**Lost—One Goggle Glass  
Saved—A Good Left Eye**

## More Safety Photos

### AERIAL SAFETY

Safety devices such as those Lineman Adam Gablin uses here, together with the effort by employees to work in a safe manner, helped Electrical Department workers slash their lost-time accidents nearly 31% and their number of accidents more than 14% during the recently-ended fiscal year.

Protecting Adam as he and his fellow workers move feeder cable from an old to a new pole line are his safety belt, the rubber hose where his shoulder lifts the cable, and the blankets—one over the metal cross arm, and a rubber one between him and the metal pole—which keep him from possible shock.

Guarding his fellow workers on the ground from injury by falling tools is the canvas bucket in which such things are raised and lowered.

### SAFETY-MINDED TRAINMEN

Typical of the 5,301 trainmen presented certificates this month for having no chargeable accidents during the recently-ended fiscal year are these fellows who are celebrating the occasion with "coffee and."

Clockwise around table, starting at left, they are: Bus Operator Augie Johnson, of North, who has had no chargeable accidents for the last 11 years; and these men who have had none for the last 14 years, during which no-accident records have been kept in their present form: Motorman Emil Fefeber, of Linnits; Operator Ed Wangero, of Burnside, and Motorman Pat Flynn, of Archer.

These men, whose no-accident records total 53 years, with other safety-minded trainmen, cut accident fatalities last year to the lowest number in the System's history.

APRIL, 1941

No. 1

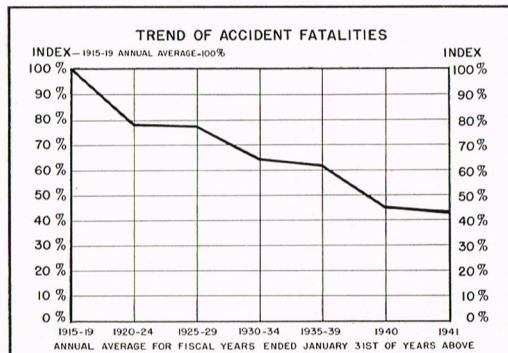

## Old Man Accident Treated Roughly by System

**O**LD MAN ACCIDENT found life pretty tough and unpleasant around the Surface Lines during the recently-ended fiscal year. Almost every department went to work on him with very gratifying results.

In the Transportation Department, trainmen cut accident fatalities, as shown in the accompanying graph, to the lowest number in the System's history.

Workers in South and West Shops did their part by reducing their lost-time accidents nearly 27% below the total for the previous year.

Track Department men, continuing their

### RECORD LOW IN FATALITIES

Trainmen cut accident fatalities to a record low in the System's history during the recently-ended fiscal year.

Accident fatalities now are 57% below the average yearly number during the first five years of unification—1914 to 1918, inclusive.

determined attack on lost-eye accidents, completed their third consecutive year without a single injury of that type.

Electrical Department workers decreased their lost-time injuries nearly 31%, and their total number of injuries 14.3%.

### Other Groups Make Good Records

Men in the Car and Bus Repair Departments slashed their lost-time accidents 40%; and Building Department and Utility Department employes cut their total number of accidents by 16.7% and nearly six per cent, respectively.

Particularly stinging blows to Old Man Accident were South Shops' 57.2% reduction in lost-time injuries during the last six months of 1940, and the Car and Bus Repair Departments' decrease of 35.7% in similar mis-

### Front and Back Covers

**T**HE COVERS of this issue, together with the stories beginning on this page and on page 16, pay tribute to the safety efforts of employes in all departments during the recently-ended fiscal year.

On the front cover, Sam Bajovich (right), of the Track Department, shows Sam Fricano a piece of glass from his left goggle lens, which was shattered when a stone chip flew up from his maul. His eye was uninjured.

On the back cover, John Romanick, of West Shops, works at a punch press, part of which is aluminum-painted to throw light back on his work and help prevent accidents. Gears of the press are housed in wire to protect passers-by from injury.

haps during the first six months of the year.

For their enviable achievements, both groups of workers won safety plaques from the Greater Chicago Safety Council. Car and Bus Repair workers already have their award. South Shops' men will be presented theirs next month.

The reduction of accident fatalities to an all-time low wasn't the only good record chalked up during the year by the Transportation Department.

### Many Get No-Accident Cards

Early this month certificates were presented 5,301 of the motormen, operators and conductors who had no chargeable accidents throughout the year. Their names, incidentally, are listed in the story beginning on page 16.

Of the trainmen who had no chargeable accidents last year, 283 have had none for the last 14 years—the period during which the no-accident records have been kept in their present form.

Three hundred and sixty-five of the group have had no accidents for the last 13 years; 420 for 12 years; 488 for 11 years; 521 for 10 years; 571 for nine years; 624 for eight years; 723 for seven years; 862 for six years; 1,114 for five years; 1,568 for four years; 2,256 for three years, and 3,301 for two years.

In reviewing the System's safety showing for the year, William Pasche, supervisor of accident prevention, said: "All departments have gone a long way toward stamping out the more serious employe accidents, but smaller mishaps still are a problem.

### Falls Cause Numerous Injuries

"Common, ordinary falls," he went on, "cause a great part of the lost-time accidents in each department. In the Electrical Department, for example, the bulk of injuries weren't due to electric shocks or burns. Falls were the villains.

"In other departments — particularly in Transportation, Shops and Equipment and Car and Bus Repair—the story is the same. "For that reason, 'Watch Your Step' is a good motto for any employe—whether lineman, trainman, car repairer, or track, shops or office worker.

