No-Accident Cards to 5,455

No Chargeable Accidents For 346 Trainmen
During 13 Year Period

By WILLIAM PASCHE
Supervisor of Accident Prevention

No-accident cards were sent this month to the 5,455 trainmen of the Chicago Surface Lines who had no chargeable accidents during the 12 months which ended January 31, 1940. The figure is an increase of 90 over the number who were similarly honored in the previous year's awards.

Of the total of 5,455 who had no chargeable accidents during the last fiscal year there are 346 Surface Lines trainmen who have had no chargeable accidents during the last 13 years in which the records have been kept in their present form. Of the total number of no-accident trainmen, 3,309 have had no chargeable accidents for two years, 2,137 for three years, 1,477 for four years, 1,104 for five years, 933 for six years, 811 for seven years, 731 for eight years, 667 for nine years, 622 for 10 years, 533 for 11 years, 454 for 12 years and, as stated, 346 trainmen have had no chargeable accidents during the last 13 years.

Street Car Is Safest

When it is considered that these men are operating day in and day out in all kinds of weather and through streets that are congested with automotive traffic, the safety record of so large a proportion is highly commendable. Such a record gives further support to the claim that the street car is the safest place in the street.

The total number of accidents during the last fiscal year increased very slightly but was more than offset by large decreases in important classifications. The increase is almost directly attributable to conditions over which we of the Surface Lines had no control—the weather. As we entered the first few days of the fiscal period, the trainmen still had to contend with the unusual hazards remaining after the 14.9 inch blizzard which started January 30 but whose effects were felt for many weeks before a last thaw freed the streets and allowed automobilists to drive on the streets rather than exclusively in the street car lanes. Our accident studies show that the bad weather months are the bad accident months so it was not surprising that our accident totals zoomed during that period. Similarly, just as the fiscal period was drawing to a close another January snowstorm again hampered transportation.

As is customary following snowstorms, almost every vehicle seeks the right of ways of the street cars, the drivers knowing that

they will be cleaned. The additional traffic thus thrown on street car streets is, in the main, responsible for the small increase in the total number of accidents.

Street Hazards Increase

The unusual weather of the period was not the only additional hazard to operation. Street hazards are constantly increasing as more and more vehicles are licensed to operate on the streets of Chicago. During 1939 a total of 580,062 vehicles were licensed by the City of Chicago, 9,213 more than were licensed in the previous year and the largest number in the history of the city. To those thousands must be added the automobiles which come to the city daily from the suburbs and from other cities and states. With so many cars on the streets, many of them decrepit models unfit for driving, the motormen of the Surface Lines must be prepared to contend with real dangers on every street and at any moment.

The motormen of the system can take real pride in one phase of the accident report which discloses the fact that the fall-in-car type of accident decreased by 13.4 per cent. It has long been the contention of officials that this type of accident could be controlled. The reduction seems to bear out that contention and indicates that the motormen of the system are operating more smoothly. That is about the only conclusion that can be made because most known accidents are traceable to sudden stops and starts.

Fall-In-Car Type Declines

The men in the Accident Prevention department have carefully charted all fall-in-car accidents and from their findings it appears that most of the accidents of this type are directly chargeable to sudden starts or to too much use of power. In their analysis they found most of the accidents happened in the rear platform or rear portion of the car. Further study shows most of them occur on starting. I am glad to point to the fact that the number of fall-in-car accidents occurring during starting has been decreased by 19 per cent. The stopping type showed a decrease of 11 per cent.

Miscellaneous accidents in which passengers were involved decreased by 8.5 per cent, a sizeable reduction.

Obviously, the Surface Lines cannot be and is not responsible for many of the accidents

which are included in a report of this type.

One type of accident has caused major concern during the last few years. One life has been lost in each of the last three years when conductors have been struck while putting up a trolley pole from the street. *Such accidents can be avoided.* It may take a moment longer to lower a rear window and replace a trolley from inside the car, but the small additional time is of no consequence when it may mean saving a life. This practice is particularly important after dark for the street car is without lights when the trolley is off and is a natural target for careless motorists. If we can teach every conductor on the system to set all trolley poles from inside the car we will have taken a great step to preserve the lives of our men.

More Are Safety Conscious

Figures for the last fiscal year indicate that most employes have become more safety conscious for there is a reduction of 1.2 per cent in the number of reports of employes injured.

There is evidence too, that many members of the Track Department would do well to investigate the merits of "safety shoes." During last year lost time accidents due to toe injuries totalled 623 days. The inexpensive safety shoes would have eliminated that loss as well as the pain that the men suffered from toes injured by falling objects.

Due to the fact that the train force is constantly in the public eye, their efforts toward accident prevention are most conspicuous. Other departments of the Surface Lines, however, made good records.

A commendable record is credited to the Track and Roadway department. For the second successive year no men were killed by automobiles and for the fifth successive year no men were killed by street cars; for the second year in a row no eyes were lost. Three goggles were smashed without injury to the eyes during the year just passed.

All in all the Surface Lines has compiled a commendable record. My personal thanks go out to every employe who made such a record possible.

FRANCIS J. SCHAF DIES

Was Chief Adjuster For Many Years

Francis J. Schaf, for many years chief adjuster of the Chicago Surface Lines claim department, died in his home at Park Ridge, Thursday, March 21, after a long illness.

