and remote control switch gear left) which can be controlled centrally from the power supervisor's office in the Merchandise Mart. The cost of the program is being shared on a 60-40 basis by the Authority and Commonwealth Edison Company.

spacing and safe train operation will be governed by coded, audio-frequency track circuits. This is one of the most modern rapid transit signaling systems available, and is expected to be placed in full operation late in 1966.

Skokie Swift Demonstration Project

Patronage on the Skokie Swift, a five-mile high-speed non-stop rapid transit service between Dempster Street, Skokie, and Howard Street, Chicago, continued to increase beyond expectations. This locally-sponsored, federally-aided Mass Transportation Demonstration project, inaugurated April 20, 1964, has attracted world-wide interest.

On October 15, 1965, a new weekday high record was established when 7,765 persons used the service. For the year 1965, a total of 1,848,000 passengers were carried and 304,239 miles, or 29,886 round trips by 11 high-speed cars assigned to the service were operated.

Since the Skokie Swift service began, 2,938,000 riders have been carried, 506,109 miles, or 49,716 round trips, have been operated on the route.

New Revenue Vehicles

During 1965, the Authority received and placed into service 250 "New Look" 50-passenger, diesel-fueled buses, 10 of which were experimental air-conditioned units.

On August 5, 1965, Chicago Transit Board awarded a contract for 150 "New Look" 42-passenger, diesel-fueled buses. Delivery of these

vehicles is to start in April, 1966, at an expected rate of 50 per month.

Revenue vehicles owned and operated as of December 25, 1965, consisted of the following:

	Owned	Active
Trolley buses	516	491
Diesel buses	1,157	1,027
Propane buses	1,660	1,640
TOTAL BUSES...	3,333	3,158
Rapid transit cars	1,160	1,160
TOTAL...	4,493	4,318*

*Difference represents 175 buses authorized to be scrapped.

Public Safety

Authority operating personnel established a new passenger safety record in 1965. The number of passenger accidents was the lowest in the Authority's history and the frequency rate tied the outstanding record achieved in 1962 and again in 1964.

Despite the worst weather conditions during a first quarter in 20 years, the 1965 combined traffic and passenger accident frequency rate was the second best in the Authority's history—only slightly higher than the all-time low set in 1964.

The following table and graph show comparisons of the Authority's public accident experience, which is comprised of all traffic and passenger accidents regardless of liability or severity. Both the table and graph show the dramatic improvement in public accident experience since the Authority's intensified safety-training activities began in 1954.

The table compares the 1965 public accident experience with 1964 and also with 1954 to show the effect of safety-training activities:

	1965	1964	1954	Increase (Decrease)	
				From 1964	From 1954
Traffic accidents	7,792	7,525	16,300	3.5%	(52.2%)
Passenger accidents	5,660	5,758	9,678	(1.7%)	(41.5%)
TOTAL ACCIDENTS.....	13,452	13,283	25,978	(1.3%)	(48.2%)
Revenue vehicle miles on routes (in thousands)	148,969	149,594	164,222	(0.4%)	(9.3%)
Frequency rate—Accidents per 100,000 miles—					
Traffic accidents	5.2	5.0	9.9	4.0%	(47.5%)
Passenger accidents	3.8	3.8	5.9	No Change	(35.6%)
TOTAL ACCIDENTS	9.0	8.9	15.8	1.1%	(43.0%)

The graph shows by years the combined traffic and passenger accident rate since the beginning of Authority operations. In the first eight years the rate remained above 15 accidents per 100,000 miles. Beginning in 1955, however, there was a substantial downward trend, and in the last five years the rate has remained below 10 accidents per 100,000 miles.

Personnel

Employees in service at the close of 1965 numbered 12,392, a decrease of 255 from December 26, 1964, and a decrease of 10,976 from the 23,368 employees in service at dates of acquisition of properties from predecessor companies.

The modern Tech-35th station on the North-South rapid transit route was officially opened on June 21, 1965. The station, costing \$500,000, replaced facilities that were destroyed by fire in October, 1962.

During 1965, 382 employees retired on pension and 369 retired employees died. At December 31, 1965, there were 5,468 retired employees receiving pension payments.

