PARTICIPANTS IN VALIDATION

Several times before, in our May 1962 number for example, the fact has been mentioned that the Parking Industry has done much in promoting its own form of VALIDATION through PARK AND SHOP programs. In appraising this effort it will be of interest to once again look at lists of stores and banks that were regularly participating in Park and Shop plans as far back as 1960. In this issue therefore we are reprinting lists of participating stores and participating banks and investment companies which were originally compiled and published by the National Parking Association. We are reproducing them with the kind permission of this organization and its organ "Parking".

Since the publication of these lists the strenuous and intelligent efforts of parking interests which have continued unabated, without any doubt have both extended and broadened these lists considerably. Also and due to the efforts of that industry plus those of transit interests the proportion of cases where participation extends over Ride and Shop programs as well as Park and Shop arrangements has increased since then. Nevertheless there still exist many locations where Park and Shop arrangements exist almost as a matter of course, but where no equivalent Ride and Shop plan is in effect.

Yet, as has been asked before, is there any good reason why Park and Shop should continuously operate successfully but Ride and Shop should not? Both are good for DOWNTOWN, both can do the job for which each is best suited, both can profit by doing that job well.

The file folder shown on the cover page of this issue has been made up by us for your convenience in keeping on file the issues of the Globe Trotter on Shoppers' Validation. If you do not have it or would like another, please let us know.
