Surface  
SERVICE

MAGAZINE

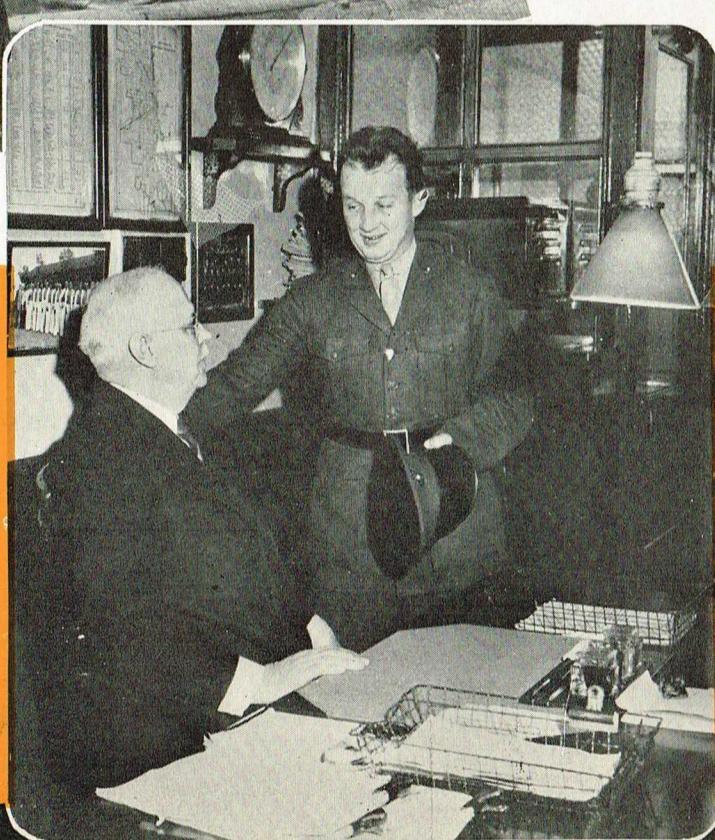

APRIL, 1943

# We Proudly Salute . . .

When Sergeant Tony Giovenco, Track Department, reached Chicago from Bermuda last month, he visited his former crew to see if the compressor he used to run was still in good working order.

While Tony brushes off a few flecks of dust here, his father, Tom, also a Track man, listens to his lecture on the care and handling of a compressor.

Corporal Herb Proneksy, former 77th Street motorman and only marine among that station's many servicemen, stops in for a chat with Stationmaster W.A. Bessette.

Herb, who had a furlough in Chicago last month, is attending an aircraft instrument school at an East Coast naval yard.