Mr. Schaf began his street railway career as a conductor on the Madison street line of the West Chicago Street Railroad company August 13, 1893. Two years later he was transferred to the claim department as an investigator and in November, 1915, he was named chief adjuster.

Frank Schaf, as he was familiarly known, was a resident of Austin for more than 40 years before moving to Park Ridge 16 years ago.

He is survived by his widow, Theresia, and two daughters, Theresa and Mrs. Edmund Curda.

Services were held at the St. Paul of the Cross church in Park Ridge on Monday, March 25. Burial was in All Saints' cemetery, DesPlaines.

BEWARE OF LOAN SHARKS!

Excessive Interest Charged—Officials Push Investigation

Editor's Note: The following story appeared on page 1 of the "Chicago Daily News," April 5, to whom we are indebted for permission to reproduce. Surface Lines employes have been warned against the depredations of "loan sharks" on many occasions. The following story illustrates the manner in which the unwary are victimized by such men. It appeared under the heading "Streetcar Men Victimized by Loan Sharks."

State's Attorney Courtney today revealed that several weeks of investigation had disclosed that loan sharks were operating without licenses near street car and bus line terminals and charging excessive interest rates. He said that notes for loans totaling about \$9,000 were returned to persons who signed them.

One set of such sharks, Courtney declared, charged rates that were equivalent to 500 per cent a year.

The investigation was begun by Assistant State's Attorneys James Cherry and Casimir Cwiklinski on instructions from Courtney after wives of many street car and bus employes complained about the usury being practiced on their husbands.

The unlicensed operator doing the largest business of those exposed in Courtney's announcement is Douglas P. Moore, whom Cherry and Cwiklinski said they found operating in the rear of a cigar store at 1539 North Cicero avenue, near the North avenue car barns.

Interest of 250 Per Cent a Year

Moore, the prosecutors said, was holding about 100 notes totaling \$5,000, on which he was charging the borrowers 5 per cent a week, which is more than 250 per cent a year.

The investigators reported finding George W. Smith and Edward N. Hensley using a barber shop near the car barns at Devon avenue and Clark street for their shark operations. This pair, according to the report, held 40 notes for a total of \$2,500 in loans, and charged 10 per cent a week, which would force a borrower of \$100, for instance, to repay \$500 should he keep the money a year.

The operators of the third uncovered loan shark business—Morris and Irving Block—charged the comparatively wholesale rates of only 10 per cent a month, Courtney said. These brothers specialized in Chicago Motor Coach Company employes who found the Block office at 5036 South Parkway convenient to the end of their runs. The Blocks were induced to return 14 notes representing a total of \$1,500.

Violated Loan Act

Even had any or all of the loan sharks been holders of licenses they would have been charged with violation of the Small Loans Act, Courtney said, since that act sets 3 per cent a month as the maximum legal interest rate.

The investigation will be continued, the state's attorney announced, until all complaints have been investigated and the usurers driven out of business.

Praise From Safety Expert

Record Compiled Despite Unfavorable Conditions
Says Safety Council Head

By **GEORGE G. TRAVER**
Manager, Greater Chicago Safety Council

The personnel of the Chicago Surface Lines are deserving of commendation for the splendid safety records established during the year 1939. It is a worthy achievement to establish a good record of any kind under favorable conditions. It is a more notable accomplishment to do so under unfavorable conditions.

A survey of the accident experience on the streets of Chicago during the past year presents an unfavorable situation—696 citizens, 506 of them pedestrians, were killed during the year. Although this figure is only slightly higher than 671 fatalities in 1938, and still well under the 826 deaths in 1937, it indicates a reversal in trend. Each month in 1938 had shown a reduction over the corresponding month the previous year, and this favorable trend had continued until April, 1939—a total of 16 months—before the record of improvement was broken. At the close of 1938, there had been a total reduction of 18 per cent in the number of motor vehicle deaths over the previous year.

The accident experience in the last half of 1939 was so poor that the gains of the earlier months were entirely wiped out, and an actual increase of 25 deaths accrued for the year. The number of injuries increased from 20,719 in 1938 to 22,597 during 1939.

Hazards Increase

Despite this upward trend in motor vehicle deaths and injuries, the operation of Chicago Surface Lines equipment showed a substantial decrease in accidents even though automobile registrations and gasoline consumption reached an all-time high during 1939, which indicates that the volume of traffic on the streets and the attendant exposure or hazard were greatly increased.

The operating personnel were not alone in hanging up a good safety record during the year. West Shops were the winner in their group in the 22nd Semi-Annual Interplant Accident Prevention Contest conducted by the Greater Chicago Safety Council and will be presented a handsome bronze plaque, indicative of this achievement, at the Banquet of the 18th Annual Midwest Safety Conference on May 2.

A study of the motor vehicle accident records for the past year develops two very striking

facts. In the first place, approximately 73 per cent of the persons killed were pedestrians; and, secondly, the disproportionate number of accidents, both fatal and non-fatal, which occurred during the hours of dusk and darkness. In all, 62 per cent of the fatalities occurred between 6:00 p. m. and 6:00 a. m. Of course, a very large proportion of these night fatalities occurred to pedestrians.

