APRIL 1938

NUMBER 1

ACCIDENT PREVENTION NUMBER

CONGRATULATIONS FROM SUPERINTENDENT HALL

To Chicago Surface Lines Trainmen:

While the accident totals for city, state and nation are constantly increasing, the decrease recorded through the accident prevention practices of Chicago Surface Lines trainmen is especially noteworthy.

The operating force is to be highly commended on the fine showing made during the last fiscal year.

There were more automotive vehicles in the streets in this period than ever before in the history of Chicago. More car and bus miles were operated than during the previous year.

In spite of these facts, the report for the year shows a decrease of 1.4 per cent in accidents.

New names were added to the list of men who had no chargeable accidents during the year. That list—an Honor Roll in itself—now carries the names of 5,099 trainmen. These men are especially to be commended.

Accident prevention is important to the public and to the employes. It has an economic bearing of great importance. Its greatest value, however, is from a humanitarian standpoint. Every life that is saved, every person who avoids serious injury because of greater care on the part of Surface Lines trainmen is of far greater value to the community than any monetary saving.

Commendable though the record is, it again emphasizes the constant need for care on the part of every employe. I earnestly hope that Surface Lines men will continue to exercise the highest degree of caution at all times and under all conditions.

W. A. HALL,

Superintendent of Transportation.

Frank Statement By Mr. Richardson

President Explains Situation Confronting the Surface
Lines Because of Economic Conditions

*The following statement by President Guy A. Richardson
is of vital concern to every employe.—EDITOR*

TO ALL EMPLOYES:

The condition confronting the Chicago Surface Lines is, in many respects, the most serious encountered by this organization in many years. The members of the organization, who are to be commended for the loyalty and intelligence with which they have met problems in the past, are entitled to know just what we are up against today, and I want to explain the situation as clearly as possible.

The Chicago Surface Lines has a splendid record of achievement in the past. In the last annual report, part of which was reprinted in the March issue of SURFACE SERVICE MAGAZINE, there was a review of 11 years under court receivership which told of the achievements in the face of adverse conditions. All of us are proud of the fact that we have a going concern, able to pay its way and prepared to forge ahead at an accelerated rate, whenever the enactment of an appropriate city ordinance makes possible the completion of reorganization. And none of us, I am sure, wants anything to interfere with the maintenance of this position.

It now appears, however, that we are in another depression, which already has carried us down to a point near the lows of the previous depression.

Decline Is General

At the beginning of last year earnings were increasing and everyone was optimistic. Wage increases were granted which not only entirely restored the 10 per cent reduction made during the first depression but placed hourly wage rates at the highest in the history of the properties—even higher than in 1922 when there was an 8-cent fare or in 1929 when net earnings were $2\frac{1}{2}$ times greater than last year. Then, in August, a decline in general industrial conditions began and this was immediately reflected in Surface Lines earnings.

Whereas in the first 7 months of the year we had an increase of 2.25 per cent in average daily traffic, in the last 5 months traffic was 2 per cent below the corresponding months of the previous year.

The most disturbing fact is that the decline has been progressive and in the first quarter of this year it has reached alarming proportions. In January there was a loss in gross receipts as compared with January, 1937, amounting to \$170,000. In February there was a decline of \$249,000, or about 6.25 per cent, and we ended March with a loss amounting to \$325,000, or

more than 7 per cent.

In other words, gross receipts are running approximately \$10,000 a day less than at this time last year.

At the same time, the expenses of operation, in spite of economies already effected, remain about as high as they were. Increased wage rates and higher social security taxes resulted in a decrease of 36 per cent in net receipts last year. With an increase of \$300,000 in social security taxes, a total of \$1,200,000 must be expended for that purpose this year.

Unhealthy Condition

The gap between income and outgo is rapidly closing up, creating an unhealthy condition which may easily lead to disaster unless steps are taken at once to effect a better balance.

Unlike a manufacturing concern, the Chicago Surface Lines cannot augment its income by increasing the price of its service, as an immediate increase in the rate of fare is not within our control. Nor can we, or should we, reduce operation to the detriment of adequate service, because we are providing a public necessity and must continue to provide it.

The only effective method of balancing income and expenses left open to us, therefore, is to economize wherever possible in our present operation.

Higher Salaries Cut

One step in this direction was taken on April 1, when the salaries of all employees receiving more than \$300 a month were reduced 10 per cent. These employees were the first to receive a cut in 1932, and were the last to have their salaries restored, in 1937. The amount saved by this cut, however, is but a drop in the bucket, for there are only 62 employees who receive more than \$300 a month. What further steps must be taken are receiving the earnest consideration of the management.

Conditions were much more favorable at the beginning of the depression in 1930 than they are at the beginning of this depression. At that time the Chicago Surface Lines had just experienced its most prosperous year. It had reached its peak in riding for all time in 1929.

In the years that followed, earnings dropped 29 per cent below the peak and then gradually recovered until they were within 20 per cent of the peak.

Not Fully Recovered

The present recession is overtaking us before we have completely recovered. The pay of employees was restored to the level of the peak year, and in most cases above that level, without waiting for full recovery.

For every man employed on the Surface Lines, some one has put in \$10,000 to provide the tools—track, cars, buses, shops, etc.—with which he works. Both capital and labor are essential in any industry. If the industry is to continue in a healthy state, both capital and labor must be paid. Yet, not since 1927 has there been any payment to investors except on the first mortgage bonds.

In the face of the present business recession and existing conditions, however, the big problem is to meet operating expenses and taxes. Capital must continue to do its share by looking to the future for earnings, and employees, on their part, must be willing to make some sacrifice for the good of the industry during what everyone hopes is a temporary condition.

ASHLAND BRIDGE OPENS

New Span Speeds Traffic— Cost \$1,330,000

Traffic is now speeding over a new bridge at Ashland avenue and 26th street which was recently completed at a cost of \$1,330,000.

During the several months necessary for construction a temporary structure carried traffic over the river branch at that point. To accommodate street car passengers during that period tracks and overhead wires were laid on the temporary structure. Laying track on the temporary and removing it to the new, permanent bridge cost the Chicago Surface

It is highly important that every employee keep constantly in mind his own responsibility to do what he can to reduce waste and increase earnings. Each individual has a stake in the business.

The men who operate the service, by careful attention to their jobs, by courtesy in contacts with the public, by alertness in stopping for intending passengers and a general attitude indicating to passengers that their patronage is appreciated, can do much to attract new business. In the offices and shops and on the roadway strict attention to duty will save time and money.

The situation we are facing concerns all of us and I hope that, as in the past, the emergency will be met courageously in the true spirit of co-operation and loyalty to the best interests of all.

GUY A. RICHARDSON,
President.