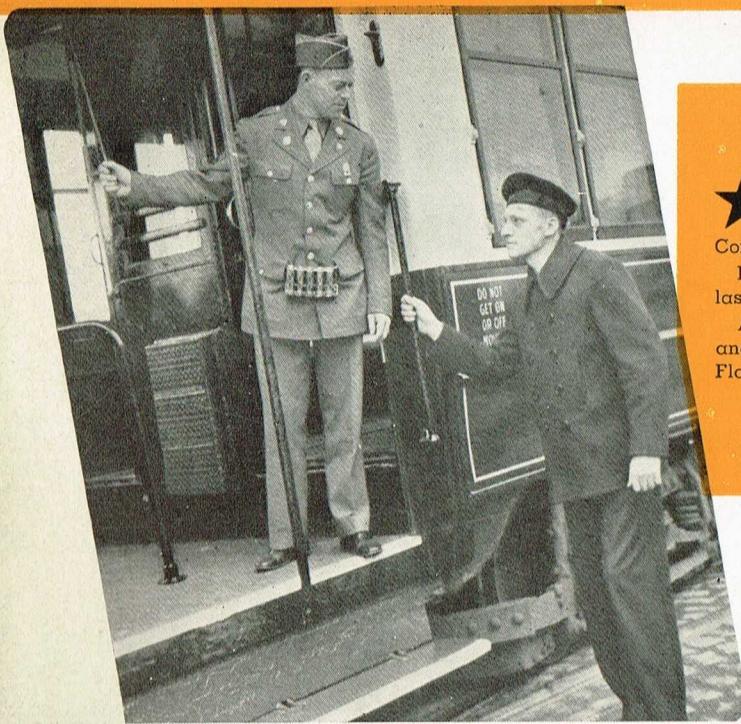

Occupying a stellar place in our honor roll of 875 employes in the fighting forces is WAAC Eleanore McCann, former switchboard operator at West Shops and only Surface Lines girl in military service.

Leaving West Shops February 10, she took her basic training at the Third WAAC Training Center at Fort Oglethorpe, Georgia, where she was graduated last month as an auxiliary first class.

With her switchboard experience, she hopes to be assigned to army communications work. She now is receiving further schooling at a Richmond, Kentucky, college.

WAAC Photo

# The 875 Employees Who...

★ "Watch those sea legs, sailor! If I have to make out an accident report, you won't get any free ride," Former Conductor Art Heirman tells Former Motorman Joe McVey.

Both former Lawndale trainmen paid a visit to their station last month.

Art is a corporal in an army signal outfit in Washington State, and Joe is with a submarine-chasing unit of the coast guard in Florida.

★ When Seaman Second Class Frank May and Corporal Joe Kehoe, former electrical apprentices, Motor Repair Department, South Shops, visited their former co-workers recently, they stopped long enough for this photo.

Frank is serving with the coast guard in Georgia, and Joe with the army in New Jersey.

Others in the photo are, left to right: Stan Janasek, Foreman Ed Rooks, John Kehoe (Joe's brother) and Harry Murray.

Since this picture was taken late in February, Stan has entered the army and Johnny the navy.

Bus Cleaner Lee Johnson snapped this photo.

★ When Staff Sergeant Norman Gunderson, former Lincoln conductor, blew into Chicago from Texas last month, he was married a few hours later to the red-headed young lady with whom he window-shopped here.

Because he had put in two hitched with the regular army before war was declared, Norm won his stripes in a hurry when called by the draft nine months ago.

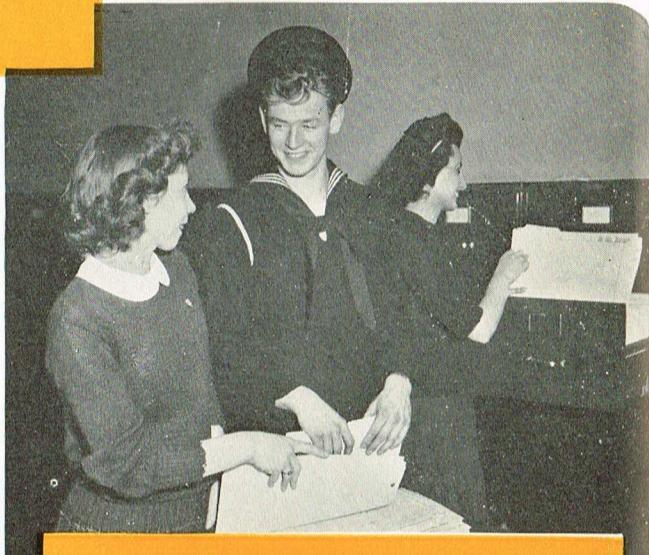

# *Have Left Us Until ...*

★ Taking an inventory of his civilian clothes and wondering if he should hold a rummage sale is Corporal George Thompson, former Armitage trainman.

George visited his former co-workers last month during a furlough from his glider infantry outfit in North Carolina.

★ Former Vault Clerk Calum MacRitchie, Department of Accident Investigation, shows Bobby Maziarz (left) and Marian Viggiano how his former job really should be handled.

A seaman second class in the coast guard, Cal visited his friends at "600" during his recent furlough.

