## Honor to 7,915 Trainmen

*Great Accident Prevention Dinner at the Stevens—Lincoln's Silver Trophy*

Division Superintendent R. L. Hays,  
Eleventh Division

Asst. Div. Supt. E. C. Zage

Lincoln's won the trophy and we honor them tonight,  
Won it on their merits by a long and plucky fight,  
Hays and Zage led them and they surely led them right,  
For they won' the Silver Car.

Answering the question: What's this shindig all about?  
Lincoln won the trophy and the rest of us are "out."  
But none of us are kicking—can't you hear us as we shout:  
"Old Lincoln won the Car."

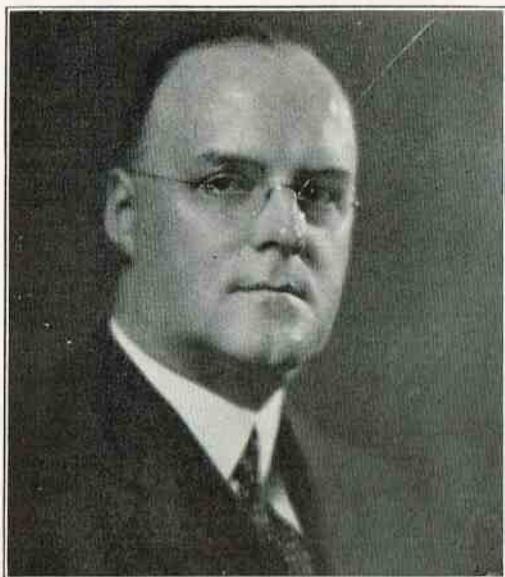

Glory, Glory, Hallelujah; Glory, Glory, Hallelujah; Glory, Glory, Hallelujah,  
Old Lincoln won the car.

If Lincoln hadn't won it, why some other station would—  
Old Burnside was a-trailing 'em and running mighty good,  
And look at Elston-Noble, just remember where they stood,  
But Lincoln won the car.

While each of us is looking for a handy alibi,  
There's no one can convince us that we didn't really try,  
And we're starting nineteen thirty with our hopeful battle cry:  
"We're going to win that car!"

Glory, Glory, Hallelujah; Glory, Glory, Hallelujah; Glory, Glory, Hallelujah,  
We're out to win that car!

And maybe the 2,000 trainmen in the great ball room didn't lift the roof with the chorus! Ask the man who was there.

Vice President Richardson

The accident prevention dinner at the Stevens Hotel on April 3 was the largest and most enthusiastic of any similar meeting in the five years these dinners have been held. It was in honor of 7,915 trainmen who operated their cars last year without a single chargeable accident, and also for the purpose of awarding the silver car trophy to the Lincoln Avenue Division, winners of the accident prevention contest last year.

Mr. Pasche, supervisor of Accident Prevention, who presided, identified the executives at the speakers' table individually with a few words of appropriate comment as each stood for a moment for the introduction. Then the diners devoted their attention to the menu which the Stevens chefs had prepared for the occasion:

**Non-Chargeable Menu**

Celery — OlivesRoast Young Turkey a la Hays  
Old Fashioned Cranberry Sauce  
Collision Potatoes String Beans

Combination (Hays-Zage) Salad

Carmen Ice Cream

Wm. Pasche, Supervisor Accident Prevention

A special souvenir program with crimson and silver covers was used as a decorative feature, dressing the tables in the great ballroom effectively.

The dinner was attended by approximately 2,000 trainmen, who were seated in the Grand Ballroom of the Stevens.

Community songs, written for the occasion, were sung with spirit under the leadership of Mr. O'Day. The ever popular "Hail! Hail!" ran this way:

Hail! Hail! The gang's all here,  
Silver Trophy Dinner,  
Lincoln is the winner.  
Hail! Hail! The gang's all here,  
This is Lincoln's night to howl!

Then there was an appeal in behalf of safety goggles that ran like this to the air of "School Days":  
Brown eyes, blue eyes, we must have our two eyes

When we are working, we need to see  
What we are doing and you'll agree  
Goggles are made to save your sight.  
That they will do—so wear them right.  
If not, you may suffer a big surprise  
And won't have a couple of eyes.

This one to the air, "Let Me Call You Sweetheart" was particularly enjoyed:

Let me "call" you, Casey,  
I've a run for you;  
Let me hear you answer  
That the run will do.  
Here's your blooming trip-sheet  
There's your "horse"—McGlue—  
Now, Conductor Casey,  
It is up to you!

Music was furnished by an orchestra and by the Surface Lines Quartet, Messrs. Shaubel, Gash, Bohlin and Marshall.

C. H. Evenson, Superintendent of Transportation

Seated at the speakers' table with the officers of the Chicago Surface Lines were William D. Mahon, International President of the Amalgamated Association of Street and Electric Railway Employes, William Quinlan, President of Local 241, and other union officers. The theme of the evening was co-operation between men and management in the effort to prevent accidents.