"After falls," he stated, "lifting strains

### CAVALRY CAPTAIN

Cavalry Captain Leigh Hunt, a Surface Lines attorney, was called into active service by the reserve corps on March 28.

Stationed now at Fort Knox in Kentucky, he is receiving special training with a mechanized cavalry unit.

If his experience follows that of many who have preceded him in the Fort Knox training program, he will, after a few months of training, be sent out to help develop and train new mechanized cavalry units.

and injuries from falling objects are the mishaps which most frequently cause lost time. Though the greater part of these injuries aren't serious, the total amount of lost time they cause is large.

### Other Mishaps Could Be Decreased

"Most numerous in Track, Shops and Equipment and Car and Bus Repair Departments, these two types of injuries would almost vanish if:

"(1) no employe would try to lift more than a safe load;

"(2) all employes who handle heavy loads would wear steel-toed safety shoes."

Summing up the System's record, Mr. Pasche said: "It was, for the most part, very good. If all employes will watch as closely for small accidents as they have proved they watch for big ones, this year's record can't help but be even better."

# **Lost Art of Stop-Calling Ought to Be Found**

GIVING PASSENGER A HAND

"Here's where you wanted to get off," this smiling conductor tells a rider, who had requested a particular street.

Nothing can do more to eliminate from the passengers' minds the worry that they will pass their destinations than the courteous service this photo illustrates.

TELLING CAR'S ROUTE

"No, ma'am, we don't run on State Street; the car you want is right behind," the conductor tells a shopping-bound housewife.

Letting passengers know what car they are getting on and calling all stops after they are in the car cuts down on extra, time-wasting stops which make it difficult for the motorman to keep the car on schedule.

**T**HREE'S A LOST art among a large number of Surface Lines conductors and operators which ought to be found and put into effect again as soon as possible—the practice of stop-calling!

Far too few of these trainmen are remembering, says Superintendent of Transportation W. A. Hall, that street car passengers are entitled not only to transportation, but also to courteous and helpful service.

## **Puts Riders at Ease**

"There is no service they can perform," said Mr. Hall, "that will put a greater number of passengers—both occasional and veteran riders—at ease than to call all stops in a pleasant and distinct voice. Particularly important are railroad and 'L' stations, bus terminals and streets on which other car or bus lines operate."

Many daily passengers like to read as they ride. If the conductor or operator neglects

ROUSING DREAMING RIDER

"Your street's the next stop," Conductor James Corbett, of North Depot, tells a day-dreaming passenger.

Entirely aside from the courtesy angle, the service shown in this photo may prevent an accident.

If the passenger should pass his destination, he might suddenly realize it and dash for the nearest exit, calling out that he wants to get off.

A quick stop by the motorman could throw him and any riders in the aisle to the floor, causing injuries and lawsuits.

stop-calling, they may keep their attention on their newspapers or books until they are past where they wanted to get off.

### Many Unfamiliar with City

Others, a far greater number than commonly realized, are either unfamiliar with Chicago, the neighborhood or with the line on which they are travelling. They, especially, rely on stops being called.

Probably many of these two types of passengers, particularly daily riders, will manage to get off at their destinations whether or not the conductor or operator does them the courtesy of calling stops. However, instead of being able to sit back comfortably and relax, they will spend much of their ride twisting and anxiously craning their necks to look for familiar landmarks or street numbers.

Entirely aside from the fact that conductors owe passengers the courtesy of letting them know which stop the car is approaching, just as motormen owe them a safe, smooth ride, the Surface Lines, Mr. Hall explained, has two especially important reasons for desiring that courtesy.

### Stop-Calling Reduces Falls

"One reason is that it reduces falls in the car and alighting accidents," continued Mr. Hall. "When a passenger suddenly realizes that he has passed his destination, hurries for the nearest exit, then calls out that he wants to get off, the motorman may stop the car so abruptly that the passenger and others standing in the aisle are thrown to the floor.

"The second reason for stop-calling is that it helps the motorman or operator to keep his car on schedule. A motorman who constantly has trouble in staying on schedule probably has a conductor who doesn't bother about calling streets and, for this reason, is frequently forced to signal a time-wasting second stop at intersections. Any operator with the same difficulty probably is neglecting an important part of his job.

"From any angle, it is regrettable that the art of stop-calling is a lost one. The sooner that all conductors and operators find it again, the easier their daily jobs will be, and the better they will serve and please the riders whose fares pay all our wages."

## 23 Male Employes Die During March

TWENTY-THREE Surface Lines employees, all men, died during March. They were:

■ *Shops and Equipment*—Armitage: James J. Cairns, employed July, 1919; died March 17.

Lawndale: James Guy, employed April, 1886; died March 1.

North Avenue: William Egentowicz, employed November, 1918; died March 20. Henry Pauly, employed August, 1919; died March 9.

West Shops: Raymond D. Allen, employed February, 1929; died March 28.

■ *Track*—George Caldwell, employed September, 1930; died March 9. Thomas Donohue, employed May, 1936; died March 28.

■ *Transportation*—Archer: Alecks Hamrin, employed August, 1906; died March 17. Jay K. Marks, employed September, 1917; died March 29.

Blue Island: John M. Maloney, employed February, 1917; died March 16.

Burnside: Tona S. White, employed May, 1911; died March 31.

Cottage Grove: Walter M. Johnson, employed October, 1899; died March 7.