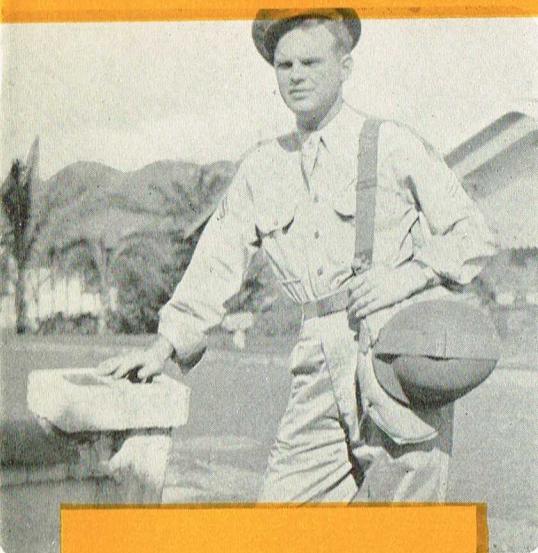

★ When Staff Sergeant Hank Schroeder (left) and Corporal Tom Nash visited 69th Street Station during their furloughs last month, they used wooden "rifles" to give a brief course in the manual of arms to four of their former co-workers.

Hank has been serving as a weather observer in Georgia while

Tom is in an anti-aircraft unit on the West Coast.

The four military trainmen are, left to right: Motorman Harry Nicholson and John Spoo, Conductor Bernie Sern and Motorman Wyman Tullock.

# Complete Victory Is Ours!

When Ralph Short, former clerk, 77th Street Repair, and one of the many Car House and Bus Repair men now serving with the armed forces posed for this photo, he was a corporal and was stationed in Hawaii.