The basic Retirement Plan covering earnings of all employees up to \$10,000 per year, and Supplemental Retirement Plan covering earnings of employees in excess of \$10,000 per year were combined during the year.

O. Robert Hamlink was appointed First Assistant General Attorney on June 1, 1965, succeeding William S. Allen, retired.

George Krambles was appointed Superintendent of Research and Planning on September 1, 1965, succeeding Louis M. Traiser, retired.

Vehicle Miles

The Authority continued to maintain attractive, convenient and frequent service throughout the City of Chicago and within or adjacent to 31 suburban communities.

Revenue car miles operated on the rapid transit system totaled 44,349,196, an increase of 268,950 (0.61%) compared with 1964. These include 304,239 Skokie Swift car miles in 1965 compared with 201,870 for somewhat less than three quarters in 1964, an increase of 102,369 miles.

Total surface system miles operated were 111,067,942, an increase of 2,483,702 (2.29%) over 1964. Motor bus miles operated were 94,521,930, an increase of 2,735,367 (2.98%) over 1964, and trolley bus miles operated were 16,546,012, a decrease of 251,665 (1.50%) compared with 1964; this decrease was due to replacement of the trolley bus line on 47th Street with a motor bus route.

During 1965, the Rapid Transit system operated an average of 981 cars approximately 145,800 miles each weekday, while the Surface system operated an average of 2,838 buses approximately 330,400 miles each weekday.

Average scheduled speed of the Rapid Transit system in 1965 increased to 23.30 mph as compared with 23.18 in 1964. The "New Look" air-conditioned, high-performance cars assigned to the Lake and West-Northwest routes and the high-speed cars assigned to the Skokie Swift line contributed to this increase.

Scheduled speed of Surface system buses in 1965 increased to 11.98 mph as compared with 11.93 mph in 1964.

FINANCIAL RESULTS

Gross revenues for the 1965 fiscal year totaled \$138,891,480, an increase of \$4,747,284 over 1964. Operating and maintenance expenses totaled \$120,413,721, an increase of \$4,483,241 over 1964. Sufficient revenues remained available to meet all debt service requirements, but fell \$718,371 short of meeting the total requirement for depreciation. This, together with a \$351,022 deficiency carried

over from the previous year, resulted in a total deficiency of \$1,069,393 in meeting full depreciation requirements as of December 25, 1965. Increased revenues were substantially offset by higher costs (primarily wages), so that results were almost identical with those of the previous year.

Sources of the Authority's revenues for 1965 and 1964 were as follows:

	1965	1964	Increase (Decrease)	
			Amount	Per Cent
Passenger Revenues—				
Surface System	\$104,610,405	\$100,904,674	\$3,705,731	3.67
Rapid Transit System	31,179,194	30,212,628	966,566	3.20
	135,789,599	131,117,302	4,672,297	3.56
Charter Service	613,381	480,637	132,744	27.62
	136,402,980	131,597,939	4,805,041	3.65
Other—				
Station and Car Privileges	862,375	417,770	444,605	106.42
Rent of Buildings and Other Properties	447,526	438,419	9,107	2.08
Miscellaneous	1,178,599	1,690,068	(511,469)	(30.26)
	2,488,500	2,546,257	(57,757)	(2.27)
TOTAL REVENUES	<u>\$138,891,480</u>	<u>\$134,144,196</u>	<u>\$4,747,284</u>	<u>3.54</u>

DISTRIBUTION OF CTA'S 1965 REVENUE DOLLAR

NOTE: TOTAL OPERATING LABOR COSTS EXCLUDE \$2,617,724 (1.88¢ OF CTA'S DOLLAR) CHARGED TO OPERATING MATERIALS AND SUPPLIES AND INJURIES AND DAMAGE RESERVE.

The principal reasons for the increase in passenger revenues were—a 12,204,573 (2.49%) increase in originating revenue passengers accounting for \$2,960,000; an 8,120,102 (3.34%) increase in the use of 5¢ transfers accounting for \$400,000, and the reimbursement by the State of Illinois to cover the transportation of school children at a reduced rate of fare accounting for \$1,300,000.

Charter service revenue for the year increased \$132,744.