Devon: Lawrence S. Olson, employed September, 1927; died March 21.

Division: Sevrin B. Simonsen, employed August, 1907; died March 20.

Elston: George W. Ward, employed August, 1907; died March 29.

Kedzie: Willis E. Cady, employed October,

### Surface Service Magazine Has New Type Dress

THIS ISSUE of SURFACE SERVICE MAGAZINE—just in case you haven't noticed—is all toggled out in a new type dress.

The new print not only is larger and more readable than that formerly used, but also has a greater amount of white space between lines.

Although your magazine, which celebrates its 18th birthday with this issue, has been changed typographically, its policy of reporting once each month things of interest about the System and about the folks who "make it tick" will go on as before.

## Burnside Leads in Keep 'Em Rolling Contest

**B**URNSIDE, which spurted from sixth place into first place in the keep 'em rolling contest during February, held fast to its hard-won lead last month.

Its average of 9,585 miles per pull-in due to equipment failures was an increase of more than 18% over its February showing.

Second and third place during March fell to Lawndale and 69th, respectively.

| Rank | Carhouse        | Zero Days | Miles per Pull-In | Pct. Inc. or Decrease |
|------|-----------------|-----------|-------------------|-----------------------|
| 1    | Burnside        | 10        | 9,585             | 18.5                  |
| 2    | Lawndale        | 7         | 7,331             | 7.6                   |
| 3    | Sixty-Ninth     | 1         | 7,092             | 20.3                  |
| 4    | Division        | 5         | 5,403             | 5.9                   |
| 5    | Armitage        | 2         | 5,161             | .9*                   |
| 6    | Cottage Grove   | —         | 4,977             | 21.7                  |
| 7    | Devon           | —         | 4,963             | 18.6*                 |
| 8    | Archer          | —         | 4,362             | 9.0*                  |
| 9    | Seventy-Seventh | —         | 4,227             | 8.4*                  |
| 10   | Kedzie          | —         | 4,128             | 11.7*                 |
| 11   | Blue Island     | 2         | 3,780             | 7.5                   |
| 12   | North           | —         | 3,724             | 23.0*                 |
| 13   | Elston          | 4         | 3,459             | .4                    |
| 14   | Limits          | 1         | 3,294             | 6.1*                  |
| 15   | Lincoln         | 1         | 3,288             | 20.2*                 |
| 16   | Noble           | —         | 2,790             | 28.6*                 |

\*Indicates decrease.

## 216 Active Cases Listed on Employes Relief Roll

**T**HE SURFACE LINES Employes Relief Committee received 12 applications for relief during March. After investigation, nine were approved for assistance. There were 216 active cases on the relief rolls at the month's close, seven having been removed by death or other causes.

Including the \$8,389 spent during March, a total of \$1,560,529 has been paid out of the relief fund since the organization of the committee.

1915; died March 14.

Lawndale: Thomas Curry, employed December, 1919; died March 15. James B. Jenks, employed January, 1898; died March 23.

Limits: Joseph Busscher, employed March, 1923; died March 2.

Noble: John Wieczorek, employed May, 1918; died March 27.

North: William J. Beers, employed May, 1909; died March 22.

Seventy-Seventh: Patrick Malloy, employed June, 1916; died March 7.

■ Utility—James W. Woods, employed November, 1921; died March 29.

## Legion Post's Show Pleases Hines Hospital Vets

**F**OLLOWING the recent variety show, sponsored by members of Surface Lines Post No. 146 of the American Legion, before patients at Hines Hospital, John R. O'Connor, recreation aide at the hospital, sent the group's thanks to Commander Otto Malinowski of the Surface Lines.

"No one ever showed the boys a better time," wrote Mr. O'Connor. "Thanks for your wonderful show, and your generosity in supplying all the boys with cigarettes."

## Drafted Men May Receive Magazine at Camps

**S**URFACE LINES men who are, or have been, called up for a year's military training may receive monthly copies of SURFACE SERVICE MAGAZINE at their respective camps.

All correspondents for the magazine have been advised of what information should be mailed to the Public Relations Department so that any of these men may be put on the mailing list.

If there are any men in your depot, shop or office who have been called into service, please give the correspondent for your group a hand by notifying him or her.

Men called up for service in the future should notify the correspondents of their camp address.

## Don't Let Your Horse Fall or There'll Be Trouble!

"**S**O MANY cases of horses falling have occurred of late that the attention of drivers is hereby called to the necessity of keeping a taut line," wrote Superintendent C. B. Holmes of the Chicago City Railway Company in an order to employes in May, 1876.

"Every driver who allows a horse to fall," the order, written in longhand, continued, "will be suspended until the case shall be investigated."

## A Thing to Crow About

**A**MERICA HAS fought in six major wars since its birth. In those wars, totaling 15 years, 244,357 soldiers were killed.

Although that's a staggering number, nearly twice as many persons in this country were killed in traffic accidents during the 15 years from 1926 through 1940. And that's not the worst part of the story!

In 1926, traffic deaths numbered 23,450. In 1940, after climbing higher almost every year, they totaled an estimated 34,400.

With such a national increase, we of the

"I'll have to ask the Legal Department if it's okay."

Surface Lines may justifiably pat ourselves on the back, for accident fatalities on the System during the same period have decreased.

And, what's more, they have decreased nearly as sharply as national accident fatalities have increased!

To make the picture still brighter, the System's 10,000 conductors, motormen and operators, as shown on the front-page graph, established a record low in accident fatalities for the recently-ended fiscal year.