Stress Precautions

These facts point out very clearly the lines along which preventative efforts must be taken. They not only indicate the direction of the community-wide program but serve as a guide to the actions of the individual vehicle operator, whether he drives a street car, a bus, or motor vehicle. Safe driving demands that extraordinary precaution be exerted at all times to avoid striking a pedestrian.

It would be unfair to conclude that the vehicle operator was responsible for all of the pedestrian deaths and injuries, perhaps not for even most of them, but the driver of a vehicle must accept his responsibility to look out for the pedestrian and to anticipate the unsafe practices in which these pedestrians may indulge. Many of them are old men and women or young children who are either thoughtless or physically unable to react and move with sufficient agility to protect themselves. The burden of safeguarding this group rests upon the vehicle operator.

Reductions Possible

The preponderance of night accidents is evidence of the need for even greater precaution during the hours of dusk and darkness. The majority of the city streets are not provided with adequate safety lighting. The burden of responsibility must, therefore, again fall upon the vehicle operator to anticipate the unsafe actions of pedestrians.

The accident experience of the Chicago Surface Lines over a period of years indicates that accidents can be controlled and reduced when an intelligent approach is made to the problem. Similar methods, community-wise, will also get results. It has been proved that accidents can be reduced when there is the will on the part of both citizens and public officials to attack the problem with vigor and sustained effort.

Indifference and lethargy are enemies which must be constantly fought. There is no time for relaxing the intensity of the safety program, either within the individual organization or in the community, state, or nation. With automobile registrations, gasoline consumption, and, consequently, the mileage operated by motor vehicles increasing each year and with better business conditions, preventative activities must show a corresponding increase in scope, energy, and sincerity.

George G. Traver

FORSYTHE PROMOTES MEN

Names Dinter Bonding Foreman— Other Changes Made

Several changes in the Electrical Department were recently announced by Electrical Engineer S. D. Forsythe, all effective April 1. Bruno Paul Dinter, Jr., better known as Bruce, was named bonding foreman for the north side section and James J. Doubek, who formerly operated in that section, was transferred to the south side territory formerly covered by the late John Rietz.

Dinter first worked for the Surface Lines between 1925 and 1928 when he was a clerk in the office of the late John Wilkie. He resigned that position and returned to his schooling and for a time worked with the Greyhound Advertising agency in sales work. On May 22, 1934, he began work as a laborer in the Electrical Department. On May 16, 1937, he was appointed as a clerk at Grand and Leavitt under F. E. Roper, superintendent of transmission.

Mr. Dinter is active in the Junior Association of Commerce, where he serves as secretary of the City Planning Committee. Thirty-one years old, he is married and lives at 5542 North Nordica avenue.

Coincident with Dinter's promotion, Stanley Jackson of the downtown office was named to succeed him at Grand and Leavitt under Mr. Roper.

The vacancy resulting from Jackson's promotion was filled by the promotion of Chester Matuszewski, who was transferred from duties at the Grand and Leavitt location to the downtown offices.

Bruce Dinter

OBITUARY

Deaths on the System from March 1, 1940 to March 31, 1940

Transportation—Archer: Dennis Gildea, employed April 12, 1893, died March 23, 1940; James Grant, employed June 15, 1906, died March 30, 1940; Henry J. Risch, employed October 9, 1901, died March 3, 1940.

Armitage: Michael A. Lyons, employed September 20, 1899, died March 28, 1940; Joseph Moseley, employed November 1, 1907, died March 10, 1940.

Blue Island: Alois J. Linden, employed February 7, 1888, died March 3, 1940.

Burnside: Fred Danielson, employed May 14, 1895, died March 2, 1940; Edwin Wynn, employed July 11, 1916, died March 2, 1940.

Devon: John Natelborg, employed May 7, 1920, died March 26, 1940; Edward C. St. Clair, employed April 9, 1928, died March 23, 1940; Louis J. Wallace, employed June 27, 1922, died March 17, 1940.

Division: Martin Geller, employed June 23, 1893, died March 11, 1940.

Elston: John M. Gebhardt, employed July 14, 1905, died March 29, 1940.

Kedzie: George Ambrose, employed October 19, 1921, died March 12, 1940; Patrick Walsh, employed April 9, 1904, died March 13, 1940.

Lawndale: Frank Paul Dillon, employed November 23, 1916, died March 22, 1940.

Limits: Helmer E. Anderson, employed March 28, 1929, died March 31, 1940.

Noble: Anthony Czrylanis, employed October 24, 1895, died March 10, 1940.

Seventy-seventh: Charles L. DeMars, employed March 19, 1902, died March 29, 1940.

Accident Investigation—Francis J. Schaf, employed August 13, 1893, died March 21, 1940.

Electrical—John Rolnicki, employed July 6, 1902, died March 25, 1940.

Shops and Equipment—Blue Island: Joseph Olszewski, employed May 20, 1936, died March 21, 1940.

Cottage Grove: Charles C. Margetic, employed July 6, 1906, died March 31, 1940.

Kedzie: William Tipping, employed October 6, 1919, died March 25, 1940.

South Shops: George Overend, employed October 21, 1918, died March 3, 1940.

DEAN OF INVESTIGATORS DIES

Death Calls Other Veterans From Ranks

Death called several veterans from Surface Lines ranks recently.