In other revenues, station and car privileges increased \$444,605; however, a decrease of \$515,782 in interest earned on securities held in special funds was the principal element that caused an overall decrease of \$57,757 in other revenues.

Despite operating economies in controllable expenses, operating and maintenance expenses increased \$4,483,241 in 1965, primarily because of increases in wages.

The principal elements comprising operation and maintenance expenses for 1965 and 1964 are as follows:

	1965	1964	Increase (Decrease)	
			Amount	Per Cent
Wages and Salaries	\$ 84,101,607	\$ 80,658,285	\$3,443,322	4.27
Pension Contributions	7,691,844	6,696,993	994,851	14.86
Federal Insurance Contributions	2,239,426	2,281,505	(42,079)	(1.85)
Employees' Insurance	1,076,647	1,166,961	(90,314)	(7.74)
TOTAL LABOR COSTS	95,109,524	90,803,744	4,305,780	4.74
Electric Power Purchased	4,163,976	4,120,606	43,370	1.05
Motor Bus Fuel Consumed	2,172,094	2,107,328	64,766	3.07
Operating Material & Supplies	6,417,659	5,596,172	821,487	14.68
Provision for Injuries & Damages	7,536,349	8,618,183	(1,081,834)	(12.55)
Misc. Services, Supplies, etc.	5,014,119	4,684,447	329,672	7.04
TOTAL OPERATION AND MAINTENANCE EXPENSES	\$120,413,721	\$115,930,480	\$4,483,241	3.87

Wages and salaries increased in 1965 by the application of higher wage rates and cost-of-living allowances provided in contracts negotiated in 1962, and by new contracts effective December 1, 1965, with two of the labor organizations representing the employees of the Authority. One of these (Division 241, Amalgamated Transit Union) represents approximately two-thirds of the Authority's employees. Provision has also been made in the accounts for 1965 for payment of increases (proportionate with those already granted) for the remainder of the Authority's employees, pending completion of negotiations with the other labor organizations. These changes, applied to the basic one-man operator wage rates, were as follows:

	Basic One- Man Hourly Rate	Cost-of- Living Allowance	Total
December 26, 1964	\$3.020	\$ —	\$3.020
1965 Changes—			
Effective March 1	—	+0.040	0.040
June 1	—	+0.015	0.015
September 1	—	+0.025	0.025
December 1	+0.080	—	0.080
Net Change	+0.080	+0.080	0.160
December 25, 1965	\$3.100	\$0.080	\$3.180

The newly negotiated three-year wage contracts, effective December 1, 1965, provided for hourly

wage increases of 8¢ on December 1, 1965; 11¢ on December 1, 1966; and 12¢ on December 1, 1967, to employees represented by Division 241, Amalgamated Transit Union. Proportionate wage increases were agreed to with Local 726, International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America. The then current cost-of-living allowance of 8¢ was incorporated in the December 1, 1965, basic hourly wage rate. The cost-of-living allowance clause was carried forward in the new contracts; allowances, if any, are to start with the first payroll period beginning on or after March 1, 1966, with quarterly adjustments thereafter.

The new wage rates, together with the cumulative effect of changes in wage rates made in 1964, increased 1965 wage costs \$3,443,322.

Pension contributions for 1965 increased \$994,851 due to higher earnings in the employee group for whom pension contributions are made and also because the Authority's contribution rate was increased 1%, from 8% to 9%, by a revision of the pension agreement, effective January 1, 1965. The employee contribution rate also increased 1%, from 4% to 5% of gross earnings at that time.

Federal insurance contributions (old-age, survivors, and disability benefits) were \$42,079 less than in 1964, based on taxable earnings, since there was no change in rates or individual taxable amount between the two years.

Employees' group insurance costs for 1965 decreased \$90,314 because of a decrease in advance premiums of \$22,000 and because experience credits received in 1965 were \$68,500 greater than in 1964.

Cost of electric power purchased during 1965 increased \$43,370. An increase of 1.2 degrees in mean temperature in 1965 and operation of the 2000-series high-performance, air-conditioned cars were the principal factors accounting for this increase.