Lines Track Department \$16,810. Electrical Department officials estimate the electrical work charges for similar operations approximated \$10,000.

The new bridge is 90 feet wide with two roadways, each 28½ feet wide, and two sidewalks, each 10 feet wide. Overall length is 312 feet. The improvement was designed and administered by the Department of Public Works, the Bureau of Engineering and the Division of Bridges.

EMPLOYES RELIEF FUND

March, 1938

The Surface Lines Employees Relief Committee received 20 applications for relief during the month of March. After investigations were made 12 of these were approved for weekly assistance. There were 33 active cases on the relief rolls at the end of the month, 11 having been removed by death or other causes.

Including the \$18,108 spent during the month of March, a total of \$1,119,551 has been paid out of the Surface Lines Employees Relief Fund for assistance of employees since the organization of the committee.

Thousands Throng Churches

Unprecedented Crowds Attend City's Novenas—Surface Lines Handles Bulk of Traffic

An impressive religious spectacle and a major traffic problem has greeted Chicagoans in all sections of the city on every Friday of recent weeks.

The unprecedented religious outpouring may be traced to its founder and directing head, Father James R. Keane, O.S.M. Its focal point is at Our Lady of Sorrows Church, 3121 West Jackson boulevard, where Father Keane started the Perpetual Novena to Our Sorrowful Mother on January 8, 1937, and from which he has served as the inspiration, and in many cases the driving force, for similar Novenas in all sections of the city.

A traffic problem has resulted from Novena attendance, in spite of the fact that this is supposed to be the age of cynics, that skepticism is on every hand, and that church attendance has fallen steadily since the war.

Huge throngs wait for hours in lines extending six deep for more than a block in order to attend a Novena. Street cars and every other form of conveyance disgorge thousands for every service, the earliest of which begins before most of Chicago is awake, and the last of which starts at 11 P. M. And there is a service every hour on the hour.

Attendance Near 70,000!

It isn't necessary to guess at the Novena attendance. Experienced traffic checkers on duty from 5 A. M. until 11 P. M. counted Novenites on Friday, March 11. There were 69,142 persons who made the Novena on that date—and that number has grown with each successive Friday, according to the statements of Father Keane.

These huge crowds have necessitated the revision of service out of Kedzie depot. Four streamlined cars, sometimes more, are routed direct to Madison and Austin to serve Novena-goers. Numerous cars of other types are pressed into service and sent over special routes. For some of the larger services as many as six or eight cars load up at the corner of Jackson boulevard and Kedzie.

Appreciation Expressed

"I do appreciate the fact," Father Keane said, "that the Chicago Surface Lines has recognized this traffic problem and has taken special care to solve it by rerouting the new cars and offering quick and adequate transportation service from a point close to the church to those attending the Novena."

The Chicago Park District assigns special policemen to reg-

ulate traffic, the like of which Jackson boulevard has never seen before. Novenites pop out of all forms of conveyance and rush to a place behind the ropes, where the people line up for the next service.

And those Novenites come from all parts of Chicago, from all suburbs far and near, even from adjoining states. For instance, Miss Elizabeth McMahon of Portage, Wisconsin—178 railroad miles from Chicago—travels from her home to the Novena each Friday and Joseph Francis McCarthy regularly flies out from New York.

Father Keane Responsible

Father Keane is wholly responsible for the hold these Novenas have taken on parishioners far and wide. A handsome, alert man of 35, he explains that the Novena is built around the *Via Matris*, or the Stations of the Cross of Our Sorrowful Mother.

"This devotion," he says, "whose prayers are the most beautiful that have ever come from the pen of man, has been a hidden treasure of the Servite Order for hundreds of years. For some unknown reason the lovely devotion was never popularized. Now it is sweeping our city and our nation by storm."

There is no exaggeration in the latter statement. Not only have the Novenas captured the attendance of more than 110,000 Chicagoans each Friday, but the same services have attracted other thousands in other sections of the country.

In Chicago, Father Keane has been most helpful to the pastors who have started the Novenas in their parishes. In many instances the announcement that Father Keane would conduct the first service has been the inducement that materially swelled attendance.

The effect of the Novenas on street car riding can be better understood by watching operation out of Kedzie depot.

Extra Riding Accommodated

It is difficult to trace the riding to or from any one Novena. An estimate can be made, however, by a comparison of receipts. On the basis of additional revenue passengers carried by Kedzie depot on March 11, there were some 12,911 Novenites who used street cars leaving the Novena. The chances are there were at least that many who used street cars to arrive at the Novena. And there is no way in the world to check the innumerable thousands who started on other lines and used transfers to arrive at Our Lady of Sorrows. That is true, also, on a smaller scale at many

Novenites at Our Lady of Sorrows

other churches each Friday. All the Novenas are perpetual Novenas—in other words they are to continue as long as the church stands. Such a religious attendance has attracted nation-wide attention. *Time* magazine was one of the first to recognize the Novena and since then metropolitan dailies and many other publications have told the story.

Novenas Listed

Novenas to Our Sorrowful Mother are held in Chicago on Fridays at the following churches:

St. Laurence, 7140 Dorchester, Rev. P. J. McGuire, Pastor.
 St. Sylvester, 2157 Humboldt, Rev. J. S. Collins, Pastor.
 St. Peter, Clark and Polk streets, Rev. Leander Conley, Pastor.
 St. Agatha, Douglas and Kedzie, Rev. J. B. Sprengel, Pastor.
 St. Henry's, Devon and Hoyne.
 St. Barnabas, 10154 Longwood Drive.
 Our Lady of Grace, Altgeld and Ridgeway.
 Assumption Church, 313 West Orleans.
 Our Lady of Grace, 2455 North Hamlin.
 St. Cecilia's, 4515 South Wells street.

Wherever they are you'll see great crowds of people in attendance, and in each instance you can be sure that painstaking care and preparation has enabled the Chicago Surface Lines to give quick and adequate service to 80 per cent of those who use public transportation.

WINS \$3,000 PRIZE

Motorman McAuliffe Holds Lucky Sweepstake Ticket

John T. McAuliffe has three definite beliefs which he propounds in the following order:

(1) Only suckers bet on horses, (2) Three is a lucky number, and, (3) Friday is an unlucky day.

The odd thing about such beliefs is that they are somewhat at variance with McAuliffe's ownership of a sweepstakes ticket which just netted him a cool \$3,000!

McAuliffe has never placed a bet on a horse in his life.

Three has always been a lucky number and the winning ticket was the third sweepstakes ticket he ever held.

Friday he consider unlucky. He "knew he wouldn't win" the \$150,000 top prize when the race was run on Friday—although he did win the \$3,000 which most people wouldn't consider too unlucky.