Joseph A. Nellis, 70 years old, dean of the special accident investigators, died in his sleep Saturday, April 6. He had been with the Surface Lines for 24 years and made his home at 5730 West Ohio street.

Mr. Nellis is survived by his widow. The funeral services were held at St. Lucy's church, Tuesday, April 9, with burial in Calvary cemetery.

Death struck unexpectedly last month when it removed Motorman Charles L. Demars from the roster at Seventy-seventh. He suffered a heart attack on March 29 and died within a few hours. He was 71 years old.

Motorman Demars began his service on March 19, 1902, so had completed 38 years at the time of his death. He was instrumental in the formation of the L & A club of Seventy-seventh in 1908, and for 30 years he helped direct the policies of the club in an executive capacity. He was a skilled billiard player and enjoyed a city-wide reputation for his proficiency.

Motorman Demars is survived by his daughter, Anita.

Death also called Motorman John Moriarty of Seventy-seventh on April 5. He was the oldest active motorman on the Surface Lines system until failing health put him on the inactive list on July 30 last year.

Mr. Moriarty was 86 at his death and his service dated from December 2, 1881. He is survived by two sons, George, an American League umpire; Joseph, a South Park policeman, and a daughter, Alice, who made her home with her father at 8635 South Bishop avenue.

Services for Mr. Moriarty were held at St. Rita's church on Monday, April 8. Burial was at Mt. Olivet.

Safety Record Praised

Annual Report of President Lauds Accident Prevention

A big reduction in accident fatalities involving Surface Lines cars and buses has taken place over the last 25 years. The greatly improved safety record in this respect reflects the collective effort of employes, the continuous training of operating personnel and the regular inspection and maintenance of equipment.

These facts are brought out in the annual report of the Chicago Surface Lines which was issued in March. The comment on the safety record was a feature of the annual report and included the charts which are reproduced on the inside cover.

President Guy A. Richardson, in making the annual report, praised the Surface Lines organization for the reduction in accidents. "This Surface Lines record," he said, "reflects the co-operative effort of the departments which worked to make it possible. It is to their credit, and particularly to the credit of the more than 10,000 motormen, conductors and operators, that the Surface Lines has been able to make this contribution to the saving of life."

Safe Operation Necessary

The Surface Lines, he continued, recognizes that safe operation on the streets and in the shops is a responsibility to the public and to its own employes and has for many years stressed accident prevention measures.

"It is gratifying to be able to report that this safety program has reduced accidents and has resulted in a continuing reduction in accident fatalities," he added. "The number of such fatalities for the entire system in the past year was at the lowest point in the 26-year history of unified operation. Fatalities, including those resulting from street car and bus accidents of all kinds, were less than one-half the annual average for the 1915-1919 period (first five years of unified operation) and 65 per cent under the 1918 peak.

"An impressive decline in the number of car collisions has been recorded in the same period. This classification covers collisions between Surface Lines vehicles. In the past year the number of such collisions likewise was the lowest in Surface Lines history, being 88 per cent below the annual average for the fiscal years 1915-1919. The decline from the 1915 peak was 91 per cent.

Car Collisions Decline

"This improvement in accident-fatality and car-collision records has occurred in the face of a constantly increasing volume of general vehicular traffic. In the 1915-1919 period, when accident fatalities were the heaviest, the number of automobiles and trucks in Chicago averaged about 57,500. Last year, when the Surface Lines operated a total of 117,000,000 car and bus miles, the number of automobiles and trucks in the city had increased tenfold. Yet the number of accident-fatality in which the Surface Lines was involved was reduced more than 50 per cent compared with the 1915-1919 average.

"Accident prevention training has resulted also in a marked reduction in injuries to our own employes in the shops, track and other departments. The Chicago Safety Council recently announced the award of a bronze plaque to the Chicago Surface Lines West Shops as a prize in a metropolitan inter-plant contest in the last six months of 1939.

"The Track and Roadway department has made outstanding progress in accident reduction. From 1926 to 1932, two or three employes of this department died each year as a result of being struck by automobiles while on duty. In the past two years there were no fatalities in this classification. There was formerly also an average of two eye losses per year among Track department employes, but there were no such losses in the last two years."

HOW DID "LOOP" GET NAME? —YOUR ANSWER'S WRONG!

How did Chicago's "loop" district first get its name?

Almost everybody is able to locate the "loop" as being in the heart of the central business district. Asked the above question they will say the "loop" got its name by being bounded by the elevated structures on Wells, Van Buren, Wabash and Lake streets. And they'll be wrong—according to the historical record of when the term "loop" first came into general use.

The first "loop" in Chicago lay within that area bounded—not by "L" structures—but by the cable car trains which enclosed an area bounded by Madison, Wabash, Lake and State streets!

An old historical booklet of the Chicago City Railway company explained the reason for the loop and put quotation marks around the word "loop" for the first time, as follows:

"To 'switch back' as when horses are turned from one end of the car to the other, would consume too much time and be utterly inadequate. Turn-tables are equally so. Hence the establishment of a 'loop' became an imperative necessity, performing the work with no loss of time, and without in any manner obstructing the street; and through all the hours of the busy day and far into the night a great multitude of trains with the utmost regularity join and leave this endless procession. The State street loop forms a parallelogram composed of a single track on Madison street, Wabash avenue, Lake street and back to the starting point on State street."

