A Nation-Wide Service

With the previous (Sept. 1961) issue of the GLOBE TROTTER we have completed twelve issues on the subject of THE TRANSFER CONCEPT. It was suggested at the time that you might want to keep the issues in a binder of some sort, in order that they may serve as a means of reference on questions of TRANSFER DESIGN AND HANDLING.

In order to facilitate this we are making up this present issue to serve as INDEX for quick finding of the various captions incorporated in the series.

No doubt you will want to keep it in your binder, on top of the issues on the subject mentioned. The twelve issues run from September 1960 through September 1961, omitting December 1960 which appeared as a Christmas issue.