When the first drawings were announced, McAuliffe drew a horse named Norman Glory. That alone assured him of prize money and it came at a good time. The daily papers reported that McAuliffe had only 87 cents in his pocket at the time, but that was just a reporter's gag to make a good story. It was one day before pay-day and "Mac" was running a little short, but not that short. Then, too, he's been having some unusual expenses for illnesses that have plagued 8-month-old Maureen and Margaret, his wife.

About \$800 will be used to pay doctor's bills and then McAuliffe will be in the clear and he and the family will celebrate. Margaret was really thrilled. "All the pay days from now

Margaret, Maureen and John McAuliffe

on will mean it's all our pay when past debts are cleared up," said McAuliffe.

"Margaret is going to get a lot of new clothes—I'll see to that—and then we're going on a nice vacation, maybe to California," he said in discussing future plans.

Motorman McAuliffe, badge No. 5101 of North Avenue, has been with the Surface Lines since February 28, 1934. He's a nice, clean-cut looking young man of 28 who has been married for four years. He had two years of college at Loyola and now lives at 3138 Lexington street.

Mac turned down a \$5,000 offer for his ticket before the race was run, but he doesn't feel badly about that.

"It was all or nothing for me," he said. "If I'd sold a \$150,000 chance for \$5,000, I'd never forgive myself."

A guy might be a sucker to bet on a horse, he thinks, but a sweepstake ticket is different. You can bet that he'll never miss buying another—maybe lightning does strike twice!

Some worries have come to Mac since he won the \$3,000. You ought to see some of the letters and telegrams with which he was flooded. Most of them have the same message—"could you loan me \$150 until I get work?"—or will you give me \$200?" They're all alike—they all beg for money on one pretext or another.

But the young McAuliffe's are a very nice and a very level-headed young couple. They will take care of themselves and they'll see to it that Baby Maureen has some extra special care, too. That's why you're glad they won.

Traffic in New York is slower today than it was 50 years ago, said Mr. Clyde G. Conley, speaking recently in New York to the American Institute of Steel Construction. Old horse-drawn coaches once averaged 11½ m.p.h. on the city's streets, the speaker said, but constant stopping and starting and innumerable red lights had reduced modern motor traffic to 1 m.p.h. "Put a few more cars on the streets of New York," he said, "and movement will practically cease."

Transportation Changes

Positions of Stationmaster and Regional Supervisors Created

Extensive changes in the division supervisory setup were made by Superintendent of Transportation Hall effective April 1. The order affects all of the division superintendents and assistant division superintendents, some of the supervisory force, and some of the clerical force.

The titles of division superintendent and assistant division superintendent were abolished and two new positions, stationmaster and regional supervisors, were created. The stationmaster assumes the duties and authority previously exercised by division superintendents, and instead of 12 assistant superintendents there are now 5 regional supervisors, each of whom will cover three or more stations in the south, southwest, west, northwest or north sections of the city.

The 12 division superintendents who are now known as stationmasters and the stations at which they are located are as follows: C. C. Cricks, Cottage Grove; R. T. Duffy, Burnside; W. A. Bessette, Seventy-seventh; M. B. Quinn, Sixty-ninth; D. F. Bowles, Archer; E. L. Maguire, Lawndale-Blue Island; Thomas Fahey, Kedzie; E. L. Brookman, North Avenue; G. W. Peterson, Armitage-Division; Elmer Balfanz, Elston-Noble; R. L. Hays, Lincoln; and F. J. Smith, Limits-Devon.

The 5 regional supervisors are:

J. J. Theis, formerly assistant superintendent at Burnside, now regional supervisor covering Cottage Grove, Burnside, and Seventy-seventh.

J. B. Becker, formerly assistant superintendent at Sixty-ninth, now regional supervisor covering Sixty-ninth, Archer, and Blue Island.

T. H. Eigelsbach, formerly assistant superintendent at Lawndale-Blue Island, now regional supervisor covering Lawndale, Kedzie, and North Avenue.

Lambert Milz, formerly assistant superintendent at Armitage-Division, now regional supervisor covering Armitage, Division, Elston, and Noble.

J. C. Mathley, formerly assistant superintendent at Limits-Devon, now regional supervisor covering Lincoln, Limits, and Devon.

The new regional supervisors will assist the stationmasters at each of the stations in their territory and will also report directly to the superintendent of transportation.

The purpose of this new setup is to provide a closer knit organization and avoid duplication of effort.

As a result of and in line with the foregoing reorganizations, changes in the clerical and supervisory force were made at the following stations:

Cottage Grove: Harry T. Hooper, assistant division superintendent, transferred to supervisor, vice Walter W. Randle, returned to train service.

George S. Kehoe, clerk No. 3 at Lawndale, was transferred to relief clerk No. 3, Cottage Grove, vice Lyman E. Goss, transferred to clerk No. 5, Cottage Grove, vice Charles E. Keiser who was moved to the General Office.

Seventy-seventh: John A. Volkart, assistant division superintendent, was transferred to supervisor, vice Charles A. Gylling, returned to train service.

Archer: Floyd J. Frank, assistant division superintendent, transferred to supervisor, vice Joseph P. Staska, returned to train service.

Lawndale: John M. Johnson, assistant division superintendent Elston-Noble, transferred to clerk No. 1, vice Charles F. Karschnik, transferred to clerk No. 2.

Charles F. Karschnik, clerk No. 1, transferred to clerk No. 2, vice Benjamin Gawlik, transferred to clerk No. 3.

Benjamin Gawlik, clerk No. 2, transferred to clerk No. 3, vice George S. Kehoe, transferred to relief clerk No. 3 at Cottage Grove.

Kedzie: Andrew Ure, assistant division superintendent, transferred to supervisor, vice Clarence Thompson, returned to train service.

North Avenue: Stuart D. Sim, assistant division superintendent, transferred to supervisor, vice Thomas Henehan, transferred to starter.

Thomas Henehan, supervisor, transferred to starter, vice George E. Wyers, returned to train service.

Isadore Shedroff, clerk No. 1, transferred to clerk No. 1, Armitage, vice Robert O'Connor, clerk No. 1, transferred to North Avenue.

Armitage: Robert O'Connor, clerk No. 1, transferred to clerk No. 1 at North Avenue, vice Isadore Shedroff, transferred to Armitage.

Elston-Noble: John M. Johnson, assistant division superintendent, transferred to clerk No. 1, Lawndale, vice Charles F. Karschnik, transferred to clerk No. 2 at Lawndale.

Lincoln: Edward C. Zage, assistant division superintendent, transferred to supervisor, vice John A. Berg, returned to train service.

"WE TOLD YOU SO!"

This is something in the nature of an "We told you so" story. The March issue of SURFACE SERVICE MAGAZINE told of the bowling prowess of Jules Lellinger of the Accident Investigation Department and ventured to predict that Jules would be among the top rankers at the American Bowling Congress.