So that's how the "loop" designation started—long before the "L" structures went up!

TESTIMONIAL

A customer writes:

"I always ride the Surface Lines to save my money and my time, and it makes me ever so happy when the motorman and conductor act with all courtesy."

There are two thoughts there which every trainman should consider. They are sales points which should never be forgotten.

Here is a rider who finds that he saves both time and money by using the Surface Lines. To that extent he is satisfied with the system. He gets added satisfaction from every ride "when the motorman and conductor act with all courtesy."

Courtesy seems a small premium to give with each fare. Certainly it is a small premium to give a regular rider who is already "sold" on the system, and who is outspoken about his preference.

If common courtesy is a premium, more riders should be given this added inducement.

"LET THERE BE LIGHT!"

Among the many advantages street cars possess over any other form of surface transportation is the smoothness with which they travel. Out of that fact has come a valuable advertising slogan which proclaims you can "Read As You Ride."

The slogan, even the opportunity to

"read as you ride," may soon become a thing of the past unless more consideration is given passengers. In short, more street car lights should be turned on more often.

Unfortunately, on dark days some street car passengers are forced to lay aside their books or newspapers because a thoughtless conductor has neglected to turn on the reading lights in the interior of the car.

It was only a few years back that the power of the lights inside the car was increased so that passengers could read more easily. That was done as a convenience for riders, most of whom prefer to read on the way to and from work. It was a public relations gesture that was appreciated as such. Its effect is sometimes nullified, however, because an operator gives too little thought to the comfort and convenience of the passengers whose fares pay the wages.

The riders are entitled to this service. The benefits accruing to the Surface Lines through the goodwill thus created more than offsets the cost of electricity consumed.

Let there be light so that passengers may read!

NO SIR, CRIME DOESN'T PAY! —HERE'S THE LATEST PROOF

When justice overtakes fake accident witnesses the cost is apt to run high. One William P. Buzzak found that to be true February 29 when he was fined \$100 for posing as an accident witness.

Mr. Buzzak's troubles began even earlier. That was along about February 21 when he answered one of those advertisements that appear in the "personal" columns in an effort to secure witnesses to accidents.

He answered an ad of that sort, but said that on his way he had been in an accident and that he would need \$6 to get his car out of the garage. The suspicions of the advertiser were roused and she decided she and her husband would accompany Buzzak to the garage that held his car. The little party went to several garages on the strength of Buzzak's plea that he couldn't recall just where he had stored the car.

Eventually the advertisers hailed a squad car and he was hailed into court for practicing his petty confidence game.

The "game," as Mr. Buzzak found, turned out to be expensive at \$100 per "game."

Courteous Trainmen Commended

Many Receive Praise For Acts of Politeness—Complaint List Starts Upward Again

After one month in which a decrease in complaints was recorded, the trend shifted again so that figures for March, 1940 show 516 complaints in contrast to 463 received during March, 1939. It was hoped that the rising tide of complaints had been stopped when the February compilations were released.

Predominant in the complaint listing were the charges of discourtesy preferred against more than 100 trainmen. Almost as many complaints were made by passengers who were passed up.

The bright spot in the March, 1940 figures is to be found in the commendation list. There were 70 commendations during the month just past in comparison to 57 commendations for March, 1939.

Praise for the manner in which Motorman Herman Schroeder, badge No. 4305 of Devon, operated his car, assisted passengers, both young and old, and answered questions patiently and courteously was expressed in a letter from Elmer W. Solter, 4233 North Moody avenue.

Retrieves Hat

An act reminiscent of old-time chivalry was related in the commendation of Florence Fullmer, Chicago & Northwestern, 400 West Madison street, who praised Motorman Joseph E. Carroll, badge No. 12077 of Seventy-seventh, who sprang from the front platform to retrieve Miss Fullmer's hat when it was blown from her head as she was alighting.

Miss Pearl Koenig, 1307 South Keeler avenue, related several specific acts of courtesy which she saw Conductor Ben Amsterdam, badge No. 8194 of Kedzie, perform for the benefit of different passengers.

A grateful note from Mrs. Mary Palmer, 3153 West Ohio street, thanked Conductor Charles J. Svoboda, badge No. 10892 of North Avenue, for the assistance he rendered Mr. Palmer prior to his recent death while on the street car.

A patron who read that Conductor John A. Kocher, badge No. 8198 of Archer, was shot in a recent hold-up wrote to say that he had observed Conductor Kocher on many occasions and considered him to be most courteous and considerate. The praise was from A. M. Burroughs, Room 1501, 188 West Randolph street, who expressed his hope for a speedy recovery.

In praising Conductor Carl Carlson, badge No. 8959 of Kedzie, for graciously helping her to board, Mrs. Alice Cleary, 4247 Wilcox avenue, said such special courtesy was worthy of more than a verbal "thank you" so wrote to call Conductor Carlson's act to the attention of company officials.

Aid rendered to a feeble old man by Conductor Edmond F. McMahon, badge No. 4956 of Cottage Grove, was observed by C. H. Wilson, 1134 Oakdale avenue, who wrote in praise of such courtesy.

TROLLEY SPARKS

"Fluffy might bite a passenger? . . . Why, he won't even eat portehouse steak unless it's smothered with mushrooms!"