"I have seen the day at Kedzie Avenue," Mr. Quinlan said, "when the company hired two or three men to make out accident reports, and I suppose they did it at other stations also. Today they have no one making out reports for the men. Accidents have been wonderfully reduced on this big system in the last three or four years and this is due to the co-operation of the men and the company. I must say that with Mr. Richardson and the barn foremen and the superintendents, or wherever we go, we get a fair break and this condition is constantly improving."

Mr. Mahon was equally earnest in urging co-operation. After calling attention to the tremendous loss of human life

from automobiles and on the steam railroads, he said:

"Our organization last year had 76 men killed. The year before it was 131. Forty-one of those killed were run down by automobiles while they were turning their trolleys at the end of the road or in other similar ways. Our biggest list of killed and injured come from automobile accidents.

"Stop and think what these deaths mean. Give them consideration, and then you get the importance of our struggle for safety first. Life is something we cannot replace."

And on the same subject of co-operation, Mr. Richardson declared:

"Without the co-operation of the men in our organization in all of our efforts to prevent accidents and save human lives, we could have accomplished little or nothing. With their co-operation we made a record which proves conclusively the value of accident prevention work. The cumulative results of these efforts in the past five or six years mean more in the saving of human life and the prevention of permanent physical handicaps than we can ever know. Cold, matter-of-fact statistics cannot show the full measure of benefit derived by the men in this organization and those dependent upon them, or by the public whom they serve.

"There is, of course, a considerable economic advantage to the company and to the owners of the properties in the prevention of accidents, but the greatest benefit is to the employe and to the public. The saving of human life and the prevention of personal injury is of such tremendous importance that it should have the earnest attention of every employe and every official of this company."

Mr. Pasche read a telegram from President Blair congratulating Mr. Hays and the men of Lincoln and complimenting the entire organization on the effectiveness of the accident prevention movement. This was received with cheers and applause. Later Mr. Pasche, after praising the efforts of the trainmen, read a letter written by Dr. Herman N. Bundesen, Coroner of Cook County, and addressed by him to all Surface Lines trainmen. In this letter, Dr. Bundesen highly compliments the Surface Lines on its accident prevention work.

"If there is one group of men in this county deserving of credit for the maximum of caution and constant watchfulness over the safety of others in the midst of traffic jams, congestion and carelessness, it is the conductors and motormen on our street cars," Dr. Bundesen says. "This is shown by official figures just compiled in this office.

"I have watched this thing for years, first as Commissioner of Health and now as Coroner of Cook County, and it is my pleasure, as well as my duty, to give you credit."

Mr. Richardson's address, which was closely followed, contained a number of impressive observations:

"Perhaps more remarkable even than the large number of men who have had no accidents in one year," he said, "is the record of those who have gone for two years or three years without chargeable accidents. Of the total 7,915 men, 4,887 operated during two years with a clear accident record and 2,915 of these can now boast of three full years' operation without a chargeable accident.

"It should be the ambition of every man who has attained the distinction of inclusion in this no-chargeable-accident group to retain his place in that group. As the years pass, those who have a clear record from the beginning will have a distinction well worth while.

"In compiling the information on accident prevention last year, Mr. Pasche, Supervisor of Accident Prevention, discovered some interesting facts. For instance, of the 7,915 men with no chargeable accidents last year, 1,000 had no accident of any kind. In addition to the accidents they avoided by being careful, they were fortunate in not having any accidents at all happen in the operation of their cars.

"It was found also that while new men in the service for two years or less represent only 10 per cent of the total number of men employed, they were responsible for more than 30 per cent of all the chargeable accidents. On the other hand, men who have been in the service ten years or more—representing more than half of all trainmen—had only about the same percentage of accidents. In other words, men in service two years or less had an average of five times as many chargeable accidents as the men in service ten years or more. This is confirmation again that the man seasoned in service is the more careful.

"When you consider that this system

last year carried more revenue passengers than all of the railways in the nation and that the number of rides—including transfers—was equivalent to 13½ times the entire population of the United States, you get some conception of the opportunity for accidents presented in the streets of Chicago every day and you can realize more fully the care that must be exercised to build up the kind of safety record we have.

"Last year 407,000,000 riders were carried for each fatal injury to a passenger.

"A special word of commendation is due the motormen. The motormen on the Chicago Surface Lines last year operated their cars a total of 137,300,000 miles. Much of this mileage was operated through highly congested sections where traffic hazards are great and where extreme care, coolness and judgment are necessary at all times if accidents are to be avoided. Nevertheless, more than half of the motormen on this system—53 per cent to be exact—are included in the group of men who had no chargeable accidents. The 3,271 motormen in this group operated a total of nearly 73,000,000 miles in Chicago's principal streets and at the end of the year had a clean accident record.

"It is worthy of note, also, that although there were 41,000 more automobiles on the streets of Chicago last year than during the previous year, the number of fatalities involving street cars was the lowest since the unification of the properties in 1914, with the exception of two years."

The silver car trophy was presented to Lincoln Avenue Station by Mr. Richardson through Superintendent Hays. This is the second time Lincoln Avenue has won the trophy and if it wins it again it is permitted to keep it permanently.