That low was 68% under the fatality high mark for the year ended January 31, 1918.

If that isn't something to CROW about, we don't know what is!

The Transportation Department's showing wasn't the only bright spot in the System's safety record for the year. Workers in Track, Shops and Equipment, Electrical, Building, Utility and Car and Bus Repair Departments also rolled up their sleeves and went to work on accidents! Turn to the front-page story for an account of that.

## Sauce for the Gander

**I**NCE THERE WAS a finicky fellow who was a stickler for safety—for everyone but himself.

This hazard hater was terrifically tough when he spotted a safety snag anywhere but in his own precinct.

He would roar with rage if he caught a Reckless Rookie without safety shoes.

He would foam with fury if some Careless Charley slipped up on a rigid rule.

To him, a guy without goggles was as over-exposed as Admiral Byrd searching for the South Pole in a silk sarong.

But he wouldn't take his own medicine!

He figured that accidents would recognize him as their master and let him alone. So the only safety equipment he wore was a smug look.

One day he leaned over a grinding wheel to make sure everything was okay.

A metal chip flew up and bopped him in the left eye harder than Joe Louis's right.

After that, he practiced what he screeched.

*Moral:* It's a poor cook who won't eat his own hash!

*Courtesy National Safety Council, Inc.*

# **Pats on the Back Tumble; Complaints Increase**

**A**LTHOUGH commendations were down last month and complaints up when compared with the figures for March, 1940, 51 letters of praise—prompted by thoughtful trainmen's courtesy, smooth operation of cars and buses, clear stop-calling and friendliness—were received.

The "unfailing courtesy, helpfulness and good nature" of Conductor Gus Bergeson, of 77th, prompted Warren D. Olson, 520 North Michigan Avenue, to write: "I'll bet you even money you couldn't purchase his goodwill value on a sign board. The last of my winter hats is off to you and him."

## **Lauds Conductor's Memory**

Surprised when Conductor Jim Gillespie, of Devon, who had found a pair of mittens she lost, remembered her and told her where she could reclaim them, Jean Ackermann, Libertyville, wrote praising his "courtesy and memory."

Terming the service of conductors more pleasing today than when he lived in Chicago a few years ago, John E. Slaven, Galesburg, wrote praising the attentiveness to his job of Conductor Mike Tierney, of 77th, and the courtesy of all other conductors he encountered during his recent visit.

The "cordial, helpful manner" of Conductor John Hammerton, of Kedzie, brought a letter of praise from C. A. Snyder, 400 West Madison Street, who wrote: "He is outstanding."

## **Commends Operator's Kindness**

After seeing Bus Operator Tony Kopeck, of Elston, thoughtfully escort his young daughter across the busy street when she alighted from his bus, James Moschel, 5457 Ludlam Avenue, wrote commending him.

So pleased with the "exceptional kindness and helpfulness" of Conductor Bill Wilson, of Blue Island, in lifting her onto a car, was 75-year-old Mrs. Elizabeth Baier, 5520 Broadway, that she wrote twice lauding him.

Praising Operator Jim Burchanek, of 69th, for his many acts of courtesy toward pas-

"I can't understand my wife. Look at the book she gave me for my birthday!"

sengers, Mrs. Irene Jackson, 5431 South Sawyer Avenue, wrote: "We riders would like to see more of this salesmanship of transportation displayed."

After seeing him alight from his car to guide a blind man across the street, S. L. Friedman, 227 West Lake Street, commended Motorman John Wood, of Division. "I'm not a street car rider," he wrote, "but an incident such as this bolsters my respect for your men and your service."

## **Praises Kindness to Ill Rider**

The kindness of Conductor Shirley Boyington, of Devon, in caring for a man who became ill on his car, prompted Mary Van-Lopik, a passenger at the time, to write: "It's a pleasure to know you have such dependable conductors."

Conductor Tom Redmond, of Kedzie, won a letter of praise from Mrs. H. Ruge, 804 North Maplewood Avenue, who wrote: "He found me a seat and called every street plainly. In riding street cars for 50 years, I have never experienced such kindness and consideration."

## DEPARTMENTS AND DIVISIONS

### Accounting

MARY TRESCH and Mildred Montgomery, who left our ranks recently, were presented a waffle iron, and a housecoat and boudoir slippers, respectively, by their co-workers as farewell gifts.

We regret having Evelyn Schlauf, of the Comptometer Division, break into print because of an injury to her ankle, which necessitated the taking of X-ray photos. We're glad, however, to see her back at work.

The broadcast of Novena services on March 15 from Our Lady of Sorrows Church featured Mary Roberta McCabe, niece of our Marie McCabe, as guest soloist.

Ed Bole, of the Token Department, was married

to Germayne Hahn on March 15. His co-workers presented him an appropriate gift.

Ada Helen Pratt, of the Payroll Division, was honored by her associates at a recent farewell luncheon. She left the Surface Lines March 31.

Since the last issue of the magazine, Patricia Dore, Charlotte Noyle, Marion Danner and Bernice Biernot celebrated birthdays. Congratulations, girls!

Our sympathy goes out to Robert Joost, of the Voucher and Bill Division, whose mother died March 8.—Thomas F. Coan.

### Electrical

LAWRENCE STROCCHIA, of our Testing Division, recently left the Surface Lines to take a job with the government as an electrical engineer. He will be located in Washington, D. C. We wish you the best of luck in your new job, Larry!