Motor fuel costs for 1965 were \$64,766 higher than in 1964, primarily due to an increase in miles operated and an increase in basic fuel cost per gallon.

Operating material and supplies costs increased \$821,487. This increase was due to unusual occurrences requiring increased usage of material and to general price increases.

The provision for injury and damage settlements was accrued at the rate of 4½% of total revenues at the end of 1965, 1% less than during 1964. This resulted in a reduction of \$1,081,834 in this provision.

Claim and suit settlements, and expenses applicable thereto, amounted to \$6,481,813 in 1965 compared with \$7,249,111 in 1964, as shown in the following table:

	1965	1964	Increase (Decrease)
Claim settlements—			
Number	14,842	15,113	(271)
Settlement costs	\$2,362,957	\$2,489,772	(\$126,815)
Expenses	913,648	907,370	6,278
TOTAL COST OF CLAIMS	3,276,605	3,397,142	(120,537)
Suit settlements—			
Number	2,051	2,443	(392)
Settlement costs	\$2,132,528	\$2,723,982	(\$591,454)
Expenses	1,072,680	1,127,987	(55,307)
TOTAL COST OF SUITS	3,205,208	3,851,969	(646,761)
TOTAL COST	\$6,481,813	\$7,249,111	(\$767,298)

Average cost per claim settled, excluding expenses, decreased from \$165 in 1964 to \$159 in 1965; and suit costs, excluding expenses, averaged \$1,040 in 1965, down from \$1,115 in 1964. The total cost of claim settlements in 1965 amounted to 4.67% of revenue, as compared with 5.40% in 1964. Claims and suits during the year totaled 21,540 as compared with 21,413 in 1964, an increase of 127, or 0.6%.

Miscellaneous services and supplies costs were \$329,672 higher than in 1964. Numerous fluctuat-

During the year, a contract was awarded to the Flixible Company of Loudonville, Ohio, for 150 modern 42-passenger diesel-fueled buses to be delivered in mid-1966.

ing, and, in some cases, non-recurring categories of expenses are included under this caption. The larger items showing variations in 1965 included an increase of \$235,680 (exclusive of the Authority's labor costs) in the cost of removal of snow and ice from transit routes, and an increase of \$45,779 in tire rental due to an increase in miles operated.

Debt service requirements for 1965 totaled \$8,084,812, an increase of \$12,004 over 1964. Deposits to the Series 1947, 1952 and 1953 sinking funds, applied to the retirement of bonds in advance

REVENUE BONDS RETIRED DURING 1965

Series	Serial Bond Maturity Fund	Sinking Fund	Amortiza- tion Fund	Total	Total Retired to 12-25-65
1947	\$ 2,000,000	\$ 2,027,000	\$ —	\$4,027,000	\$45,252,000
1952	—	524,000	—	524,000	3,516,000
1953	—	204,000	—	204,000	1,010,000
Year 1965	2,000,000	2,755,000	—	\$4,755,000	
Memorandum: RETIREMENTS TO DATE ..	<u>\$27,000,000</u>	<u>\$18,007,500</u>	<u>\$4,770,500</u>		<u>\$49,778,000</u>

of maturity, increased \$170,436 to the required total of \$2,644,924. Series of 1947 Serial Bond Maturity Fund during 1965 increased \$4,806 over 1964. Interest payments of \$3,445,264 on all series of Revenue Bonds during 1965 decreased \$163,238 from 1964 as a result of the retirement of bonds. Bond retirements during 1965 are summarized above.

Serial bond maturity retirements of \$2,000,000 of Series 1947 bonds were at par. Sinking fund retirements of principal, premium payments, and future interest savings on these retirements are summarized below:

SINKING FUNDS

Series	Par Value	Cost	Premium Payments	Interest Savings to Maturity
1947	\$2,027,000	\$2,080,185	\$53,185	\$ 990,145
1952	524,000	534,460	10,460	406,057
1953	204,000	207,890	3,890	156,983
TOTAL	<u>\$2,755,000</u>	<u>\$2,822,535</u>	<u>\$67,535</u>	<u>\$1,553,185</u>

This was the third year in which premium payments exceeded discounts realized from redemption of bonds prior to maturity. Net principal savings to date by early retirement of term revenue bonds amounted to \$1,141,271.