Mr. Richardson commended Elston-Noble, Division 10, which finished in second place and Burnside, Division 2, which took third place, and wished them better success next time. He pointed out that Lincoln Avenue had the distinction of winning first place both in safety and courtesy in contest with the other divisions of the system. Mr. Hays in accepting on behalf of his men indicated that they hoped to make it three by winning the 1930 contest.

## GOING AFTER WITNESSES

Still Holding to Better Than Four in Every Division—North Avenue Leads

The "boys" after bettering their averages every month for the past year until they reached a high mark of 4.87 for February must have decided to slow down and take a rest, and as a result the average for the system for March is 4.82. But one thing is certain and that is for five months not one division has scored lower than 4.00 and that's something to write home about!

North Avenue is still in its usual place, first, and Burnside is right behind with a score of 5.32.

## CARPLACER SAM LONDAS, HERO

Saves Life of Two-Year-Old Child by Prompt Action

On the morning of April 4, 1930, the attention of Sam Londas, Car Placer, Cottage Grove Depot, was directed to a colored child who had crawled to a perilous position on a window sill in his home. The child, about two years old, was Frank Bourgouis, Jr., 3832 Langley Avenue.

Without hesitation Londas proceeded to rescue the child. When he was told that no one was home in the house, he battered down the locked door and arrived at the open window, just in time to grasp the child as he was falling from the second story window.

Mrs. Bourgouis who had gone to the store leaving the child in the locked house saw the rescue as she was returning home.

The fellow employees of Londas are indeed very proud of him.

Although he was well along in years, he was as active as younger men in the department. Funeral services were held April 3 and conducted by the Ben Hur Lodge A. F. & A. M. Mr. Arentz will be missed not only in our department but by many others in the company with whom he had contact for the past thirty years.

##### A Worth-While Resolution

"When I am driving on a street  
Where little folks I'm apt to meet  
Who dash across the street in play—  
I hope I'll drive in just the way  
That I would drive if mine were there  
Upon that crowded thoroughfare."

Two pickpockets had been following an old man whom they had seen display a fat wallet. Suddenly he turned off and went into a lawyer's office.

"Good lor'," said one. "A fine mess. Wot'll we do now?"

"Easy," said his mate, lighting a cigarette. "Wait for the lawyer."

## THE CLUB'S BIG NIGHT

### Banquet in Gold Room at the Congress Tuesday, April 22

Now that the Accident Prevention Dinner is a event of the past, all eyes of Surface Lines Club members are set on their Annual Banquet, which is to be held this year at the Congress Hotel in the Gold Room. The date is Tuesday evening, April 22, at 6:45 sharp. President Fanning and his Committee are not saying much about the program of entertainment, but it has leaked out that there will be some surprises. This, with a well selected menu and good music, will be more than worth the price of a ticket, which may be had for \$2.00 from the Departmental Directors. Members are urged to go direct from work in their business clothes and are assured that the program will end at 9:00 o'clock.

Notwithstanding the severe snow storm on the evening of Tuesday, March 25, the Card Party for men only was held at the Surface Lines Clubhouse and drew a fairly good attendance. Chairman Wheeler is entitled to credit for originating this event and for the selection of some worthwhile prizes.

Unless present arrangements fail, the Annual Roller Skating Party will take place on Monday evening, April 21, at Madison Gardens. Be sure to ask your Departmental Director about this as it usually means an evening of real sport with some good prizes.

Those who were unable to secure tickets last year for the Kabaray Party are on the alert for another evening of a similar nature which is scheduled for Saturday evening, May 17, at the Clubhouse. This is to be a Palm Beach Party with all the trimmings of that delightful Florida resort, with dancing and entertainment to fill in the program.

### Girls "Pic-nic" in March

Imagine attending a picnic in March in Chicago! The hundred or more members of the Women's Auxiliary and guests enjoyed it to the utmost. There was a fish pond with rod and line to catch "fish," which proved to be souvenirs; fortune

telling; hand ball; "Who has the pie plate?", and many other games, all going on at the same time in different parts of the ballroom of the Clubhouse, where the "picnic" was held after the regular monthly meeting on Thursday evening, March 20th, the girls of the Insurance-Purchasing, Schedule and Transportation Departments being hostesses.

For those who did not care to "picnic" tables for bridge had been set up. After games and bridge were finished and prizes awarded, picnic lunch boxes were passed containing daintily arranged sandwich and pickle, cake, peanuts, napkin and spoon. Delicious coffee was also served.

One of the pretty features of the evening was the presentation by Mrs. Tabb, President, of a beautiful bouquet of spring flowers to Miss Marie Krausman, Chairman of the evening's entertainment, and corsage bouquets of lovely pink or lavender sweet peas to each of her willing helpers on the committee.

### Women's Auxiliary

As announced in the March issue of the Surface Service magazine the Annual Banquet and Election of Officers for the ensuing year will be held Thursday evening, April 24th, at 6:30 p. m. After going over the ground it was decided to hold it at the Palmer House. As usual the Program Committee will be in charge of the entertainment.

Thursday evening, May 1st, the Drama Committee is attempting a maiden effort and presenting a little play in which members of the Women's Auxiliary will be starred. Our Auxiliary Mae Tinee will be present to award the play its full quota of stars.

Thursday, May 15th, the newly elected officers will be installed and a program and social evening will follow. The retiring Board of Directors will act as hostesses for the occasion.

### Around the World

**Traveling Man**—Does this car always go as slowly as this?

**Interurban Conductor**—You shouldn't complain; you've been riding on this car only about 30 minutes, while I have been twelve years.

**Traveling Man**—Is that so? Well, at what station did you get on?

"Well, how do you find married life?"

"Great fun.—My wife cooks and I guess what the dish is."

### LINCOLN'S NIGHT

The Accident Prevention Banquet on the night of April 3 was remarkable in many aspects. Never was there a more enthusiastic crowd than the two thousand men who filled the tables in the Stevens Grand Ballroom.

At the speakers' table there were gathered the international and local officers of the Amalgamated Association and representatives of the executive departments of the Surface Lines.

Mr. Mahon, the International President of the trainmen's organization in a forty-minute address emphasized the humanitarian and economic importance of the Safety First movement showing that he was in perfect accord with the management in the activities for the conservation of life, limb, and property. To him, as to the management, it appeared that, Safety First, as practiced under the direction of the Accident Prevention Department, yielded a direct benefit to the members of the union, reducing accidents, fatal and otherwise to the men of the train service; and to this activity he gave his unqualified endorsement.

Moreover Safety First had a direct bearing on the great question of unemployment. The safer we made our service the more attractive it was to the public. The more the public rode the more service we would have to supply. Increase in service necessarily meant an increase in the number of men required, thus tending to relieve the unemployment situation. So from whatever angle the Safety movement was viewed it was beneficial to the public and to the employees.

The figures quoted by Mr. Richardson

in his address showing the concrete effects of careful and skillful operation on part of both motormen and conductors were in themselves a wonderful tribute to the men.

In presenting the Silver Car Trophy to Mr. Hays and the men of the Eleventh Division, Mr. Richardson referred to the closeness of the race which, if carried on through 1930 should give us another record of which we can be proud.

### MARCH! GOSH!

There are no words left in the editorial vocabulary adequately to comment on the kind of weather dished out to us by the gentlemen who run the Meteorological Department for the government. We could not even find language to describe it. Everybody experienced some of the discomforts to which the whole city of Chicago was subjected. We did not even request our experienced descriptive writers to attempt to tell the story of that awful final week of March.

There will be found elsewhere some pictures that tell their own tale of labor and difficulty.

All of the wonderful expressions of gratitude and appreciation employed by the management in relation to the heroic efforts of our men in December will apply to the loyalty, co-operation and uncomplaining service rendered by our snow shock-troops in the March blizzard—the worst storm in the history of this transportation company.

March! Gosh!

### Scots Never Forget

Two Scotsmen had not encountered each other for 20 years.

"Well, well, well," said one, "this is an historic occasion. We'll have to wet it."

"Aye," agreed the other, "so we will. But ye'll forgive me for remindin' ye that I paid last time."

### The Modern Druggist

Two druggists were talking about one of their confreres who had just died.

"He was a great druggist," said one.

"He was," admitted the other. "But don't you think he made his chicken salad sandwiches a little too salty?"

Outside the storm raged. The deafening thunder rolled and lightning flashed almost continuously. Presently a bolt struck Mr. Jones and knocked him completely out of bed. He rose, yawned, rubbed his eyes and said: "All right, dear. I'll get up."

Sweepers Were Not Very Effective in This Kind of Material

This Was the Sort of Solid Stuff the Gangs Had to Contend With

The March blockade of three to five inches of ice resisted all mechanical attack. Plows with tool steel teeth only scratched the surface. It took 4,000 tons of salt and 10,000 picks and shovels to open things up.

### At Eventide

The shades of night were falling fast,  
As down the rails a street car passed.  
Ahead the autos thickly massed—  
And blocked it.

### Desperate

Lady Driver: "Tell me, George, quick! Which is the right side of the road to keep on when you're running down a hill backward like this?"

There are poor people in the Tennessee mountains who live in such dilapidated shacks that every time it rains they have to go out and get in the sedan.

Doctor: "This is a very sad case. I am afraid your wife's mind is completely gone."

Husband: "I am not a bit surprised. She has been giving me a piece of it every day for the last fifteen years!"

## DEFACING TROLLEY POLES

### "Tribune" Poet Criticizes Law Breaking Political Candidates

By the glaciers of Alaska  
 Rear the totem poles of worship,  
 Crude, uncanny tribal worship  
 Of the quaint northwestern red men.  
 Ugly faces, as from nightmares,  
 Make Lon Chaney's mug look winsome  
 As they grin atop each other  
 In the totem pole's queer carving,  
 Grin and squat like toads infernal,  
 With their varihued complexions  
 And their dental revelations,  
 Blear-eyed, hook nosed, most gosh-awful,  
 While on top some wild whangdoodle,  
 Goofer-bird or jabberwocky  
 Makes the whole doggoned ensemble  
 Something human eyes don't treasure.

On the loop streets of Chicago  
 Rear the trolley poles of service,  
 And, with an election coming,  
 They are covered up with posters,  
 Horrid, cheap election posters  
 In a drunken mess of colors.  
 "Vote for Smilch!" "Mark X for Nitz-wit!"  
 "Watt A. Floppé, the Square Deal Leader!"  
 "I'll Enforce the Law—B. Loney."  
 And the faces of the bimbos  
 Who are chasing public office!  
 Trolley poles dressed up in faces  
 Which no beauty prize e'er garnered,  
 Making totem poles seem pleasant,  
 Almost things of raptured beauty  
 When compared to street-car columns  
 Decked with mugs of office seekers  
 And those posters—"Vote for Hoozis."  
 No, I'll sneer no more at totems  
 Nor say, "Tote 'em to the junk yard!"  
 For I've seen lots worse in Clark street  
 On the trolley poles, poll-ghastly!

A colored man got his nerve together and took a flight in an airplane. As he climbed out of the ship on its return to the field, he turned to the pilot and said:

"What are you talking about?" said the aviator. "You only had one."

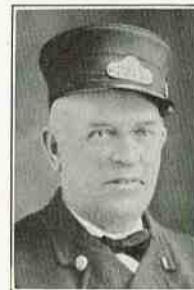

"No, suh," returned the passenger. "Ah done had two—mah fust an' mah last."

## HANRATTY ON VETERAN ROLL

### Not All the Time in One Department but 31 Years in Transportation

James Hanratty

Chicago, March 20, Editor of Surface Service Magazine: In the February magazine you had an honor roll in which I did not appear. I have been with the company since the fall of 1882. I worked for many years in the Western Avenue car barns and in August of 1899 I went on the cars as Motorman and have been on Grand Ave. ever since. James K. Lake was Superintendent; M. McCarthy was barn boss. The company then was Chicago West Division Railway Co. If long service is an honor I wish to have it.

James Hanratty,  
 Badge 7275, North Ave.

(The records show that Motorman Hanratty entered the train service August 14, 1899, so that he does not qualify with forty years or more in the train service. A memorandum attached to his record states that he worked in the barns for 17 years prior to coming into the train service—Editor.)

## KEEPING 'EM ROLLING

**Blue Island Wins March Contest—Good Showing for the Month Considering the Weather**

Blue Island moved all the way up from 13th place last month to the head of the list, operating their cars 34,232 miles per car pulled in for equipment failure. This carhouse also made the biggest percent increase of the month, 142.6%. Blue Island also had 19 days without a pull-in, which is the record for the month.

The average mileage per pull-in for the system is 19,139 miles, an increase of 3,754 miles over the month of February, or 24.4%. Fourteen out of the sixteen carhouses increased their mileage over the preceding month.

The heaviest snowfall in the history of Chicago, during the month of March, is accountable to a great extent for the increased number of pull-ins. This storm had a very unfavorable effect on the equipment.

The individual records appear below:

## Safety in Slumbers

"Does your husband talk in his sleep?"

"No. But he's awfully exasperating. He only smiles."

## Departments and Divisions

## Accounting

As this goes to press, Miss Agnes Helin's many friends will be happy to know that she is convalescing at her home after an extended illness.

Employees of the department extend their heart-felt sympathy and condolence to Miss V. Kamholz in the loss of her mother.

Mr. L. Francoeur is wearing a happy smile caused by the advent of a baby girl, born March 5. We wish to congratulate the proud parents and hope for the best of luck and success to the little one.

## Shops &amp; Equipment—North &amp; West

**West Shops:** During the recent snow-storm most of the Drafting Room resorted to the elevated for transportation, and on Wednesday evening, from all appearances, Charles Larson was experiencing his first "L" ride.

We hope for a speedy recovery to Joe Nemecik's wife, who has been seriously ill for the past two months.

Anton (Tony) Vihnanek of the Drafting Room, star bowler of the Shops team, surprised the boys on the evening of March 14th by shooting a 279 game, which entitles him to first prize for high individual single game.

Our sincere sympathy is extended to the family of Fred Galis, who was fatally injured on March 29, when he was brushed off the car by a large truck. Mr. Galis had been employed as a carpenter at the West Shops for the past twenty years, and previous to that time was employed at the South Shops.

Ella Rall created considerable excitement in the office the other day, when she wore a new tight-fitting black dress, which made her look like a perfect thirty-six.

"In the Spring a Young Man's Fancy"—is surely the case with Walter Hager. He is anxiously waiting for the new trolley busses to run west on Belmont Avenue, so that he can stay later and get a little more sleep, because he does not get much good out of his daily nap at noontime.

Henry Figge, who has always had the name of being a good machinist, and a good judge of cars, as he has owned several second-hand Buicks, has ruined his reputation by buying a Chevrolet.

**Elston:** We extend our sincere sympathy to the family and loved ones of Oscar Nelson, who passed away March 30. He will be missed by all of the boys at Elston, as he always had a pleasant word for all.

During the big storm of March 25, T. Makrer started for work as usual Tuesday morning, and arrived on time to go to work Wednesday morning. He says snow-storms cannot stop him.

Jane V. McCarthy.

**South Shops and Carhouses**

Pete Lukas, repairman, 77th Street, is still talking about matrimony.

John Zalis, wheel turner in the Machine Department, was lost in the recent snow-storm. John left the shop on Tuesday and on Thursday his wife called up to report he had not yet reached home.

The baseball experts, Emil and Dusty, in the Machine Shop are busy again, and pick the Cubs to finish first again this year.

It is no longer a mystery about the spare tire of Charley Walsek, 77th Street. Ask Tom Madigan for information.

The boys in the Machine Shop are sorry to hear of the death of Supply Car Motorman Frank Donlan, after an illness of two months. Frank had many friends and was well liked by his fellow workers. To his bereaved family we express deepest sympathy.

**Electrical**

Our sympathy is extended to Mrs. Mike Mullen in the loss of her beloved husband, elevator operator at our Market Street Building. Mr. Mullen had been a faithful employee of the company for the past thirty-five years.

Phil O'Grady has the heart-felt sympathy of the department in his recent sorrows. While down South with his wife on account of her health, he received word of his mother's death, which compelled him to return to Chicago at once.

The membership committee of our club has advised your director that this department is not 100% in membership as yet. Will each member please tell his fellow worker about this and see that he has an application card to fill out? Slogan—"Electrical Department 100% Membership for 1930-1931." It can be done.

We are glad to have James McDermott back with us again after his long illness.

"Billy."

**Material & Supplies**

We wish to extend our most heart-felt sympathy to Herb Hoger in his bereavement over the loss of his son, and to Mr. Schultz in his bereavement over the loss of his wife.

R. E. Buckley.

**Engineering**

Harry Abbott, who captains the Engineering Team in Surface Lines Bowling League, went wild on the night of February 28th. Harry shot 265, 212 and 176, a total of 653 pins for the series. This is high series to date in the league, and is all the more remarkable when we consider Harry's advanced age.

Just before going to press, we learned that H. Kirkman, Timekeeper in the Northern Division, had become the proud father of a newly born girl. We extend congratulations.

Mr. Korosy finally got rid of his old flivver but won't tell how much he paid the junkman to tow it away.

The sympathy of all of his fellow-workers is extended to Bryan Moloney, whose mother died on March 21st.

Transit.

## Around the Car Stations

**Cottage Grove**

Our Division Superintendent Mr. C. Cricks and his assistant, Mr. H. Hooper, wish to express their deep appreciation to all the trainmen at this depot for their splendid cooperation and loyalty in working so unceasingly during the snowstorm of March 25 and 26 which was one of the worst storms the Chicago Surface Lines ever encountered. Our division was the first to get all the lines opened up and to maintain its regular schedule which was due to the perseverance and hardships of our trainmen. Both Mr. Cricks and Mr. Hooper take this means of expressing their thanks to every trainman in this division. Some of our trainmen also assisted in opening up other divisions.

A very pretty wedding took place on Thursday evening, Feb. 27, at the Windermere Hotel East when Miss Lily May Bell and Mr. J. M. Richardson were united in marriage by the Rev. Mr. Tate of the Congregational Church. Mr. William Claxton acted as best man. The decorations were American beauty roses and lilies of the valley. The lighting effect for which this hotel is noted was very effective especially when the waiters dressed in white paraded around the wedding party of 30 couples with illuminated ices. After the wedding supper the bride and groom left for their honeymoon to Little Rock, Arkansas, then attended the Mardi Gras at New Orleans, to Belozi and played several games of golf at Hot Springs before returning home. Mr. Richardson is a popular Conductor at this depot and his best man being Mr. William Claxton, our popular jesting Motorman. The trainmen wish the bride and groom much happiness in their travels through life together.

Supervisor of Motormen John Todd entertained a few friends at his home, 4748 Drexel Boul., it being the 25 Anniversary of his wedding. Many beautiful gifts of silver were sent as presents and more were promised Mr. and Mrs. Todd on their golden wedding anniversary, 25 years hence. The trainmen wish Mr. and Mrs. Todd good health and prosperity to enjoy their golden jubilee.

Conductor Geo. L. Hensley has returned to work after spending a very pleasant vacation visiting Hot Springs, The Mammoth Cave, Los Angeles and other places en route. He is much benefited by his trip.

**Archer**

A few warm days gave us the spring fever thinking winter was over and while many were thinking about our vacations, days and week trips out along the country roadside to enjoy the fresh breezes and the basket lunch, Old Man Winter came rip snorting, bolting in at midnight on Monday, March 25th, and gave a much unpleasant surprise, paralyzing the car service for three days. The blizzard surpassed previous storms, even old "BIG JUMBO" (The tank) of power and strength was baffled and was

forced to surrender to the raging storm. All service cars and snow equipment were stalled along the lines and our only recourse was the human hands. Through the ardent efforts of the train-crews and the track department, service was restored to normal on the following Friday. Much might be said of the long and trying hours put in by all to open up the lines. The pick and shovel gangs, the boys with only the switch iron and broom all did their bit. Some of the boys went home for reinforcements when the supply of working implements were exhausted. Others helped out by bringing out their autos for means of transportation to get the shovel gangs to the stalled snow equipment. More friendly patrons along various lines came out and helped with the shovel while others brought out lunch and hot coffee. Supervisor Tom Newell borrowed a spade from a neighborhood woman. To make a short story long, Tom has lost the spade and is now indebted to the lady and is still looking for the shovel. These are reminiscences of the past to be jotted down in memories of life's history. Boys your Division Superintendent is proud of you for the wonderful work and appreciates your efforts.

#### 69th

A few words of praise for a quick witted crew in charge of a North bound Ashland Avenue car on the night of March 25, 1930. During the big snow storm the car became derailed on the Rock Island Railroad crossing. The crew of snow workers included H. T. Quirk, starter, C. A. Kirk, A. R. Popelka, T. P. Sanderson and J. R. Watson. This is what was done: Starter Quirk ran to Loomis Street depot where he stopped a train. At the same time Kirk was running to the tower west of Ashland Avenue, notified the towerman and borrowed a red lantern from him while Clerk J. H. McAllister took red lanterns from the depot, got into a cab and got there in great haste. In just 25 minutes these men had the car back on the track with the aid of another street car. This was a great piece of work.

During the big snow storm there were many people who served our trainmen with hot coffee and it was sure appreciated. One trainman gave us the name of Mrs. Ryan, 7146 S. Racine Avenue, and there were many others.

Conductor H. M. Brown had the misfortune in the loss of his father last month; Motorman J. Carney and Conductor J. Foley each lost their wives during the month of March, 1930. We also failed to mention last month that Conductor J. J. Burke lost his mother during February, 1930. Division 4 expresses sympathy now through these columns in their bereavement.

Conductor M. J. Lavin is the proud father of a baby girl weighing 7 lbs. and 10 ounces.

W. L. Pence.

#### Blue Island

We all wish to extend our sympathy to the following and their families in their recent bereavements. J. Babka the loss of his sister; C. Bauer the loss of his mother; M. Finklestein the loss of his brother-in-law; T. McIntyre the loss of his brother-in-law; and W. Sheridan the loss of his mother-in-law.

Conductor J. Hoffman was presented with an

8½ lb. boy on March 28th, and Conductor L. Kucera was presented with a 7½ lb. boy on March 20th. Congratulations.

Mr. Maguire wishes to thank the trainmen for their untiring cooperation in combatting the recent snow storm which was the worst storm we ever encountered.

C. P. Starr.

#### North Avenue

As you know on March 25 and 26 Old Man Winter did things to us in a big way. The onslaught was terrific. With all of our snow equipment out and in the hands of our snow fighting aces we were practically at a standstill by Tuesday noon. You have heard of the railroad being built over eternal ice in the Hudson Bay region. Our railroad seemed as though it was under eternal ice packed in the grove by trucks and autos. But our men continued to fight to open things up. There is but one formula for such a battle, to fight without a break; to fight with plow and sweeper, pick and shovel, switch iron and broom; fight all the time and keep on fighting. Thursday saw us in fairly good shape and by Friday we were running almost on schedule. Superintendents, clerks and trainmen were on continuous duty all through the storm many as much as 48 hours without a rest. We are glad spring is here.

C. A. Knautz.

The Checker cab in which the wife of Mot. Kirchberg was en route to the Evangelical Deaconess Hospital early in the morning of March 11th met with an accident. As a result a baby born to Mrs. Kirchberg at three o'clock that morning died at 7:00 a. m. the following day. Mrs. Kirchberg is, however, on the road to recovery at the hospital. Mr. C. H. Evenson has instructed the Legal Department to provide free counsel for Mr. Kirchberg in his forthcoming suit against the Checker Cab Company. We extend to Brother Kirchberg our sympathy in this regrettable occurrence and sincerely trust that the matter will be adjusted according to its merits.

#### Lincoln

During the recent snow storm when the traffic was tied up and the boys were all out doing their part in helping clear the tracks, they met with many kind and thoughtful people, among them N. F. Gabel, plumbing contractor, 2856 Lincoln Ave.; Krueger Bakery, Lincoln Ave., and Greenview; Jeweler Albert Scherer, 3422 Lincoln Ave., and the Blummer boys of the Lincoln Chemical Co., also of 3422 Lincoln Ave., who furnished them with hot coffee, sandwiches and cakes. This was surely appreciated by the boys.

The Transportation Department also expresses its thanks and appreciation to the following who furnished food and coffee free of charge to trainmen and snow shovelling crews during the recent snowstorm: Mrs. W. H. Engebretsen, 4040 Montrose Avenue, and Mr. and Mrs. Frank Beno, 4596½ Elston Avenue.

## "WATCHING" E. L. MAGUIRE

**Superintendent of Sixth Division Surprised on Fiftieth Anniversary of Service**

Columbus had discovered America there had been some difficulty between the mother country and the colonies, gold had been discovered in California, the covered wagon rush across the trackless prairies had passed into history, Chicago had developed from a trading post to a city, had been destroyed and rebuilt—all of this prior to the employment in a minor capacity of a hustling youngster by the superintendent of a West Side street car company. The date was April 13, 1880, and the hustling youngster was Ed Maguire.

The completion of fifty years of service in the Transportation Department by Maguire, who rose through all the stages of street car activity to become the Superintendent of the Sixth Division of the Surface Lines, was an event of sufficient importance and significance to require some special recognition.

Vice-President Richardson, who has been much impressed by the rather remarkable record of this representative of

the Transportation Department, invited Superintendent Evenson and all of the Division Superintendents to meet him at luncheon at the Union League Club on Saturday, April 12.

After luncheon there was an interesting review of Mr. Maguire's activities, including a reference to the occasion when he was seriously burned at the Blue Island Avenue car house fire in attempting to save company property, and the high points in the history of fifty years were touched in a very interesting and complimentary manner. After listening to a rhymed disclosure of what was entitled "The Lowdown on 'Kid' Maguire," written for the occasion by Mr. Wilkie, Mr. Richardson presented to the veteran and honored guest of the occasion a beautiful Elgin timepiece suitably engraved to commemorate the half century of service of a very efficient member of the Transportation staff.

Mr. Maguire, who was completely overwhelmed, finally found words to express his appreciation and then received the individual congratulations of Mr. Richardson and his associates.

Little Eddie, Son of Conductor Thomas A. Arnett of Lawndale, and His Big White Dog

Young lady (just operated on for appendicitis)—"Oh, doctor, will the scar show?"

Doctor—"Not if you are careful."

# A Smile or Two from Everywhere

## Happy Days!

The dear old lady was chatting amiably with the innocent elevator boy as the lift rattled upward.

"Don't you find this work monotonous?" she asked.

"Oh, no, mum," came the reply. "Sometimes it's quite exciting. Only yesterday a man started to get out too soon, and got his head cracked; and last week the machinery broke down, and two people were hurt. And now this 'ere rope looks sort o' weak. I shouldn't wonder if it broke any time. And the engineer's ill today, and a hamatoor's on his job. It all makes things interestin'."

The judge had just sentenced the negro prisoner to a long term and the guards were taking him out the door when the judge shouted, "Bring back that prisoner. Don't you know better than to use such language to me and in the court room? I have a good mind to add five years to your sentence."

"Honest, jedge," said the prisoner, "Ah didn't say nothin' against you. Ah was just thinkin' that if ah couldn't get justice on this earth ah would get it in heaven, and ah was sayin' to myself, 'God am de jedge, God am de jedge,' just like that!"

Lady—"My husband is a deceitful wretch. Last night he pretended to believe me when he knew I was lying to him."—London Mail.

## How We Progress

In the old days, if anybody missed a stage coach he was contented to wait for two or three days for the next. Now he lets out a squawk if he misses one section of a revolving door.—America's Humor.

"And why did Noah take two of each kind of animals into the ark?"

"I guess he didn't believe that story about the stork."

Man, gazing at newly made portrait of himself: "Great guns! This is terrible! I look like a clown—a complete monkey!"

Photographer: "You should have thought of those things before you came here."

Conductor—Pardon me, lady, did you drop your handkerchief in the car?

Lady—Oh, I was never so embarrassed in my life. That wasn't my handkerchief; that was my dress.—The Inside Track.

Ike—Do you see this muscle? I can stop a car with it.

Admirer—Whew, some athlete.

Ike—No, I'm a motorman.—Baltimore Trolley Topics.

## Power of Ads

"I hear you advertised for a wife. Get any replies?"

"Yes. Hundreds."

"Good! What did they say?"

"Oh, they all said: 'You can have mine!'"

## First Fond Illusions

The Sister: "Captain Randall proposes in this letter. I wonder if he really loves me—he's only known me a week."

The Brother: "Oh, then, perhaps he does!"

It was the dear old lady's first ride in a bus, and she watched with growing alarm the driver continually putting his hand outside the bus as a signal to the following traffic. At last she became angry.

"Young man," she said, "you look after that bus of yours, and watch where you are going. I'll tell you when it starts raining."—Two Bells.

## Fifty-Fifty

"We have the best of it," said the farmer on the street car. "When all else fails we can eat our forest preserves."

"I don't know about that," replied the conductor. "We have our rush-hour jam."—Street Car Topics.

"Look, darling! Here's something about me in the newspaper."

"Oh, really? What does it say?"

"It says, 'In June the street car company carried 5,289,207 passengers.' Well I was one of them, wasn't I?"—Let's Go.

## What Makes It Go?

Woman (to street car conductor)—Does this car run by the museum?

Conductor—No, Mam, it runs by electricity.

Woman—Well, I thought it ran by music, as there's a harp at both ends.—The Vepcovian.

## Taking No Chance

The nervous old lady stopped the conductor and queried anxiously: "Are you quite sure the car will always stop when you pull that little rope?"

"Of course it will, Madam," replied the conductor, "the other end is tied around the motor-man's neck."—Key System Commuter.

Two ladies stopped at a livery stable and asked for a gentle horse to drive.

The liveryman brought out one saying, "This horse is perfectly gentle so long as you don't let the rein get under his tail."

Within a few hours they returned. "How did you get along?" asked the liveryman.

"Oh, we got along just fine. Had a couple of showers while we were out, but we took turns holding the parasol over the horse."