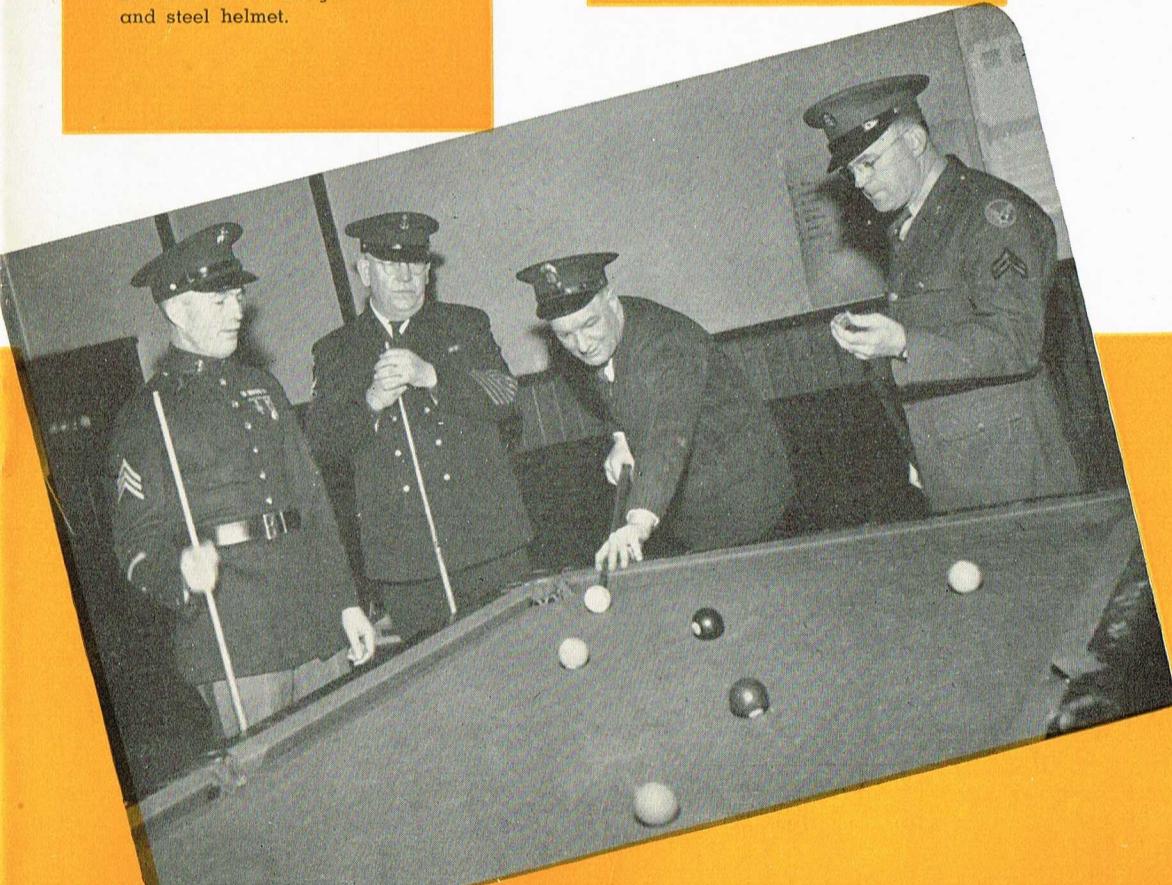

Now, however, he's a sergeant and is stationed in Australia. Slung over his shoulder here is his gas mask and steel helmet.

★ "You may be a sergeant down in Tennessee, but don't forget I'm the top kick around home!"

So Wanda Bach tells husband Sergeant Ed Bach, former Division motorman, who visited home during his recent furlough.

Ed has been serving with the ground crew of the army air forces at a Tennessee air base, where he has worked on various modern bombers.

Motorman Morgan Grude, Division, snapped this photo.

★ Playing a game of pool at Kedzie Depot's recreation room are the three servicemen who appear on the front cover.

Left to right, are: Sergeant John Dzedolick, former North Avenue bus operator; Chief Boatswain's Mate Karl Karlsen, former North Avenue motorman; Supervisor "Big George" Dorgan, Kedzie; and Corporal Ed McNulty, former 69th Street conductor.

Sergeant Dzedolick is serving with the Marine Recruiting Staff in Chicago; Chief Karlsen, who was called back from naval retirement and has more than 35 years of naval service, is an instructor at the Naval Armory in Chicago; and Corporal McNulty is serving with an army signal outfit in Florida.

# Come Back Soon, Folks!

When Seaman First Class Johnny Novak, former Archer operator, visited his old hangout last month, he gave Private Art Heeney, former Archer conductor, a course in the naval art of knot-tying.

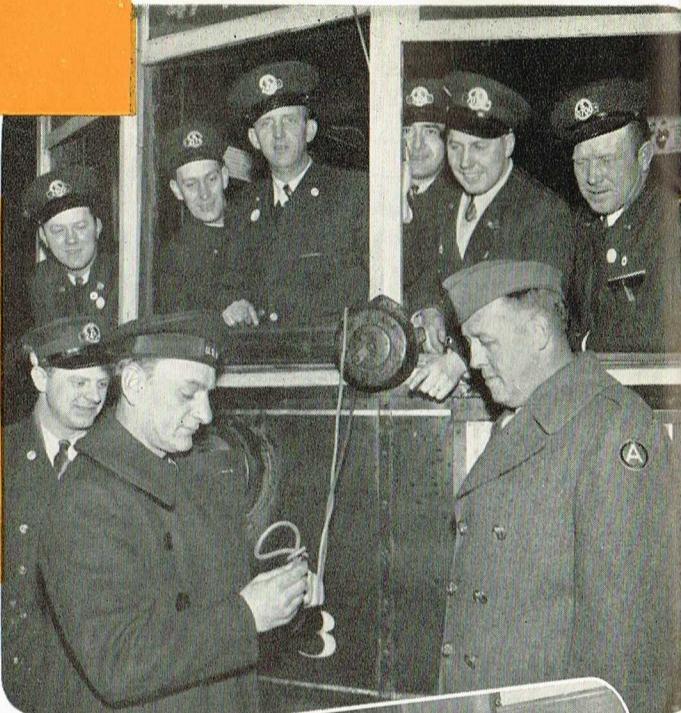

Looking on is a group of former co-workers of the two fighting trainmen.