The snappy and polite voice you now hear when calling Grand and Leavitt or Seeley 3631 belongs to none other than Herbert Peterson, formerly a Main-

### LEGIONNAIRES AT "BLOOD BANK"

Three men of Surface Lines Post No. 146 of the American Legion were among the first volunteers to offer their blood for the initial blood serum bank recently created in Cook County by members of the Second District of the Legion.

Legion members, who plan to establish a similar blood bank in each of Cook County's 85 hospitals, believe their donations will prevent many needless deaths, for a prompt transfusion of the proper type of blood frequently is all-important to an injured person.

Surface Lines men in the photo are: Commander Otto Malinowski, Archer Depot, standing against door in left background; Past Commander Bob Quill, Blue Island Depot, wearing white shirt and standing between Otto and the table, and Comrade Joe VanDerhaeghen, West Shops, lying on table.

tenance Division employe. We hope you like your new job, Herby!

Our new messenger boy at Grand and Leavitt is William Rappola. Welcome, Bill! We hope you like working with us.

Operator Edward Kennelly, of 42nd Street substation, is the proud papa of a second son. It is reported that the new arrival was showered with gifts of baseballs, bats, uniforms and overalls during his stay in the hospital, so it looks like he will be well equipped for some time. Congratulations, Ed!

Three Electrical employees are now serving a year's military training. They are Fred Lundie, Walt Adomitis and Dello Hieatt. The best of success to you, boys! Drop us a line when you get time.—Billy.

## Engineering

**T**HE CALL to the colors was answered recently by Art Fortmann, Utility Department, and these Track Department men: Ed Micetic, Art Bragiel, Jake Barbara, Frank Diana and Lou Spasejovich. Here's wishing you the best of luck, boys!

John Holmberg, the first to go from the Track Department, won his wings by his recent graduation from Randolph Field. He now is a full-fledged army pilot.

Warm weather can't come too soon for the "skippers" in the Track, Building and Utility Departments, who are anxious to get their "yachts" shipshape. Oh, for a nice balmy day, calm sea, clear sky and smooth sailing!

Countryside and highways will pass in parade this spring and summer as Bob Prosser, trolley tender in the Utility Department, pilots his new Plymouth about.

On our sick list are Michael Donohue, who is in a hospital; C. G. Powers, of the Track Department, who is confined to his home; and Chauffeur Ed Smith, Utility Department, who is at home convalescing from a recent operation. We're hoping for your speedy recoveries, boys!

Our sincere sympathy is extended to the family of James W. Woods, Utility Department, who died suddenly March 29.

## Material and Supplies

**S**EVERAL of our boys recently have been called into military service. Fred Dabbert is a first sergeant in the 124th Field Artillery in Tennessee; Max Streeter, a private in a medical division at Rockford, and Austin Craycraft a private in Texas.

Max Streeter, by the way, writes that his present diet of beans and cabbage isn't greatly appreciated.

Congratulations are in order for William Henry, who recently became a bridegroom. Lots of luck to you and the new bride, Bill!

Stanley Thompson again is throwing out his chest. He's the proud papa of a baby girl born recently, Judith Mae—that's her name—weighed five pounds, nine ounces, at birth; and, according to Stan, has almost doubled in weight since then.

Bob Motis recently was transferred from Halsted

Yards to 78th and Vincennes, and Jake Sumner from the Requisition Division to Halsted Yards. We wish you success in your new jobs, boys!

Ray Gavert is sporting a new Chevrolet. It's not bad, Ray!

Walter Passot recently moved into the new home he had built in Midlothian. How about that housewarming, Wally?

Arnold Hillstrom, the Roseland Romeo, will celebrate his birthday this month. Don't forget the candy and cigars, Butch!

We welcome Janice Hoberg to our ranks at West Shops. Hope you enjoy working with us, Janice! —R. E. Buckley.

## Schedule and Traffic

**H**ARRY JENNISON still is on the sick list. We're pulling for your speedy recovery, Harry!

The sympathy of all goes out to William Burkhard, whose mother died recently.—L. C. Dutton.

## Shops and Equipment

**S**OUTH SHOPS: Our No. 1 draftee is James Cervenka, of the Paint Department. Jim joined the military forces last month, and was sent to San Diego, California—a nice part of the country to be sent to this time of the year.

When he wrote recently, he extolled the virtues of army life and said he liked it very much. Good luck to you, Jim!

To Charles Nelson and Robert Dietz, Motor Repair Department, who now are on our sick list, we offer our best wishes for speedy recoveries.

It is with deep regret that we report the death of Mrs. A. Aardema, mother of Mrs. Minnie Stoffle, of the office staff, and Repairman John Aardema, of Cottage Grove. She died March 19, following a very brief illness. Our heartfelt sympathy is offered her children.

Edmund Bauer, Motor Repair Department, is now at work after his recent illness. Welcome back, Ed!

**77th Street:** Foreman Joseph H. Gamen now is on the sick list. We hope, Joe, that you recover in a hurry, and are back with us soon!

Mr. and Mrs. Jay Dalton became proud parents of a fine baby boy, weighing nine pounds, on March 30. Congratulations to the Daltons, and best wishes to Sonny!

We understand that apologies and all that goes with them are in order for our eligible young clerk, Ralph Short. According to Ralph, we made quite an error here last month concerning Ralph, spring and Mable. It should have been, Ralph, spring and FLORENCE! How's that, Ralph? Are things all fixed up now?