The prediction came through beyond the most optimistic expectations. All Captain Lellinger and his teammates on the Birk Brothers team did was to smash all existing team records with 3,234 pins. That score tops the previous record set 11 years ago by 35 pins. Just a new world's record! Captain Lellinger, rolling as anchor man on his team, rolled up a neat little three game score of 668 as his contribution to the biggest set of fireworks the Congress witnessed.

SURFACE SERVICE MAGAZINE

Published Monthly by
Chicago Surface Lines
 231 South La Salle St.
CHICAGO

Volume 15 April, 1938 No. 1

H. O. Crews Editor
 H. F. Peck Associate Editor

OUR STAKE IN THE BUSINESS

In his discussion of the situation facing the Chicago Surface Lines, President Richardson points out that each employe has a direct interest in the success of the industry.

This is an obvious truth that is seldom considered.

We have a habit of thinking that the man who has invested a few thousand dollars in Surface Lines securities has an interest in the business, but that those of us who work here just have a job. A moment's consideration should convince anyone that our stake in the business is greater than that of the investor.

For most of us our work with the Surface Lines is our life career. The majority of us have been here for ten years or more. We have made a good living, even in the toughest years of depression when many of our acquaintances in other lines of work have been out of a job. We have the benefit of disability and life insurance without cost to us. We hope to enjoy similar security as long as we are able to render efficient service.

What we seldom think about, however, is that all of this depends upon the success of the Surface Lines business. To succeed it must be attractive to the investor, for outside money is necessary to success. It must be capable of rendering efficient service, for no business can survive unless it attracts customers.

Thus, it is evident that our present jobs and our hope of future security in them depend upon the success of the Chicago Surface Lines, and it is up to us, collectively and individually, to see that it succeeds.

CONGRATULATIONS!

At a time when every agency of good government is making a determined effort to promote safety on the streets, the announcement that 5,099 Chicago Surface Lines trainmen have had no chargeable accidents during the last fiscal year is unusually commendable.

Accident prevention records have been kept in their present form for the last 11 fiscal years and during that time 525 members of the train force have had unblemished records.

Accidents can be avoided and prevented. That is proved by the records which show a decrease, in spite of the ever-increasing number of vehicles on the street. These additional vehicles have added to the responsibility of every trainman.

Through the years the Chicago Surface Lines has prided itself upon being a good neighbor. Additional justification for that pride may be found in the accident prevention record for 1937.

Could any good neighbor do more than practice unceasing vigilance in the field of accident prevention?

BIRTHDAY INVITATION

It will be a long time before SURFACE SERVICE MAGAZINE will rate a place on the Veterans' Honor Roll, but that doesn't mean that another birthday need go unrecorded.

The birthday is the fifteenth. Fourteen long years, some good, some bad and some indifferent, have gone by since it first began modestly to chronicle the events which happen on a great transportation system.

In all those years it has been *your* magazine.

If it is doing the job you think it should or if it is "missing the boat", you might do your bit to help it along.

You're probably rather busy writing Congressmen and such people nowadays, but if you've time you might write the Editor suggesting, praising or criticising the magazine according to your viewpoint. It can never truly be "a monthly publication by and for Chicago Surface Lines employes" unless employes' reactions are made known at all times.

Bouquets For Trainmen

Record Number Praised For Courteousness—Complaint List Shows Decrease

The patrons of the Chicago Surface Lines "took pen in hand" during March to commend a record-breaking number of trainmen for gracious acts of courtesy. During the month 93 commendations were received which more than doubles the 40 that were sent in during the same month of 1937.

In like vein, too, the complaints against discourtesy, passing up, rough operation and such other acts of careless, inconsiderate trainmen, decreased from 529 received in March, 1937, to 471 for March of this year.

Much of the decrease in the complaint list may be found in the passing up classification and another major decrease is recorded in the number of complaints against quick starting.

It was the greatly increased number of commendations, however, in which the management took pride.

Honesty Commended

The honesty of Motorman Jerry Blake, badge No. 12749 of North Avenue, was highly commended in a letter from Helen Blomgren, 423 North Central avenue, who complimented him for returning a purse which she had dropped on the Lake street tracks. "Words cannot express my gratitude," says Miss Blomgren. "It has given me new faith in humanity at a time when the world seems filled with greed."

Courtesy to a blind passenger was noted by A. H. Garens, district manager of the American Car and Foundry Company, 2417 South Paulina street, and he wrote to praise the generous kindness of Conductor Karsten Oken, badge No. 8638 of Division depot.

A similar commendation was directed to Conductor Ernest L. Walthers, badge No. 14422 of Cottage Grove, for an act observed by Robert T. Sargis, 901 Cornelia avenue.

Helps Crippled Boy

Off-duty though he was, Conductor John F. Moran, badge No. 14274 of Kedzie, was still enough of a gentleman to offer a helping hand with some bundles carried by Sadie K. Carnahan, 708 South Springfield avenue, who wrote in praise of his actions.

Mrs. Agnes Collins, 4929 Vincennes avenue,

wrote to commend Conductor Joseph E. Cuculich, badge No. 14142 of 77th, for the courtesies extended to a colored crippled boy.

Conductor Joseph L. Balnis, badge No. 13696 of Cottage Grove, observed an elderly lady drop money of which she was unaware. He picked up the money and followed her into a crowded car to return it. His simple act of courtesy and honesty was observed by H. Solomon, 3301 Cottage Grove avenue, who wrote the Surface Lines.

A small reward and a grateful letter were sent Motorman Philip J. Hubert, badge No. 13511 of Cottage Grove, for returning a wristwatch which had been lost by Mrs. Arthur Nelson, 8035 Crandon avenue.

Dwight M. Brookens, 7456 South Shore Drive, says he isn't too fond of motormen in general, but he did write with fulsome praise for courteous acts he had observed Operator Patrick F. McCarran, badge No. 13149 of Burnside, perform.

Retrieves Bag

Motorman Otto A. Last, badge No. 12411 of Burnside, did a bit more than his duty in helping Caroline W. Collins, 7836 Marquette avenue, to retrieve a shopping bag

which she had left on another street car. Motorman Last managed to meet the car at an intersection, get the bag and receive Miss Collins' compliments.

Calmly and politely controlling himself while a passenger disputed the worth of a transfer, Conductor Martin A. Johnson, badge No. 11382 of Devon, earned the admiration of Mrs. Emelyn L. Peterson, 6157 Ellis avenue, who witnessed the scene.

Miss Josephine Eilert, 4721 North Maplewood avenue, wrote to commend the efficient manner in which Conductor Edward C. McCarthy, badge No. 10974 of Archer, controlled two troublesome passengers and made them stop actions which were disturbing other patrons.