The annual interest reduction on \$2,755,000 retired in advance of maturity during 1965 amounts to \$108,772. In years subsequent to 1965, the total interest savings to maturity on \$22,778,000 principal amount of bonds retired to date (through operation of both sinking and amortization funds) will amount to \$16,221,276.

Provision for depreciation in 1965 and 1964 was at a rate of 8% of total revenues as required by the Revenue Bond Trust Agreement. The 1965 increase of \$379,782 (3.5%) in this provision results from the increase in 1965 revenues.

FINANCIAL POSITION

Statements setting forth the financial position of the Authority at December 25, 1965, together with the opinion of Arthur Andersen & Co., independent public accountants, and other statements showing various phases of the Authority's operation for the fiscal year ended that date, are presented in a following section of this report.

OUTLOOK FOR 1966

Financial—Budget

An operating budget of \$144,388,000 was approved during December of 1965 by Chicago Transit Board for the fiscal year 1966, which indicated that revenues would be sufficient to cover all operating expenses and debt service requirements, but that there would be a \$2,456,000 deficiency in making deposits to meet full depreciation requirements. The total deficiency, including an estimated carry-over of \$1,175,000 from 1965, was estimated to amount to \$3,631,000 at the end of 1966.

Passenger revenues for 1966 were estimated on the assumption that revenue passenger rides would be approximately 2.2% higher than the 1965 level, and that passenger revenues would be approximately \$5,300,000 higher, an increase of 4.0%. Other revenues were estimated to produce about \$180,000 less than in 1965.

Expenses budgeted were based on wage rates in effect at the close of 1965, which included provision

for wage increases for all employees, based on a contract, effective December 1, 1965, with Division 241, Amalgamated Transit Union, representing a majority of the Authority's employees. Negotiations to replace contracts expiring November 30, 1965, with all other organizations representing the remainder of the Authority's employees are continuing.

Other expenses were estimated at 1965 levels, except that minor increases in material unit costs were expected.

Budget for Capital Projects

Cash available for capital outlays in 1966, including a carry-over of capital funds appropriated but not spent in 1965, is estimated at \$20,247,000; \$10,024,500 of this amount is committed or planned for the purchase of new revenue vehicles. The remainder is committed for other capital projects urgently needed, some of which are already under way.

Major capital items budgeted are as follows:

Purchase of 350 motor buses (\$9,660,000), spare parts for motor buses and rapid transit cars	\$10,024,500
Interest and principal on equipment trust certificates	1,695,900
Purchase of fare boxes	35,000
Lake Street terminal facilities	1,300,000
Substation conversion	693,900
Track and track structures	1,548,500
Surface system buildings	1,617,000
Rapid transit system buildings	1,125,000
Surface system electrical	102,500
Rapid transit system electrical	1,203,000
Shops and Equipment, purchase of tools and scrapping of passenger equipment	75,000
Stores Department, purchase of equipment	30,000
Purchase of office machines and equipment	50,000
Transportation Department, automotive equipment	79,000
General and administrative costs capitalized	476,000
Purchase and sale of real estate (net)	(93,500)
Major contingencies	285,200
TOTAL	\$20,247,000

() Denotes red figures

Financial—Preliminary Results

During the first three four-week periods ended March 19, 1966, passenger traffic of 117,986,318 revenue rides increased 3,630,970 (3.2%), compared with the same periods of 1965. Passenger revenues of \$32,477,853 increased \$2,010,765 (6.6%), of which \$982,636 represents the reimbursement by the State of Illinois for transportation of school children at reduced rates. Total revenues of \$33,115,668 increased \$1,963,260 (6.3%), and operation and maintenance expenses of \$29,446,641 increased \$1,790,773 (6.5%). There was an increase of \$157,060 in the provision for depreciation due to the increase in gross revenues, on which this provision is based. As a result, for the three periods ended March 19, 1966, there was a deficiency of

\$874,118 in the amount available for deposit to the depreciation reserve fund. The accumulated deficit at March 19, 1966, was \$1,943,511.