Frank Petriekis has been passing out cigars recently. Why? Well, he's elated over the birth of a bouncing baby son, weighing nine pounds. Congratulations, Frank; and best wishes to the new arrival!

**Archer:** We extend a hearty welcome to our new

## AROUND THE CAR STATIONS

### Armitage

SPRING certainly is here. Witness the cleaning recently done at the depot, where we have "enjoyed" a visit by the painters. They turned out a slick looking trainroom and office.

All this clean-up work may be taken as a subtle hint of what is expected of all the boys when time for the spring inspection of uniforms rolls around.

Everyone has his own hobby, says we; but that of Stan Wiese takes the cake. As a matter of fact, Stan's hobby is cake. He's an expert at both frosting and baking them. The proof, however, is in the eating. We won't pass judgment on his work until then.

Pat Rowan is seriously ill following a recent operation. We wish this grand old fellow a speedy recovery.

We recently received a card from Motorman Nick

clerk, Robert Shea. We hope you'll enjoy working with us.

Military Notes: Recent letters from our service men reported that Julius Dain is enjoying army life immensely and hopes to be promoted to a sergeant next month; and that Johnny McCrea has quite a preference for Brighton Park night life compared with Louisiana, sunshine, mud and beans.

Why the strange smile on Bill Ryan's face. He appears to have lost something. Cheer up, Bill; Charlie will come back soon.—Elsie S. Frank.

### Transportation

THE CHAMPION bowlers of this department—Johnny Krause, Frank Mathews, Louie Bohlin, Charley Batterson and Ken Williams—have come to life recently and have been doing very well.

They made one for the books the other night. They were bowling along at an even pace when Frank suddenly halted the game to add his score. All he needed to win, he found, was a spare. To cut the story short, he missed! Johnny Krause came out on top with a series total of 505.

Instructor Lawrence Olson, who was taken ill February 18, died March 21. An employee since September, 1927, when he began work as a conductor, he was appointed an instructor in December, 1938.

Funeral services, attended by many employees, were held February 24. Burial was at Oak Woods Cemetery.

Surviving him are his two children, Delyte and Floyd, and his wife, Beulah, who asked that her gratitude be expressed to the blood donors, pall-bearers, and the many others who showed their interest during Larry's illness.—Andy.

Simmons, who was then motoring through Texas. Nick reports his health is greatly improved, and says he is enjoying the trip very much.

Dave Walsh is laid up at St. Mary's Hospital. A visit would cheer him up, boys!

Gus Pflum opines that had there been a weight limit for employees, Eddie Happs would still be delivering groceries. That may be so; but Eddie now is a member of Joe Kurzer's gymnastic class, and we expect a great transformation in him in the near future. Eddie, so we hear, is expecting the same thing.—Chief.

### NEW CHAMPION FINDER

New champion finder of unusual articles—at least, until another Surface Lines depot puts up a better man to wear the crown—is His Highness Operator John Hockenberry, of Cottage Grove.

Standing before the mirror here, a symphony of elegance, John wears a tail coat and flicks dust off a derby, both like those which were among the complete set of undertaker's clothing that he found on the street during a recent night run, then returned to the owner.

John's co-workers at the depot unanimously classed as small-time upstarts the two 77th trainmen who until recently jointly occupied the champion finder's throne after discovering on the street two cartons containing 350 shirts and 250 pairs of pants.

Discussing the new champ's merits, one Cottage Grove trainman said: "Maybe a guy from some other depot will grab off Johnny's title some day; but, whoever he is, I'll give you 100-to-one odds that he can't be better dressed!"

## Blue Island

**S**TATIONMASTER E. L. Maguire returned from his three-month furlough in sunny Florida, feeling like a new man. We're all glad to see him back.

These trainmen recently had new arrivals at their homes: Motorman Mike Grimes, a nine-and-one-half-pound boy, born February 26; Motorman Tony Jaslawski, an eight-pound girl, born February 12; and Conductor Charley Ruane, a seven-pound girl, born March 15. Congratulations, boys; and good luck to the newcomers!

Conductor Charles Gurschke is on the sick list, and would enjoy a visit from any of the boys.

We mourn the loss of Operator John Maloney. While cranking his automobile when it stalled on a

DRUMMER BOY

Maybe it's no accident that George Kouba, 17-year-old son of Conductor John Kouba, of Blue Island, is a drummer and leader of an orchestra of young musicians.

With a name as similar as his to that of Gene Krupa he probably couldn't help himself!

highway on March 16, he suffered a heart attack and died. We extend our deepest sympathy to his family.

Our sympathy goes out, too, to the following trainmen and their families in their recent bereavements: Operator Charles Fish, whose brother died; Conductor Rudolph Olsen, in the loss of his brother; Conductor Walter Mraz, whose father-in-law died; Conductor John Suda, in the loss of his mother-in-law; Motorman Louis Doomis, whose mother-in-law also died; and Motorman Vernon Touranjeau, in the loss of his grandmother.—C. P. Starr.

## Cottage Grove

**F**UNNIEST SIGHT so far this year: Conductor J. E. Peterson and Motorman Willie Thom sloshing water under the wheels of their car at Lincoln and Peterson. They claimed they were grounded. It took another conductor to present a solution to their problem. The answer was the canopy. It was off!

Conductor Pete Josephitis recently tried out his new Chevrolet on a trip to St. Louis. He reports that everything went swell.