John is serving with a naval construction unit in Mississippi, and Art with an anti-aircraft outfit in Colorado.

Admiring the new gold bars of Lieutenant Jack Minogue, former progress clerk, Track Department, are, left to right: Paul Minogue (Jack's father), Accounting Department; and Mike Donohue and Andy Flood, Track Department.

Jack was commissioned a second lieutenant late last month when he graduated from an officers' candidate school in the South.

When Private Larry Gurioli, former clerk, Purchasing Department, visited the General Office last month, two of the hostesses at the Chicago Servicemen's Center saw to it that he felt at home.

Offering the tobacco humidor is Carol Schultze, Purchasing Department. Standing by with matches is Eileen Coan, Insurance Department.

Though in the army for some time, Larry still is stationed in Chicago.

No servicemen's issue would be complete without some reference to our many veterans of World War No. 1 who now are filling important roles on the civilian front.

Looking over Limits Station's service flag for the first war and seeking out stars labeled with their names are three Limits trainmen.

Left to right, they are: Conductor Tony Christie and Motormen Charley Kramer and Charley McLaughlin.

# **Let's Do Better Job of Backing Up Our Boys!**

**T**HREE is one thing every Surface Lines employee can do to back up the 875 former co-workers now serving in Uncle Sam's armed forces—join the Ten Per Cent Club of war bond buyers.

By investing at least 10% of each paycheck in war savings bonds, those participating help our country and help themselves.

## **Buying Bonds Helps Government**

First, they give our Government and our armed forces the necessary support to win this war. Second, they are carrying through a systematic savings plan under which they are guaranteed utmost security and a good rate of interest.

Although the Surface Lines was a

armed forces and to provide for their families' financial security, these 15,000 need boost their monthly bond deductions by a considerable amount.

## **Here's How to Join 10% Club**

Here's how to join the patriotic Ten Per Cent Club:

1. Figure how much 10% of your pay totals.

2. Ask for a new payroll authorization form.

3. Fill it out so that your new bond savings amount to 10% or more.

4. Return the new form along with your present authorization.

To learn how the number of those investing 10% or more of their wages in war bonds in your group stands in relation to that of the other 24 chief groups of Surface Lines employees, see the comparative rating on the back cover.

## **Moving May 1?**

EMPLOYEES WHO plan to move May 1 may dodge difficulties in the delivery of their war bonds by notifying both the Post Office and our Accounting Department of their new addresses as soon as possible.

leader in the early days of war bond buying, we now are lagging behind most other groups. Before Pearl Harbor, we had an outstanding record for the percentage of employes buying bonds. But in the current campaign to have all Americans invest 10% or more of their pay in bonds, we have fallen behind.

While 1,087 Surface Lines employes already have earned individual memberships in the Ten Per Cent Club, the average bond buying of the nearly 15,000 others is decidedly below the 10% goal.

To fulfill their obligation to our

# **"He's Certainly a Good Public Servant"**

**B**ECAUSE CONDUCTOR Harvey Rollo, Kedzie, keeps his riders constantly informed as to "where they are at" by calling both street names and numbers, Mrs. Edna B. Johnson, 545 North Central Avenue, wrote the words which serve this page as a headline. "To those not familiar with the streets and numbers," she added, "such information is very helpful. It would be wonderful if more conductors would follow his example."

## *Another Stop-Caller Lauded*

Because he also called his stops and did so in a manner that could be easily understood, Conductor Ed Burian, Archer, was commended by Norman G. Hediger, 3055 West Addison Street. "It is service such as this," he wrote, "that makes one appreciate the Chicago Surface Lines."

Pleased by Bus Operator John Harte, Lawrence Garage, "who seemed to go out of his way to be of service to his passengers," one of the passengers, Mrs. Kenneth Johnson, 2627 West Farragut Avenue, wrote: "It's a pleasant experience to find someone of his caliber."