Advances Fare

Conductor Joseph P. Carney, badge No. 10746 of Burnside, was praised and repaid for advancing a fare to Mrs. Marshall W. Hill, 6101 Sheridan Road.

For returning a purse containing a considerable amount of money, Motorman Timothy D. Sullivan, badge No. 13229 of Sixty-ninth, won the thanks of Alice A. Donaldson, 1425 East 60th street.

In a similar case, Mrs. C. T. Mackey, 7043 South Aberdeen street, praised Conductor Albert V. Johnson, badge No. 10144 of Sixty-ninth, for the return of a lost purse.

Conductor Carl E. Weber, badge No.

14064 of Archer, was commended for holding his car for intending passengers in a communication from W. J. Cummins, 4408 North Long avenue.

Ferne S. Kellenberger, 815 Belden avenue, wrote with appreciative words for courtesies extended by Conductor William Fahey, badge No. 1952 of Kedzie.

Appreciation for the manner in which Conductor Anton T. Mokstad, badge No. 3332 of North Avenue, called streets, was voiced by Mrs. Winifred Strandberg, 7221 Stewart avenue.

Motorman William Krause, badge No. 1161 of Armitage, was credited with avoiding a serious accident by being alert to the dangers of the job. His skillful handling was noted by Mrs. Mae Kautz, 5435 Dakin street.

Helen E. Gaethe, 2127 North Lawler avenue, wrote with thanks for a purse returned by Conductor George C. Wdowik, badge No. 13074 of Division.

Operator Anthony J. Kosnauski, badge No. 11304 of Archer, was commended for his efficiency by W. R. Ireland, 3039 East 91st street.

AN OLD BADGE TURNS UP

Former Trainman Sends Badge From South Africa

All conductors travel a lot, but one former conductor seems to have hung up a record of some sort. He is Alfred Hamilton who worked out of the Blue Island and Kedzie stations for about three years between 1910 and 1913, and who now lives in Durban, Natal, South Africa.

Hamilton's address came to light recently when he returned an old Chicago Railways company badge No. 2368, which he said he had misplaced many years ago. His letter accompanying the badge made no mention of his present occupation or how he arrived in South Africa.

Company records show Hamilton entered the Chicago Railways service August 19, 1910, at Blue Island. On December 31 of that year he transferred to Kedzie depot and worked out of that station until his resignation on June 28, 1913.

Hamilton indicated that the "lost" badge had evidently lain unnoticed in his trunk through all the years that have elapsed since his resignation.

Those who remember Hamilton may be interested in his address, which he gave as P. O. Box 1109, Durban, Natal, South Africa.

Superintendent of Transportation W. A. Hall acknowledged the return of the badge with thanks.

EMPLOYEES RELIEF FUND

March, 1940

The Surface Lines Employees Relief Committee received 10 applications for relief during the month of March. After investigations were made 8 of these were approved for assistance. There were 269 active cases on the relief rolls at the end of the month, 7 having been removed by death or other causes.

Including the \$10,993 spent during the month of March, a total of \$1,438,883 has been paid out of the Surface Lines Employees Relief Fund for assistance of employes since the organization of the committee.

Departments and Divisions

Accident Investigation and Legal

We are glad to see statementman Ed O'Connell back in harness after a long siege with his appendix.

Our sympathy goes out to Investigator John Barry in the loss of his wife, Elizabeth Barry, who died on March 26. The funeral was held on Friday morning, March 29, with burial in Calvary cemetery.

Robert Pekie of the Accident Prevention Department was wearing a broad smile on the morning of March 17 and a little cross-exami-

nation revealed the fact that on the day before he had become the proud daddy of a 6 pound 13 ounce baby girl to be known in the future as Bonnie Jeanne Pekie.

Those redskins of the D. A. I. Bowling League have gone on the warpath. On March 29 the "Indians," captained by John Ploner and paced by William (Bill) Peterson with 587, broke all the records for the league. They had games of 876-937-880 for a total of 2693, to better the previous high game of 856, and their own high series of 2463. Peterson's 587 also is good for second high series. Besides garnering all the records, they also took undisputed possession of first place with 38 wins against 25 losses. Ed Healy's 242 still stands as high game. Emil Tangen has finally regained the "cellar" position.

Investigator.

Accounting

"Many happy returns of the day" were extended to Marion Danner, William Kennedy, Charlotte Rochow, Patricia Dore, Lester Hill and Bernice Anderson, all of whom celebrated birthdays during the last month.

We are all hoping for a speedy recovery of Mrs. Agnes V. McCormick, who is convalescing in the Henrotin hospital from an injury she sustained on Tuesday, March 12.

Congratulations and much happiness is our sincere wish for Miss Charlotte Rochow of the trip sheet analysis division and Leonard Noyle, who were married Saturday, March 23. Miss Rochow was presented with a chest of silver and a beautiful bouquet by her associates.

We are glad to note the return of Miss Rosalie Lux of the blue transfer division after an absence due to illness.

Thomas F. Coan.

Electrical

Felix Gerard, emergency lineman from Grand and Leavitt, has been confined to the Southtown hospital for several weeks. Our wishes are for a speedy recovery.

Richard Youse and Douglas Hallberg, both of the line department, mourn the loss of members of their family. Richard lost his father February 21 and Douglas lost his mother March 15. Our heartfelt sympathy is extended to both of these boys and their families in their sorrow.