Take a look at Operator Johnny Hockenberry's picture on the opposite page. Looks natural in his top hat and tails, doesn't he? Rumor has it that he is thinking of adopting this attire while working his run on 43rd Street.

Condolences are extended to Clerk Charles Pfeiffer, in the recent loss of his father-in-law.

All you fellows who were singing the blues about not being able to get off should take a look around now. There are plenty of extra men.

It's great sport to watch the billiard "experts" in the club room. If body English had anything to do with the action of the spheres, all the lads would be sharpshooters!

Don't forget to sign in those cars. The barn men are trying their best to keep all cars in trim; but they can't fix them if you don't sign them in. Give the lads a hand!

W. T. Stenzel, conductor for these many years, resigned the other day to establish himself in the ice cream business in Phoenix, Arizona. Bill was affectionately known as "Jitterbug."—Ostet.

## Devon

**F**OR SEVERAL days before he left for Florida, Conductor Bill Sanders was seen tossing a softball about. We understand he was getting in a little light practice for the grapefruit toss from some unprotected grove, to partner, to car!

Thanks to Motorman Tony Falco, of North Avenue, we saw some of his excellent photos taken in Florida. One picture, in which a grass skirt stole the show, was particularly good. Send us some more, Tony!

Devon Depot doesn't use almanacs or weather calendars to determine the official arrival of spring. To us, spring is here only when Conductor Don Narcissus comes to work with a pansy in his button-hole.

Receiver Frank Pasche was passing out penny wrappers all over the place recently. When questioned about his generosity, he shouted: "It's a boy!" Here's hoping you're visited by a baby girl before too long, Frank!

Our mythical motorman, Garrett Blitz, recently celebrated his silver wedding anniversary. A few days before the big event, his eldest daughter presented him a baby granddaughter. We suppose your other children had to be content with more ordinary gifts, Garrett!

The Ding Dong Daddy of Kimball Avenue, Stan Bzdon, really became a daddy on March 17. Stan's

new daughter, we understand, leans toward the cherubic side like her daddy.

Our sincere sympathy goes out to Receiver Wes Wright, whose sister recently died, and to the family of Supervisor Larry Olson, who passed away last month.—Ed May.

## Division

**C**ONDUCTOR LARRY GRAVER makes news in a sad way. The bumper and fog light were stolen off his auto.

Conductor Matt Brost rose to fame during the recent Harvester strike by temporarily trading in his trainman's badge for a supervisor's badge. Matt helped out at 26th Street and Western Avenue, right in the thick of things.

We're glad to welcome "Kiddo" Wozschke back to work. Because of a serious accident, he has been absent about three months.

Conductor Warren Nelson will celebrate his fourth

Puffing up to blow the two remaining lighted candles clear off his third birthday cake after getting only one on his first try is Morgan Grude, son of Motorman Morgan Grude, of Division, who snapped the photo.

year of wedded bliss on April 17. Many happy returns of the day, Warren!

Motorman Jacob Pankow's pride and joy, Roman, has a birthday this month. Morgan G. Grude, son of Motorman Morgan F. Grude, was three years old March 2.

Slated for May birthdays are Motorman Roy Thompson's daughter, Betty Jane; and Conductor Carl Huss's daughter, Gayle, who will be three years old.

Conductor S. Simonsen died March 20 after an extended illness. The next day Conductor William Beers, inactive since 1929, also died. Our deepest sympathy goes out to the two men's families.—R.T.W.

## Elston

**W**HEN JACK ECKMANN recently pushed down the lever on our candy-vending machine and a handful of nickels dropped into the tray, Night Watchman Tom Varella pricked up his ears.

Mistaking the purpose of the machine, Tom dashed to his locker for a supply of change so that he,

too, might cash in on the jackpot. Not until he had four or five varieties of candy and the delighted laughs of all those in the trainroom did he discover his error.

If anyone knows where electric fuses may be purchased at a good price, either by the dozen or gross, tip off Mike Zudarski. He recently has been experimenting with the construction and maintenance of electric percolators. Maybe it would be cheaper, Mike, if you called in a professional repair man!

Another master technician of whom Elston may boast is our quiet and retiring brother from Niles, Conductor John Podraza. His claim to fame is the discovery of a new concrete formula in which red loam (from neighbors' gardens) may be substituted for sand. As with many new discoveries, his has one small fault—it won't harden!

Now that spring is here, Harry McCarthy is busy putting a new set of pontoons on his auto. When the job is finished, he hopes to be able to float the car out of his garage.

Start saving your rice and old shoes, boys! Brother Julius Golnik will march down the center aisle May 24. The dream at his left will be Florence Wozniak. Congratulations, John; and best wishes!

It was good to see Bob Versema looking so well after his long illness. We hope you feel as well as you look, Bob!—Ed Evenson.

## Kedzie

**D**ON'T YOU THINK Regional Supervisor Art Unsen is looking younger these days? Art believes he must be; for, when he was helping to load service men recently, he almost found himself inducted into the army.

Art had just finished loading the men into several cars and was walking away when the commanding officer called him back and asked where he thought he was going. Art had to do a whale of a lot of talking before the officer believed his story and allowed him to go.

The reason that many of our trainmen couldn't buy duck eggs for Easter was because Motorman Dick Gilpin had bought them all up. Five or six for breakfast is a modest number for Dick. Many of the boys are wishing he would have stayed in California until after Easter so they could have had a chance at the duck-egg market.

Motormen Tom Bradley and Ed Hayes dropped us a card from California stating that they were having a swell time and wished we were there.