Offering a token in payment for a fare, Mrs. Victoria Smith, 505 East 35th street, discovered it was for another city. When her fare was advanced by Conductor Edward A. A. Rackow, badge No. 10384 of Archer, she repaid it in a letter that thanked him for his trust.

TROLLEY SPARKS

ELIOT HIRSCH

"Vot kind bizzness men are you? I'm payink cash each day, and I'm getting no discount? Phooie!"

KEEPING 'EM ROLLING

Division Retains First Place As Averages Rise

For the third month in succession Division depot retained first place in the keep 'em rolling contest and made an average of 14,744 miles per pull-in, an increase of 10.4 per cent over the mark compiled in February. In the last six months Division depot has led the list four times and has run second on the two other occasions.

Lawndale spurted slightly from fifth place to take over the second ranking with an average of 11,683 miles per pull-in, an increase of 50.8 per cent. Seventy-seventh, which had occupied second place, slumped off to sixth with a decrease of 10.3 per cent.

A major improvement at Sixty-ninth moved that station from twelfth to fourth place with an average of 9,378 miles per pull-in, an increase of 43.3 per cent.

Percentage losses were tabbed against Noble, Limits and North Avenue, aside from Seventy-seventh, previously mentioned.

Individual records follow:

Rank	Carhouse	Zero Days	Miles per Pull-In	Pct. Inc.
1.	Division	13	14,744	10.4
2.	Lawndale	7	11,683	50.8
3.	Devon	—	11,215	29.2

OBITUARY

Deaths on the System from March 1, 1938 to March 31, 1938

Transportation—Armitage: Charles A. Nelson, employed May 1, 1908, died March 24, 1938.

Archer: John Dignan, employed May 28, 1906, died March 4, 1938; August P. Voegel, employed July 22, 1898, died March 13, 1938.

Blue Island: George H. Weaver, employed May 9, 1902, died March 20, 1938.

Burnside: Oscar W. Larson, employed August 18, 1907, died March 6, 1938.

Cottage Grove: Ottmar Archenbronn, employed January 20, 1912, died March 30, 1938; Henry Smith, employed April 9, 1918, died March 29, 1938.

Kedzie: James Craig, employed December 30, 1890, died March 12, 1938; Harry M. Kemp, employed September 9, 1893, died March 8, 1938; Thomas Smith, employed April 11, 1910, died March 30, 1938; Burt G. VanMeter, employed July 14, 1920, died March 10, 1938.

Lawndale: Henry Sides, employed June 9, 1902, died March 20, 1938.

Lincoln: George Cromie, employed August 13, 1918, died March 8, 1938; Albert C. Roeser, employed December 30, 1907, died March 10, 1938.

North: Max Bruhn, employed May 22, 1905, died March 27, 1938; Anton Pacer, employed March 14, 1927, died March 20, 1938; Mathias Rauen, employed October 12, 1923, died March 5, 1938.

Seventy-seventh: Hugh Callaghan, employed January 24, 1913, died March 3, 1938; Walter B. Davies, employed October 28, 1905, died March 29, 1938; Richard Walsh, employed March 2, 1893, died March 18, 1938.

Sixty-ninth: James V. Burke, employed May 22, 1906, died March 21, 1938.

Accident Investigation—Myron Pearce, employed May 30, 1911, died March 27, 1938.

Building and Engineering—Jasper Miccile, employed April 1, 1917, died March 16, 1938.

Shops and Equipment—West Shops: Martin Kramer, employed July 18, 1917, died March 14, 1938; William S. Pedrus, employed February 6, 1908, died March 24, 1938; Arnold Stiggen, employed July 24, 1924, died March 29, 1938; Richard Toban, employed March 13, 1923, died March 17, 1938; Alphonse Vanderhaeghen, employed November 10, 1913, died March 13, 1938.

Track—Joseph Botich, employed May 2, 1928, died March 29, 1938; Henry D. Dimmick, employed January 1, 1913, died March 30, 1938.

A CONSCIENCE AT EASE

Priest Sends Mystery Cash To Surface Lines

Somewhere in Chicago a conscience that suffered for a quarter of a century is presumably at ease today—relieved by the knowledge that a debt has been paid.

The payment was \$1,000, forwarded through a Catholic priest to the conscience fund of the Chicago Surface Lines. It was the largest contribution ever received.

Payment was made by a check signed by Monsignor Peter F. Shrewbridge of St. Leo's rectory, 7750 Emerald avenue on March 25.

"All I am at liberty to say," he said, "is that the money was left at the rectory to be forwarded."

The letter accompanying the check was signed "Rev. Missionary Father" and was designated for the old South Side Street railway whose official name was Chicago City Railway Company, which became a part of the present Surface Lines system following the unification ordinance of 1914.

Two weeks before the check was sent a mission had been conducted by the Marist Fathers at St. Leo's. It is believed that someone who attended gave up the \$1,000.

WATCH YOUR STEP!

Statistics show that of the last million people who lost their lives via gasoline, 21 per cent were burned with it, 2 per cent drank it, and about 99 per cent of the balance stepped on it.

Accident Records Improve

Reduction Is Shown in Spite of Increased Number of Vehicles on Streets

By WILLIAM PASCHE
Supervisor of Accident Prevention

Increasing attention to the principles of accident prevention throughout the Chicago Surface Lines system resulted in a decrease of 1.4 per cent in the number of accidents during the fiscal year ending January 31, 1938.

That decrease, which at a hasty glance may seem unimpressive, is nevertheless noteworthy when it is compared to the 3.5 per cent increase in general traffic fatalities in Chicago during 1937. The Surface Lines' record stands out boldly against a 4 per cent increase nationally, a 5.4 per cent increase for the State of Illinois and a 7.9 per cent increase for the seven counties surrounding Chicago.

Emphasizing this record is the fact that 5,099 Surface Lines trainmen can proudly exhibit cards testifying that they had no chargeable accidents during the last fiscal year. Of that number 525 have had no chargeable accident during the last 11 consecutive years in which records have been kept in their present form. Of this latter number 59 are motormen.

Of the total number of no-accident trainmen, 2,938 have had no chargeable accident for 2 years, 2,017 for 3 years, 1,643 for 4 years, 1,393 for 5 years, 1,224 for 6 years, 1,091 for 7 years, 1,008 for 8 years, 848 for 9 years and 699 for 10 years.

Street Hazards Increase

These outstanding records have been achieved in spite of constantly increasing street hazards caused by the unprecedented number of automobiles in Chicago, totaling 571,614 last year. That figure is 48,360 larger than during 1936 and represents an increase of 9.24 per cent.

To make so good a safety record in the face of increasing street congestion demonstrates again the value of adherence to accident prevention principles and offers further proof that the street car is the safest place in the streets.