Chicago Transit Board

Mrs. Bernice T. Van der Vries was reappointed a member of Chicago Transit Board for the term expiring August 31, 1970.

Mr. James R. Quinn was reappointed a member of Chicago Transit Board for the term expiring August 31, 1971. Mr. Quinn, an original member of Chicago Transit Board, is now in his fourth term.

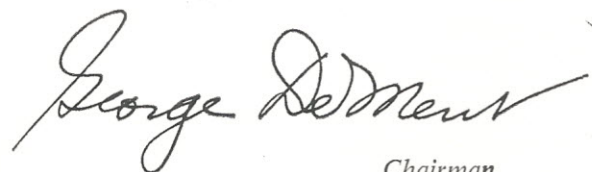

ACKNOWLEDGEMENTS

The Board wishes to express its appreciation and thanks to the employees whose courtesy, skill and dedication to public service contributed so much to the achievements of the year, and to the riding public for their valued patronage and support.

We also thank the several public bodies, public officials and others who have assisted the Authority for their continued cooperation and help in effecting transportation improvements in the Chicago area.

Special thanks are extended to those whose invaluable assistance made possible reimbursement to the Authority for the costs of transporting school children at a reduced fare.

By Order of the Board,

Chairman

Room 734
Merchandise Mart Plaza
Chicago, Illinois 60654

FINANCIAL STATEMENTS AND STATISTICS

ARTHUR ANDERSEN & CO.

CHICAGO, ILLINOIS

Chicago Transit Board,
Chicago Transit Authority:

We have examined the balance sheet and statement of long-term debt of CHICAGO TRANSIT AUTHORITY (an Illinois municipal corporation) as of December 25, 1965, and the related statements of accumulated net earnings, of application of revenue and of funds for the fifty-two week period then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of long-term debt, of accumulated net earnings and of funds present fairly the financial position of Chicago Transit Authority as of December 25, 1965, and the sources and disposition of funds for the fifty-two week period then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the accompanying statement of application of revenue presents fairly the distribution of revenue for the fifty-two week period ended December 25, 1965, in accordance with the provisions of the trust agreement securing the revenue bonds.

ARTHUR ANDERSEN & Co.

**NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 25, 1965**

- (1) Revenue of each calendar year after deducting operation and maintenance expenses is to be deposited in the following funds, in the order shown, to the extent that moneys are available therefor:
- A. Revenue bond interest fund, serial bond maturity fund, sinking funds and reserve funds—deposits equal to debt service requirements as provided in the revenue bond trust agreement.
 - B. Depreciation reserve fund—deposits equal to the annual depreciation provision and deficiencies, if any, in prior years' deposits.
 - C. Revenue bond amortization fund—deposits, cumulative within the year, equal to \$300,000 quarterly for the series of 1947 and 1952 revenue bonds and \$16,714 quarterly for the series of 1953 revenue bonds.
 - D. Operating expense reserve fund—deposit to be not less than \$900,000 each year, until the balance in the fund is equal to at least \$4,000,000.
 - E. Municipal compensation fund—deposit to be computed in accordance with the franchise ordinance.
 - F. Modernization fund—deposits to be equal to the moneys remaining after making required deposits to the above funds.
- (2) In conjunction with the purchase of certain right-of-way and other facilities in 1963, \$1,500,000 was temporarily withdrawn from the working cash account, of which \$600,000 had been reimbursed from the depreciation reserve fund as of December 25, 1965. The remaining \$900,000 will be reimbursed from the depreciation reserve fund over a period not to exceed three years at a rate of not less than \$300,000 per year subject to specific authorization by Chicago Transit Board in each year.
- (3) Debt service requirements in 1966 for the payment of principal on revenue bonds and equipment trust certificates consist of the following:

	Total	Revenue Bonds	Equipment Trust Certificates
Serial bond maturity	\$2,032,258	\$2,032,258	\$ —
Sinking funds	2,869,276	2,869,276	—
Principal payment funds	1,169,167	—	1,169,167
	<u>\$6,070,701</u>	<u>\$4,901,534</u>	<u>\$1,169,167</u>

CONTINUED ON NEXT PAGE

- (4) Payments of principal on revenue bonds are to be made as rapidly as practicable, but at least semi-annually, from deposits made to the sinking funds, and annually from deposits made to the serial bond maturity fund.
- Revenue bond reserve requirements were met in prior years. Amounts deposited in revenue bond reserve funds can be used only for (a) payment of principal or interest on revenue bonds whenever on any principal or interest payment date there would be insufficient moneys held by the trustee in applicable principal, interest and other funds or (b) retirement of remaining bonds outstanding whenever the aggregate amount in the revenue bond reserve fund, revenue bond amortization fund and sinking fund for any series is equal to the amount of applicable series bonds then outstanding.
- (5) The collateral for Series 10 and 11 equipment trust certificates consists of 575 motor buses and 493 elevated-subway cars having a total cost of approximately \$51,000,000.
- Payments of principal on equipment trust certificates are to be made semi-annually from deposits made to principal payment funds. Deposits for payment of principal and interest on equipment trust certificates are to be made from the depreciation reserve fund to which deposits are to be made after requirements have been fulfilled for operating expenses and principal and interest on the revenue bonds.
- (6) In 1965, the Authority received \$3,650,000 from the State of Illinois for reimbursement of a portion of the cost of transporting students. A pro rata portion of the funds received is being reflected in revenue each period during the school year including the summer term, from September, 1965, through August, 1966, based on the number of school days in the year. As of December 25, 1965, \$1,353,442 had been recorded in revenue. The remaining balance of \$2,296,558 will be reflected in revenue in 1966.
- (7) The unappropriated earnings available at the beginning of 1964 of \$239,605 represents an amount which was not required to be deposited in a specific fund at December 28, 1963. Such amount was utilized in the fifty-two week period ended December 26, 1964, to reduce the deficiency in revenue resulting in a net deficiency in revenue as of December 26, 1964, of \$351,022.
- (8) Under its pension agreement, which is renegotiated every three years, the Authority has agreed to contribute a fixed percentage of payroll to a contributory pension plan for present and retired employees. Under such agreement, the Authority is not legally obligated to fund the actuarial cost of future benefits to present and retired employees. At January 1, 1965, the unfunded amount was approximately \$113,000,000, including amounts based on employee services rendered to predecessor companies. The Authority's consulting actuaries have not completed the computation of the unfunded amount as of January 1, 1966, but no significant change from the amount set forth above is anticipated.
- (9) The Authority leases operating facilities under long-term leases which expire on various dates from July, 1977, to March, 1990.
- (10) Commitments for capital expenditures as of December 25, 1965, are approximately \$7,000,000.

ROUTE AND TERMINAL CHANGES

<u>Route</u>	<u>Effective Date</u>	<u>Description</u>
51st	1-13-65	Off-street terminal at St. Louis Avenue placed in service.
26th-31st	2- 7-65	Owl service between Archer-Ashland and Calumet-26th discontinued. Saturday and weekday service during non-rush hours discontinued north of the terminal at Calumet-26th.
Southport	2- 8-65	Service discontinued on Saturdays and during non-rush hours on weekdays. New south terminal established via Webster-Clybourn-Southport.
Foster-Central	3-22-65	Weekday rush-hour service extended from Foster-Canfield via Foster, Canfield, Lawrence and Cumberland to the Irving Park terminal.
111th-115th	4-11-65	Expanded Sunday service to operate over entire route, as on weekdays.
South Kedzie	5-10-65	Off-street terminal on 115th Street at Springfield Avenue placed in service.
South Park	6-20-65	Service extended to new off-street terminal on South Park at Burnside Avenue (near 93rd Street).
47th	6-20-65	Converted from trolley bus to motor bus operation.
43rd-Root	6-21-65	Midday stockyard service discontinued west of Halsted Street.
South Cicero	8-12-65	Rerouted weekdays and Saturdays to operate through Ford City Shopping Plaza via 74th Place, Ford City Drive West, and 76th Street.
	8-29-65	Sunday service extended from 64th Street through Ford City Shopping Plaza to Scottsdale terminal (11 a.m. to 6 p.m.).
Vincennes- 111th Express	9-13-65	Service expanded two trips later in a.m. rush, one trip earlier in p.m. rush.
Pershing Road	11-28-65	West terminal operation changed to loop via Pershing, Homan, 38th Street and St. Louis.

NOTE: These do not include numerous temporary service and route changes effected during the year.

On April 23, to mark the 20th anniversary of CTA's authorization to operate local transportation in Chicago, members of Chicago Transit Board and CTA General Manager rode an 1860-vintage horsecar through downtown to the City Hall. Mayor Richard J. Daley (left) is at the reins and looking on are Board Chairman George L. DeMent and Alderman Vito Marzullo, chairman of the Chicago City Council Committee on Local Transportation. CTA's latest buses (below) were introduced to the public on the 20th anniversary also, when free "courtesy rides" were given in the downtown area.

HIGHLIGHTS - 1945-1965

- | | | | | | |
|-------------|---------|---|-------------|---------|--|
| 1945 | Apr. 12 | Metropolitan Transit Authority Act, creating Chicago Transit Authority, approved by the Governor of the State of Illinois. | 1954 | Jan. 7 | Purchase of Chicago, Aurora and Elgin Railway's right-of-way between Laramie Avenue, Chicago, and Des-plaines Avenue, Forest Park. |
| | Apr. 23 | Authorization by Chicago City Council for CTA to operate local transportation. | | May 30 | Last old red streetcar operated. |
| | June 4 | Metropolitan Transit Authority Act approved by referendum. | 1955 | Dec. 4 | New Forest Glen bus garage opened (5304 W. Armstrong Avenue). |
| | June 28 | First meeting of Chicago Transit Board. | 1957 | Dec. 1 | Last wood-steel rapid transit car retired. |
| | Dec. 11 | Placed first of a series of orders for 1,275 new transit vehicles using capital obtained by CTA from Chicago Surface Lines renewal funds. | 1958 | June 21 | Last streetcar operated (Wentworth Avenue). |
| | | | | June 22 | Congress operation inaugurated in median of Eisenhower (Congress) Expressway. |
| 1946 | July 29 | First major streetcar route converted to bus operation (Montrose Avenue). | 1959 | July 3 | Completed initial equipment modernization program (4,256 units delivered to date). |
| 1947 | Oct. 1 | Purchase of Chicago Rapid Transit Company and Chicago Surface Lines. CTA became an operating entity. | 1960 | Dec. 8 | Order placed for 300 "New Look" buses. |
| 1948 | Apr. 5 | Inaugurated first rapid transit skip-stop service (Lake route). | 1961 | Apr. 19 | Began four-track operation through the Wilson Avenue station area (North-South rapid transit route). |
| 1949 | Dec. 4 | New Beverly bus garage opened (1343 W. 103rd Street). | 1962 | July 27 | Congress terminal rapid transit inspection shop opened. |
| 1950 | May 28 | New North Park bus garage opened (3112 W. Foster Ave.). | | Oct. 28 | Elevation of Lake rapid transit route between Laramie Avenue, Chicago, and Harlem Avenue, Forest Park. |
| | July 27 | 500 propane-fueled buses ordered—the largest propane bus order in world transit history. | 1963 | June 13 | Fleet of 180 air-conditioned rapid transit cars ordered. |
| | Sept. 7 | 349 trolley buses ordered—largest United States trolley bus order. | | Oct. 1 | New South Shops facilities opened (7801 S. Vincennes Avenue). |
| 1951 | Feb. 25 | Milwaukee - Dearborn - Congress subway opened. | | Dec. 30 | Purchase of North Shore Railway's right-of-way between Howard Street, Chicago, and Dempster Street, Skokie. |
| 1952 | Oct. 1 | Purchase of Chicago Motor Coach Company. | 1964 | Apr. 20 | Skokie Swift service inaugurated. |
| 1953 | Oct. 1 | Purchase of Chicago, Milwaukee, St. Paul and Pacific Railroad's right-of-way between Montrose Avenue, Chicago, and Linden Avenue, Wilmette. | 1965 | June 7 | Began operating 10 air-conditioned buses (Vincennes-111th Express). |
| | | | | Aug. 18 | Governor Otto H. Kerner signed bill to reimburse Chicago Transit Authority for transporting school children at reduced fare. |