Bill Hughes, who spent several days in St. Anna hospital, is now at home recuperating from his illness. Best wishes for a speedy recovery, Bill.

Congratulations for Roy Rogers of our meter testing division who is now a proud grandfather. His daughter recently gave birth to a 7 pound baby girl whose name will be Judith Lou.

We all extend our heartfelt sympathy to the family of the late John Rolnicki, who died after 38 years of service. He started as an oiler in the old California steam power house and later was at Broadway substation as an operator. John died March 25 after about 16 months of illness. Two sons, Sylvester and Norbert, are at present employes of this department.

Paul Siegmeyer of the line department has announced the date of his wedding to Miss Marguerita Verschota as April 20. Congratulations. May they be blessed with a prosperous and happy married life.

Billy.

Schedule and Traffic

Sympathy is expressed to James Murphy, whose father passed away April 1 at Valley City, North Dakota.

Jack Crennell is still convalescing at home. Reports indicate his progress is satisfactory and this department is extending their hopes for a speedy recovery.

L. C. Dutton.

Shops and Equipment

South Shops: To Edward Roberts, car wiring department, and to his wife we offer our heartfelt sympathy upon the loss of their little son, 3½, who passed away suddenly on March 13.

Robert Hackbarth, motor repair department, is forsaking "Single-blessedness" on April 20, to join the ranks of the "Benedicts." He will be married to Mildred Cunis, of Berwyn. To the happy couple we offer our sincere wish that they may have a long, happy and successful married life.

Carl Chelno, blacksmith, passed away on April 2, after a brief illness. We offer deep sympathy to the family and relatives in their sorrow.

To Rudolph Weber and Jerry Vondras, motor repair department, who are on the sick list, we offer wishes for a speedy recovery.

Cottage Grove: Sincere sympathy is extended to the family and relatives of Charles Margetic, who passed away on March 31, after a long illness.

77th Street: Joseph Ditchie proved himself the "perfect host" recently, when he held a party for the boys at his home.

Gus Staveidas is well on the way to becoming a movie critic of note, having viewed the cinema "Gone With the Wind," four times within one week.

69th Street: On February 29, Christ Forte, repairman, passed away after a brief illness. We offer our sincere sympathy to his family in their sorrow.

Archer: News from the cabbage patch informs us that John Shlensky has just completed his cottage and utility room. He invites all to a housewarming party, as the prairies out his way will soon be strewn with a carpet of flowers.

On May 3 Simon Stenberg, repairman, expects the barnmen to acquaint themselves with his new home, and to help him celebrate his birthday.

We are all looking forward to the speedy recovery of John Burnetsky and Joseph Gricunas, who are convalescing at home.

On March 19 Simon Julian was blessed with a lovely baby girl weighing 9½ pounds. Congratulations to dad and mother, with best wishes for baby.

Elsie S. Frank.

West Shops

The men having received honorable mention for their ability to topple over pins, we think that Edna Schelter, switchboard operator at the West Shops, should be lauded for her high score of 597 for three games. Miss Schelter is a member of the Riddell Bowling Shoe Team of the Congress Major League. Her next best score was made at the Playdium, scoring 595

for three games, 256 high game.

Sympathy is extended to the families of J. J. Olszewski, car cleaner at Blue Island, who passed away on March 21; and William Tipping, car cleaner at Kedzie, March 25.

Lillian Hultquist.

West Shops Bowling League: March 19 marked the end of the 1939-40 season for the Bowling League. The final standings are as follows:

	Won	Lost
1 Carpenter Shop.....	52	32
2 Wood Mill.....	44	40
3 Armature Room.....	43	41
4 Pipe Fitters.....	42	42
5 Front Office.....	40	44
6 Storeroom.....	40	44
7 Machine Shop.....	38	46
8 Tin Shop.....	37	47

High three-game series of 2721 was bowled by Carpenter Shop and took first prize; second went to the Pipe Fitters with 2671, and third to the Machine Shop with 2600.

High team single game was knocked off by the Wood Mill team with 983 while Storeroom was a close second with 981; Armature Room third with 949.

In the individuals, Tony Subert's high game of 268, bowled early in the season, retained first place; Palicki was second with 267, and Bednarik third with 257.

High three-game series was neatly taken in by Lou Spolec with 672; Morris was second with 668, and O'Brien took third with 666.

Dan O'Brien finished first in the individual average standing with 182, Rechteris was second with 180 and Hasto third with 176. Bednarik and Morris tied for fourth with 175.

At this time we wish to thank every member of this league for helping us make it a success, and sincerely hope to have you all with us next year.

John Hasto, Secretary.

Transportation

Employees of the Transportation department general office were recently treated to a feast of delicious, juicy Florida oranges shipped by Supervisor John Krause of the central division. John reports having had a delightful time.

P. A. Greene is now on vacation in the southland, his first stop being Miami, Florida.

Andy.

Around the Car Stations

Blue Island

Conductor Charles Devine, who is in the Edward Hines hospital, would appreciate a visit from the boys.

Motorman Peter Ivenyak, who has been confined to his home on account of illness for the past eight months, would like to have some visitors.

