S151-91

TO: All Concerned, Rail
SUBJECT: Reroute, North-South Route
EFFECTIVE: Sunday, April 28, 1991 - 0600 hours to 1600 hours

As shown above, **Northbound Track 3** between Wilson Interlocking and the left-hand crossover at Berwyn will be out of service while CTA forces install ties. Joe Rogovic, K-448, channel 2, will be in charge of the work site.

REROUTE

Northbound Normal to Wilson Interlocking where trains will be routed by towerman onto **Northbound Track 4** into Wilson Station. Motormen will operate **north** to the left hand crossover at Berwyn. On receipt of proper signals, operate onto **Northbound Track 3** and proceed normal.

Northbound trains will make a passenger stop at the east platform at Wilson. A bridge will be placed over Track 3 allowing passengers to cross from the east platform to the main platform.

SPECIAL NOTICE

Northbound Conductors must make the following announcement when leaving Addison and Sheridan Road Stations: "This **northbound** train will not stop at Lawrence and Argyle Stations. Passengers who wish to alight at these stations must take this train to Berwyn Station, then take a **southbound** train back to your intended station". Agents at Lawrence and Argyle Stations must make the following announcement to **northbound** passengers: "**Northbound** passengers must take a **southbound** train to Wilson Avenue Station, alight and then take any **northbound** train to your destination".

- Switchmen will be on duty at Berwyn Crossover.
- A towerman will be on duty at Wilson Tower.
