Dear Rider,

As announced earlier, the **Paulina/Ravenswood Station** will close at 12:01 a.m., **September 2.**

We're not any happier about the closing of your station than you are, but if we don't shut down those stations which fail to support their share of the service, where alternate service is available, the entire CTA system would be endangered. We owe it to our riders to try and keep most of CTA's wheels rolling until a permanent solution to financing mass transit in this area can be found.

As alternates to the **Paulina/Ravenswood Station** we suggest the **Addison** station 1/3 mile northwest on Lincoln, or the **Southport** station three blocks east on Roscoe. The **11 Lincoln** bus provides service between the Paulina station and both the Fullerton station to the south and the Addison station to the north.

Your understanding is appreciated.