## *Praises Conductor's Honesty*

Impressed by the honesty and courtesy of Conductor John Burke, Lincoln, who returned some change he had unknowingly dropped when he paid his fare, C. A. Church, General Electric Company, Erie, Pennsylvania, wrote lauding him.

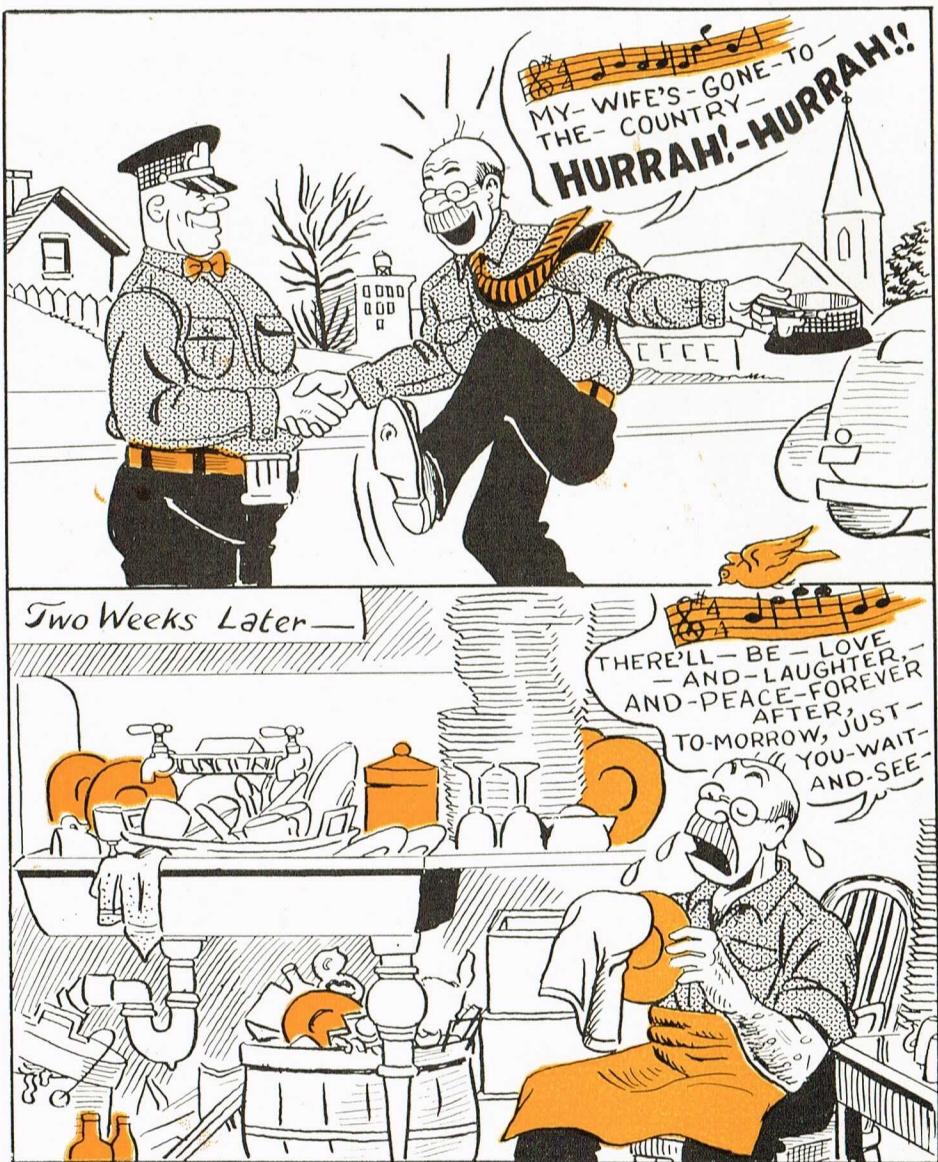

Conductor Everett McElwain, 77th Street, also came in for some praise from a visitor to Chicago last month. In commanding him, John W. Howard, New York City, wrote: "He is a fine representative of your organization—smiling, polite and neat. He was very helpful in assisting me to reach my destination. More power to men

of this conductor's caliber in your ranks!"