Due to its size and the fact that it is constantly in the public eye, the Surface Lines train force is most conspicuous in its accident prevention work. One material recognition of this fact was the awarding of a plaque to the Transportation Department by the Chicago Safety Council for the greatest improvement in accident reduction made by any gas bus fleet during the first six months of 1937.

Department Records Improve

Other departments of the Chicago Surface Lines also made commendable records. A decline of 4.9 per cent in the number of accidents was registered by the Track Department; Electrical Department records showed a decrease of 10 per cent; the Utility Department had a decrease of 32 per cent and Shops and Equipment Department accidents declined 35 per cent. Miscellaneous accident reports, not directly traceable to any one department, showed a decline of 8.8 per cent.

There was a notable decrease of 11.4 per cent in the total number of injured employes on the system. In this report the value of the safety goggles was proved again when six were

smashed without injury to the eyes of the wearers. No eyes were lost during the entire year.

The 1.4 per cent decrease in the number of accidents, referred to earlier, indicates improvement throughout the system. Particularly gratifying to the management was the decrease of 200 fall-in-car accidents. This decrease was made notwithstanding a decrease of 24 per cent in this type of accident last year, thus indicating progressive improvement in smooth operation.

Operators Make Good Showing

In the classification of boarding accidents operators of one-man cars registered a striking decrease of 16.9 per cent, but this was nullified by the record of two-man cars, resulting in a net increase of 1.5 per cent. Generally speaking, conductors can do much to avoid boarding accidents by looking out before giving go-ahead bells. Alighting accidents increased 2.7 per cent, in spite of a 17.3 per cent decrease in alighting accidents from the trolley buses.

Vehicle collisions increased 2.1 per cent. The greatest increase was noted in the straight-track type, indicating that numerous motormen disregarded elementary safety practices by failing to keep their cars under complete control. The right angle type of vehicle collision also showed an increase. Many of these accidents could be avoided by taking extra precautions at all intersections.

More Gas Buses Involved

Much of the blame for increase in vehicle collisions can be laid directly at the door of the gas bus operators, for two-man cars and trolley buses showed decreases in accidents of this type. The increase to the accidents in which gas buses were involved was almost identical to the per cent increase in gas bus miles travelled.

Watch the Fellow on Your Right!

In the Transportation Department records there was a decrease of 4.3 per cent in the number of car and person accidents. In the same department the miscellaneous accidents dropped 5.9 per cent.

In viewing the entire record of the train force it is important to note that cars and buses travelled a total of 129,021,425 miles, which is 1.56 per cent more miles than were travelled during the previous fiscal year.

JOSHUA BURGEE PASSES

Popular Transportation Official Dies Suddenly

Joshua Burgee, 75, assistant superintendent of transportation for the Chicago Surface Lines, died suddenly of a cerebral hemorrhage in the council chambers of the City Hall, Monday, April 4.

A veteran transportation man, Mr. Burgee numbered hundreds of public officials as his friends, made during the years he represented Surface Lines interests in the City Council and the legislative halls at Springfield. His first connection with the street railway system started in October 1885, when he worked as a conductor on a horse car line running on Wentworth avenue from Jackson Boulevard to 39th street. As an assistant division superintendent he was instrumental in handling the crowds that attended the World's Fair of 1893.

In his long career, Mr. Burgee held many important positions with the Surface Lines. For a short time he was general manager of the Calumet & South Chicago properties after they were taken over by the Chicago City Railway company.

Mr. Burgee was born in Baltimore, Maryland, on December 23, 1862 and it was from Baltimore than he chose his bride when he returned there on September 23, 1886 to marry Katie M. Caltrider, who survives him. There are no children.

Mr. Burgee lived on the south side for many years and at his death had a home at 8341 South Park avenue.

Services were held at Lanyon's undertaking parlor, 415 West 63rd street, April 8, under the auspices of Englewood Masonic lodge A.F. and A.M. Officials of the Chicago Surface Lines served as pallbearers. Interment was at Oakwood cemetery.

Mrs. Greene Mourned

Employees throughout the Chicago Surface Lines system were saddened at news of the death of Mrs. Anna T. Greene, wife of P. A. Greene, a veteran employee of the Transportation Department.

Mrs. Green died March 19 at the age of 70. Funeral services were held March 21. She is survived by her husband, whom she married October 2, 1889; a daughter, Mrs. Vivian Kirchoff, and a son, J. Menard Greene. Mr. Greene will be remembered by thousands of trainmen as a former dispatcher.

"HEART OF THE SYSTEM"

Group Sees Transportation Dispatchers Handle Distress Calls

The dispatcher's switchboard—"the heart of the system"—was vividly demonstrated to a group of younger Surface Lines employees recently in conjunction with Assistant Superintendent of Transportation J. B. O'Connell's talk on various problems of the Transportation Department.

Of major interest to the group was the practical demonstration of how the switchboard dispatchers handle distress calls that arise from various points on the system. Amplifiers arranged in another room picked up the "calls" that came in reporting "fires," "wrecks" and other "accident cases." Re-routing orders were issued, supervisors sent to unsnarl traffic and wreck wagons were called out during the demonstration.

So realistic were the "calls" that George Johnson of the Track Department hotfooted to a "fire" which had been reported on Madison street. Others, equally gullible, discussed the seriousness of reported "accidents" and Willis Helfrich even looked up the file on the "accident case" which had caused a serious delay to "run 49, southbound on Ashland avenue." You'll gather the demonstration was most realistic!

But the real "heart of the system" was best shown—or heard—on April 6 when transportation officials directed the snow-fighting activities of some 450 men who battled the worst April snow-storm on record—a fall of more than eight inches.

The "Heart of the System"

'Phones rang steadily. Run No. x was off the track. Sweepers were needed on another street to counteract drifting snow. Instructions had to be given various stationmasters. Temperatures must be checked. Stalled trucks must be cleared from street car right-of-ways.

Buzz-buzz-buzz. The 'phone kept up its steady demand for attention. A switch was frozen at one point. A let-up in the storm was apparent at another. And always the instructions went out to "clean 'er up—clean 'er up. Get 'em all clear before morning."

And steadily, irresistibly the fight went on—directed from the "heart of the system"—so that a great transportation system could run to serve the 80 per cent of the riding public which is dependent upon it!

A GOOD FELLOW LOSES

Accommodating Conductor Gets a "Phony" Twenty

Big hearted Conductor Edward W. Huenning, badge No. 9190 of Kedzie, isn't going to be that way any more. He learned his sad lesson by being too big hearted for his own good.

As he sat counting his money in Kedzie depot April 15, preparatory to checking in, he was approached by a youth of some 22 years, apparently of Italian descent, who asked change for a twenty dollar bill. Huenning could easily have waved him to the cashier's window, but he made change from his own pocket.