Conductor Roy Murphy celebrated St. Patrick's Day by getting married. Congratulations, Roy, and best wishes!

Our heartfelt sympathy goes out to the family of Conductor Willis Cady, who died on March 14. —Clinton Sonders.

## Limits

**N**IIGHT CLERK Bill Colgan, a great authority on the art of catching fish, has been working on a new type of lure. He finally has it to the point where he is ready to apply for a patent.

Bill's device is very simple, and is made from

pieces of an old broom handle and some fish hooks. We'd better stop here, however; if we tell everything, his patent will be no good. Ask Bill for further particulars.

Our heartfelt sympathy is extended to Conductor Christ Fick, who lost his mother; Conductor A. Jouron, who lost his brother; and to the family of Transfer Instructor Lawrence Olson, who died suddenly.—E. A. Davis.

WEDDING WITH TRIMMINGS

Supervisor Bob Reid, of Kedzie, and his bride got an unexpected thrill following their recent wedding at Resurrection Church.

Met at the church door by handsome, nattily dressed bodyguards—Conductor Frank Hester (left) and Motorman Maury Roche—they were ceremoniously escorted to the curb.

### Seventy-Seventh

IT isn't often that a name so completely covers a situation as it did in one case last month. A baby boy was born in a certain motorman's family, and were the parents happy! We'll say they were! But what's all this about names? Well, the name of the happy pa is Joy—Motorman Eddie Joy. And when we say he and Mrs. Joy are happy, that really covers the situation!

Seventy-Seventh has other interesting and expressive names. For the seasons of the year, for instance, there are *Winters* and (by a slight distortion of the warm weather) *Sommers*—Motorman J. F. and Conductor Steve, respectively.

After a long hard winter, the way we feel about the approach of more pleasant weather is suggested in the name *Smiley*, or is our imagination wandering? The initials are J.—of the name, not the imagination!

There also are a couple of names of fruits easily identified in 77th's roster—no bananas, but others just as popular. Conductor *J. S. Apples* is one, and Motorman *L. C. Lemmon* is the other. We couldn't find any vegetables, but maybe it's just as well.

Besides the usual word "Pop," which most of us have exploded at us pretty regularly, there are a few names on our list that suggest a much more palatable beverage. There is *Ambrosia*, for example, and the South Side pronunciation of a Milwaukee favorite—*Schletz*. They are Conductors John and George, respectively.

Other names equally interesting could be found or imagined, but the procedure stops here, not, however,

without being mindful that this is, after all, only a *Story!*

Up until last month the fortunes of plucky little Harry McCarthy ("Red" to you), son of Motorman R. J. McCarthy, had been strictly out of line with the expression one hears about the luck of the Irish. Last month, however, Harry came through to the tune of \$25, which he won as a prize for some hard sales work. R. J. was pretty happy about that, and hopes Harry has that kind of luck for a long time.

A baby girl was the latest arrival in the family of Motorman F. H. Johnson. We all wish Mrs. Johnson a speedy recovery.

Sympathy is extended to the following trainmen because of recent deaths in their families: Conductor J. G. Keating, his sister; Motorman J. M. Carlson, his mother; Conductor P. G. Olson, his brother; and Conductors F. J. and T. E. Honan, their mother.—Walter F. Story.

### Sixty-Ninth

CLERK ART BOALS and Mrs. Boals are spending a two-month vacation in the Hawaiian Islands. We hope they took their camera along, for we're looking forward to some fine illustrated lectures upon their return.

Conductor Christy Donaldson always makes it a point to attend a local theater on nights when *Screeno* is played. A few weeks ago he surprised himself and won three dollars. Too bashful to go up on the stage and claim it, he had Mrs. Donaldson present his card and get the money, expecting she would turn it over to him. However Mrs. "D." had ideas of her own about what should be done with easy money. One lonesome dollar was all that Christy was able to salvage!

Conductor J. G. Herman was assigned one evening last month to a certain run on Racine Avenue, and the fact that it was a one-man car completely escaped his attention. After getting a two-man car all fixed up to go, he sat down to await the appearance of his motorman. About five minutes before pull-out time, he went back upstairs to inform the clerk he was afraid his motorman wasn't going to report on time. He was promptly led over to the full-length mirror in the trainmen's room and introduced to his driver.

Our sympathy is extended to Conductor Thomas Madden, who recently lost his father, and to Motorman Gregory Coakley, whose mother passed away last month.

Supervisor Gus Johnson talked himself into purchasing a new Chevrolet early in March. Not to be outdone, Supervisor Claude Gillespie blossomed out with a new Buick about three days later.

Almost everyone has noticed that big smile on the face of Motorman James Evans lately. The reason? The stork visited his house just before St. Patrick's Day and left a baby girl.

It was gratifying to note, in the last issue of the magazine, that our complaints were slightly on the downgrade. Let's all do everything we can to accelerate that trend. A little patience and tact in our dealings with the public will do it. Tact, in our case, may be defined as the ability to serve the public without offending. Let's practice it on the next argumentative passenger we encounter!—H. E. Harris.

# No-Accident Cards Awarded 5,301 Trainmen

HERE'S A LIST of the 5,301 motormen, conductors and operators who this month were presented cards acknowledging their noteworthy safety records in having no chargeable accidents during the recently-ended fiscal year.

Names of those trainmen are listed under the proper car house and year grouping in order of badge numbers. The trainman with the lowest badge number in each grouping is listed first; the one with the highest badge number last:
