OFFICE OF GENERAL SUPERINTENDENT OF TRANSPORTATION

March 2, 1953.

TO ALL BOULEVARD SYSTEM OPERATORS:

The telephone number of the General Office of the Chicago Transit Authority is MOHAWK 4-7200.

In the event of any unusual delay or occurrence it is necessary that all operators call Mohawk 4-7200 and ask the operator for the Radio Dispatcher and transmit to him all the knowledge they have about the occurrence, stating the location of the trouble, run number, direction, bus number and nature of the trouble.

Whenever a bus becomes disabled operators shall call the Radio Dispatcher, instead of the garage, and the radio dispatcher will notify the garage of the trouble, and obtain a replacement bus.