When checking in time came Huenning was short \$20 on his trip sheet record. The twenty tendered by the stranger was a phony, which the receiver caught at once!

The little story isn't related in an attempt to kick a good man when he's down. It might, however, serve to warn other conductors that there are a flock of counterfeit twenty dollar bills that have recently appeared in Chicago—and there are other agencies which will cash big bills if they're good.

ATTENTION! UNDERTAKERS! —HERE'S A LIKELY PROSPECT

If you're real chummy with any doctors, undertakers or coffin salesmen, you might tip them off to the man mentioned in the following report. He isn't likely to be around here very long.

Here is the whole story as it appeared in the report of Conductor Frederick E. Calender, badge No. 9004 of Armitage.

"While southbound on Milwaukee avenue at North avenue, at 5:59 P. M. on March 18, we were waiting for the light to turn green when two ladies came running for the car. When the light changed one of the ladies said, 'Don't start, Mister, there is a man under your car!'

"I looked out and saw a man lying on his stomach under the center of the car.

"When I asked him what was wrong he told me he was getting his hat!"

"I told him he had these two ladies to thank that he was not killed."

"He just laughed and said it was all right, for the light was red!"

Sorry we haven't the fellow's name, but he shouldn't be hard to find—there can't be more than one of his type!

A New York magazine informs us that some transit companies in Japan act as matrimonial agencies for their female bus and tram conductors. Each girl's full name appears on a board beside the driver and a passenger who is a prospective bridegroom must write the company and advise officials of his honorable intentions before any dates are arranged. Practically none of the conductorettes remain single after two years of service.

"They're taking all those pay-as-you-leave cars off the line."

"Why?"

"Two Scotchmen starved to death in one."

TRANSFERS TO JAIL

Artist Narrowly Misses Committing the "Perfect Crime"

For art's sake Mr. John Scrydis committed the almost perfect crime. For the next 30 days his mail will be forwarded from Willow Springs to the House of Correction.

Mr. Scrydis was sent to his new abode by Judge John McGarry after he was nabbed for presenting street car transfers used in 1937 to get rides in 1938.

It wasn't so bare-faced a deception as that implies. Mr. Scrydis has toiled long and earnestly over his transfers to make them look just like the 1938 variety. With painstaking care he changed dates from blue to black, and the number "12" to "17."

Perhaps the world will never know how many patient hours he spent making those street car transfers look all right—almost. And he changed not one transfer but six! All for the same day, March 17. He could thus look forward to six rides—all in one day.

Mr. Scrydis' art had only one flaw. He neglected to change the identification number to the proper color for this year. And so he was arrested. Conductor Thomas P. Holmes of Sixty-ninth saw to that when he detected the forgery.

Philosophically muttering something which sounded like "life is like that," Mr. Scrydis hinted darkly that he will relinquish his artistic endeavors upon his release from the brig.

HARD ON HITCH-HIKERS!

John Hitches a Ride But Winds Up With No Place To Go

John Brill will never attempt to hitch-hike again. And if he ever weakens in that resolve, you can be sure he won't try to hitch either a street car or a squad car.

Brill, 21, 3333 North Marshfield avenue, had his first hard luck when his car ran out of gas at Blue Island and Damen avenues. He swung aboard a passing street car and told Conductor Thomas M. O'Brien, 3150 North Racine, that "this pistol will go off if you don't take me to the nearest gas station."

O'Brien did just what you'd do—gave Motorman Laddie Tetreau, 2753 South Ridgeway, the signal to go—and they dropped Mr. Brill at Ashland and 22nd.

While the crew made a report from the call box on that corner Brill went for gasoline and flourished that gun of his again. And just then O'Brien hailed a passing squad car containing Officers Raymond Witalski and Joseph Dunworth, of Stock Yards station.

As they completed their story to the officers —this is stranger than fiction—Brill approached and asked the officers for a lift to his stalled car!

Mr. Brill was taken to the police station. The police are keeping both John and the little pistol he used on his hitch-hiking attempts.

In England during the hunting season, the fox and hounds have the right of way over trains. This is exercised only infrequently, but last season, the Belvoir hunt held up a fast London train for eight minutes to permit the fox, hounds and horses to cross the tracks.

Departments and Divisions

Accident Investigation

Myron W. Pearce, who entered service May 29, 1911, having served as assistant cashier for many years in the Department of Accident Investigation and the Legal Department, died suddenly on March 27, at the age of 81 years.

Mr. Pearce was brother-in-law of the late Henry A. Blair, who was president of the Chicago Surface Lines prior to his death.

Services were conducted at the Chapel in Graceland Cemetery on March 28.

Mr. Pearce was well known in the department for his constant devotion to duty and his passing will be regretted.

BASS!

43 Pounds!

Gulf of Mexico and landed a 43 pound Rock Bass, measuring 35½ inches in length, on March 20, on a three year old 18 pound test line.

The fishermen thought at first they had caught a snag, but as the snag moved they became aware of their luck; and after an hour and 25 minutes of careful manipulation of the old line they brought up the prize whose picture accompanies this article. The pole shown in the picture is a full size telegraph pole.

Electrical

Harold Coyne, maintenance electrician since March 5, 1938, is the proud father of a eight pound baby girl. May we also extend congratulations to Mrs. Coyne and best wishes for Rose Ann.

Our most sincere sympathy is extended to Charles Ernst, surveying engineer, in the loss of his father, who through life was a well known Chicago theatrical musician. He was active in his work to within a few days of his death.

Alex Lalond recently suffered severe burns from an electrical short circuit. His fellow-workers hope for a speedy recovery.

Clarence Mimmick's pet cat around Grand and Leavitt has again presented him with several kittens. Clarence seems to be somewhat downhearted for he had hoped that Easter bunnies would arrive instead of kittens.

Billy.

Schedule and Traffic

The sympathy of the department is extended to John Franzen whose mother passed away on March 12.

Gus Lohse was moved from his home to the Passavant hospital on March 25, where he is receiving special treatment.

Charles E. Keiser recently returned to the department from Cottage Grove depot.

Fred Excell has been under the weather for several days; we hope that Fred will be back soon.

George Weidenfeller.

Shops and Equipment

South Shops: Heinz Doering, timekeeper in the blacksmith shop, recently recovered from a foot injury caused by stepping on a nail. We have been informed that he is now being outfitted with a pair of shoes with steel puncture-proof soles.

Sincere sympathy is offered to Frank Renc, blacksmith shop, upon the loss of his sister who recently passed away.

Question of the hour in the machine shop: Was it that certain feminine presence that ruffled Andy Ziegelmeyer's serenity the night of March 30, at the A.B.C. Tournament?

Elsie S. Frank.