Receiver John M. Johnson is undergoing treatment for sciatic rheumatism at the Mayo Brothers hospital, Rochester, Minnesota. We all hope for his speedy recovery.

Our sympathy is extended to the family of Conductor Joseph Linden, who was struck and killed by a truck while on his way to work Sunday, March 3. Joe completed his fifty-second year of service on February 7.

We also extend sympathy to the family of Conductor Michael Henahan in the death of his father.

We welcome to this world baby Sylvia, 7 pounds 7 ounces, who made her appearance on January 8; the proud parents are Conductor and Mrs. Mathew Shep. Leona Pauline, 7½ pounds, was born to Motorman and Mrs. Michael Griffin at the Holy Cross hospital, January 20. Congratulations to the happy parents.

John Wilburt Creighton, 23 year old son of Motorman William Creighton, who spent two years at Blackburne college and four years at Kent College of Law, passed the bar examinations recently and has opened up an office in the loop. We wish him success.

If anyone has any items of interest, please submit same to the writer.

C. P. Starr.

Cottage Grove

In hopes that this will be a hot column perhaps there is no better way to begin than by relating the tale of Starter Valerious. Seems that Floyd was called to a fire by the dispatcher and upon arriving at the scene found the basement burned out of his own house. A possible cure for the future may be an increase in Kate's allowance.

William Moody is the proud daddy of a son. William Allen arrived the latter part of February and now is master of the house. Congratulations, Bill and Millie.

Among recent releases from the hospital are Supervisor Kelly and Chief Clerk Atkinson. Kelly is now on the job and Percy will, in all probability, be back by the time this column is in print.

The sick list includes Ray Piersol, Robert Wilson, Dennis Crowley, Walter Johnson, James Calaghan, Louis Francouer and Tom Moran. A visit from some of the fellows would help break the day and be much appreciated by the lads. Try to get around to see some of them.

Ostet.

Division

Robert Judge, Barney Loftis and Andrew Lowery have been appointed to choose a softball manager for the coming season. Motorman Frank Abbey can hardly wait for the opening game.

With warm weather here Fred Letza, Art Lamberti and Victor Wede won't have to fish through the ice any more.

Our bowlers are still at the top of the list even if Ed Hendricks did bowl a 399 series recently.

Conductor Joe Sweeney paid his annual visit to Hot Springs.

Conductor Ed Fischer's son Bob is now three years old.

Motorman Charles Warnstedt celebrated his birthday and 28th anniversary the 28th of March.

Catherine Jean Osterberger is the new arrival at Conductor Joe Osterberger's home and Conductor Hubert Bruckhauser has a brand new son.

Conductor Martin Geller, No. 1 man on the picking list, passed away March 11. He is mourned by all.

"Artie W."

Limits

We extend our heartfelt sympathy to Motorman Frank Schulte in the loss of his wife and to the family of Conductor Helmer Anderson who was killed while putting the trolley up from the street.

It looks as though our bowling team is just about in now. According to the records, four Limits men are in the first 10 high averages and two of them are leading the league, so that looks pretty good. Limits also holds the high game and high team average. Keep throwing that ball in there, boys.

Congratulations are in order for Conductor Clarence Buthman and Motorman Joseph Padour, who are the proud fathers of baby daughters.

E. A. Davis.

Lincoln

Congratulations to Motorman James McCormick upon the birth on March 14 of a baby girl weighing 6 pounds 10 ounces.

Everyone who has met Motorman George Krinke thought he was putting on a lot of weight but upon close examination we find it's not weight being put on but it's a moustache he's raising which makes him look that way.

Sympathy is extended to the family of the late Conductor Conrad Althaler, who passed away recently.

Henry Spethman.

Seventy-seventh

One of the more ardent disciples of the neo-Confucianism, Motorman Tom Brown, says, "He who argues with a woman always winds up behind eight-ball!"

First base may seem a long way off to Conductor E. E. Knapp in a softball game, but he's busting the fences in bowling. Crowding first place in the "Big Five," he's setting a stiff pace for all competitors.

The Shabonna Gun Club, Morris, Illinois, will be the rendezvous for the sharpshooters, April 28. Motorman C. H. Dahmer is priming to unseat the champion, E. Carpenter, No. 2. We wish him luck because that's been tried to these many years and it has been found the champ isn't easily unseated.

Speaking of the unknown quantity of passenger habits, one conductor said, "You never know what they'll do next." Which, to Conductor John Keating, was a slight understatement of fact. John summoned all the power of his adequate vocabulary and proclaimed "They are, indeed, definitely unpredictable!"

Condolence is extended to the following men on death in their families: Motorman E. R. Hirsch, his wife, and Motorman Frank Bullie, his mother.

Walter F. Story.

No-Accident Honor Roll

(See story on page 3)

Accidents Cost Money!

ACCIDENTS COST MONEY!

The fact that accidents cost money is illustrated by these pictures which show just a few of the persons who deal with every accident on the Surface Lines system. In order: (1) Accident Clerk Ed Hayes takes an accident report from a trainman. (2) Attorneys Colgan, Griffin and Golden discuss a legal point. (3) Clerks Pekie and DuPere post accidents for the records. (4) Chief Investigator Nattinger discusses a lawsuit with his staff. (5) Girls index and prepare reports. (6) File clerks work at their vault assignments.

IT ALL COSTS MONEY!