West Shops: During the past month, the following employees in our department passed away—William Petrus, carpenter, West Shops; Arnold Stigsen, mill machine hand; and Richard Toban, specialist, machine shop, West Shops. We wish to extend our sympathy to the bereaved loved ones.

Lillian Hultquist.

Around the Car Stations

Blue Island

The sound picture, "Make 'Em Like You" shown at this depot March 23, had a 100 per cent attendance. Every one listened with interest to the valuable talk given by Louis E. Bohlin, Chief Clerk of the Transportation Department. According to the results shown to date, Mr. Bohlin's talk had a remarkable effect.

We are all glad to have E. L. Maguire, Station Master, back with us again after a two month vacation spent in Pasadena, California and Phoenix, Arizona with Mrs. Maguire. Mr. Maguire reports having had a very wonderful time and Mrs. Maguire also had a very enjoyable trip. On their arrival home from Phoenix, Sunday March 27, they were greeted by their daughter Vita, relatives and friends, including Mr. and Mrs. T. H. Eigelsbach and son. Mr. Eigelsbach presented Mrs. Maguire with a beautiful basket of flowers in behalf of the office force at Lawndale and Blue Island Depots.

Conductor John Vujtech was presented with an 11 pound baby boy on March 18. Congratulations.

Motorman George Weaber, after several months' illness, passed away Sunday, March 20 at his home in Lyons, Illinois. Funeral was held Thursday, March 24 and burial was at Mount Auburn cemetery. Pallbearers were: Edward Gaede, Charles Schaefer, Edward Ludvik, John Welat, Albert Westphal and William Winter. We extend our sympathy to his widow and son.

Sympathy is extended to Conductor Albert Schmitt in the loss of his mother.

C. P. Starr.

Devon

Congratulations are in order for Motorman Carl Holmquist, who became a grandfather by the birth of a child to his daughter on March 3, who will be known as Mary Ann.

Acknowledgment is hereby made to Motorman Rasmussen, who recently visited Speedway hospital, for the suggestion that those of us who are able should at our earliest opportunity visit those of our brethren who anxiously await our call. Among those confined are Motorman John Moore and Conductors John Cannon, Frank Rowles and Motorman Jack Hartnett of Limits, brother of Mike and Tom.

With the baseball season at hand, we earnestly solicit new and old candidates for the team, to help retain Devon's reputable standing in the league.

John Binder, Jr.

Division

"Make 'Em Like You." Louis Bohlin did just that, literally speaking. Mr. Bohlin made the men realize that part of their work was being courteous and polite. Bringing to work your petty grievances and little arguments that may arise at home or with other associates is bad not only for you but also for persons who come in contact with you during your day's work. The impression it creates is not a good one. Keep in mind the fact that you are selling a service in competition with others. A satisfied rider will not seek other modes of transportation.

The other day an election was held for the selection of a manager of the baseball team. It seems that A. Lowery was hired as campaign manager for those who aspired to the job as manager. After the votes were tabulated and the result known all the aspirants were running behind Glen Cooley of the repair department who was chosen.

After due consideration Mr. Cooley decided he could not accept the job (his wife said no) and thanked the boys for the honor.

Another election was held and this time G. Cech was elected and he immediately set about planning for a championship year.

Sympathy is extended to Conductor E. Koepke, whose mother passed away March 8.

Be alert! You may avoid an accident.

Chet Johnston.

Seventy-Seventh

That noise you hear back toward the alley of 77th Street Depot is the ball team limbering up for the 1938 season. The new head man, Conductor E. E. Knapp, is out there whipping the boys into shape for the pennant race, and he hopes to end up in front. We hope so too, because our kopeks are going to be on him to win.

It was just St. Patrick's day last month to all you sons of Erin, but it was more than

that to little Patricia, daughter of Conductor M. J. Murphy—it was her birthday, and that, if you're looking through green glasses, is the ultra of the ultra.

One sailfish in our clubroom would seem enough to gladden any sportsman's heart, but no, Conductor E. M. Freeberg is down in Florida now angling for a mate, if what he tells us isn't just another fish story. When we see two sailfish on the wall, we'll be the first to cheer, provided we're not just seeing double that day.

You can start sharpening your pencil for the annual golf tournament, which promises to be bigger and better than ever. We developed motor trouble last year on about the third tee, but expect to be in better shape this year. We're bringing along two pencils—both sharp.

Chief Clerk of the General Office, L. E. Bohlin of the recent "Make 'Em Like You" meeting, packed a full house out our way in both sessions and made us like it.

It isn't what you make that counts; it's what you save, and our Credit Union is proving a decided incentive to save. Five thousand dollars has already been subscribed, against which more than 86 loans have been made.

The tenth wedding anniversary is being celebrated this month by Motorman and Mrs. Herb Johnson. It's nice to see comparatively young people honoring their tenth year together now—a-days when the matrimonial rocks are filled with so many shipwrecks of only ten months duration. Bon Voyage, folks, on the rest of your cruise.

Condolence is extended to the following on death in their families: Conductor C. C. Beyer, his daughter; Motorman R. R. Franzen, his mother; Motorman K. L. Landeck, his father; Motorman Harry Oakes, his wife; Motorman T. McCormick, his wife, and to the families of the deceased Starter Richard Walsh, Motorman H. J. Callahan and Conductor W. B. Davies.

Walter F. Story.

Lincoln

Chief Clerk Fred Murbarger, who was secretary and treasurer of the Credit Union, resigned the position because of other duties and he was replaced by Conductor Ed Hutton, who is taking a great interest in the work and getting ahead, very nicely.

Now that it's time for the soft ball season to open, why don't all you young fellows who like to play get into the game? Practice makes perfect and all good players are needed to make the team a success.

Motorman J. Vogt is wearing a big broad grin these days and the reason is he has bought the ring, the girl has said yes, and now we are waiting to hear when the wedding bells are to ring for the happy couple.

The wife of Conductor Fred Elie, who underwent an operation recently, is at home and convalescing nicely.

Two of the men of the station passed away this month. Conductor George Conce died on Saturday, March 12. Services were held at Schmidt's Chapel, 3824 Irving Park Boulevard, with burial in Montrose Cemetery. Motorman Albert C. Roeser died on Monday, March 14. Services were held at Molloy's Chapel, 2627 Lawrence Avenue and St. Alphonsus Church. Burial was in St. Boniface Cemetery. Sincere sympathy is extended to both families.

Henry Spethman.

No-Accident Honor Roll

WORSHIPPERS COME AND GO

Long lines of people block sidewalks as Novenites wait their turn at the Perpetual Novena to Our Sorrowful Mother at Our Lady of Sorrows Church at 3121 Jackson Boulevard. Below: Worshippers, their Novena made, depend on the Surface Lines system as they flock to cars at Kedzie and Jackson.