Impressed by two incidents on different days in which Lawndale trainmen displayed thoughtful courtesy, Irving Eisenberg, 139 North Clark Street, wrote commanding Conductor Pete Larson for cautioning riders boarding his car one slippery evening

to be careful, and lauding Motorman Ralph Illion for waiting a few seconds at a transfer point while a group of passengers ran to catch his car.

Because they took time to help blind, crippled or elderly riders board and alight from their cars, these trainmen received warm letters of praise: Motorman Charley Studnicka, Blue Island; Conductor Tom Joyce, Devon; Conductors Cola Mealer and Dave Sax, Kedzie; and Conductor Bob Schlemmer and Motormen George Goff, Jim Doolan and Walt Cassidy, all of 77th Street.

Vol. 19 April, 1943 No. 12

WILLIAM H. BROMAGE . . . Editor  
DON R. COWELL . . Associate Editor

## National Magazine Praises Our Scrap Picker-Upper

THE TRUCK-CARRIED magnet, designed by Shops and Equipment engineers, which picks up metal scrap from our many miles of bus routes comes in for a bit of praise in the April issue of *Coronet*, a nationally circulated Esquire, Inc., monthly magazine.

In "On the V-Shift," a regular department of the pocket-sized publication, under the sub-heading of "Quick Salutes," *Coronet* says: ". . . To the Chicago Surface Lines for sending out a truck-carried magnet to pick up odd metal pieces over the miles of routes taken by its buses. Result: . . . pounds

of scrap and fewer punctures for bus and car tires!"

"On the V-Shift" is prefaced each month with these words: "In millions

of American minds ideas are simmering which will help beat the Axis. Communiques like these from the battle of production. . . ."

## AROUND the CAR STATIONS

### Burnside

MOTORMAN W. J. MURRAY was handing out cigars the other day, the occasion being the arrival of another son. Both pop and baby are doing nicely.

Former Night Clerk Rudy Albrecht who joined the ranks of the receivers has been around recently giving the old place the once over. We miss you, Rudy. When are you coming back?

There is such a thing as going too far in safety precautions. One of our Hammond operators recently got off the car when relieved with the reverse key in his pocket. Before his relief could get under way, Supervisor Freel had to hunt up the man with the key in a near-by restaurant.

Operator Little of Windsor Park, otherwise known as "the little man who's always there," has developed a transfer phobia. He walks out of the trainroom, leaving his transfers on the table, then telephones for them when he reaches South Chicago.

The war brings strange things. Operator M. Lydon swears the Pennsylvania Railroad's woman gateman at 104th Street and Indianapolis Avenue waves to him when she flags his car across the tracks. He says if she keeps this up he'll never leave the Hammond line.

Once upon a time a lad with the uncommon name of John Jones became a coffee merchant in his own right. Because the problem of grinding the coffee was a weighty one, John hit upon the bright idea of attaching a pulley to the rear wheel of the bicycle he used in making deliveries.

By placing the coffee grinder in the luggage compartment behind the seat and running a belt from the pulley on the wheel to one on the grinder, he ground the coffee as he made his delivery rounds.

When he tried to patent his device, he was shocked to learn another inventor already had tried to patent a grind-as-you-ride-coffee-pulverizer but had been turned down.

Our hero then gave up his dreams of fabulous wealth and took a job with the Surface Lines. He can now be found holding down the corner of 93rd and Cottage Grove on the p. m. shift.

Our deep sympathy goes out to the family

of Motorman L. Pine, who died March 17, following a lingering illness. He had been at Burnside for many years, and his friends here will miss him.—Furgie.

### Devon

SINCE THIS issue of the magazine pays tribute to all Surface Lines employees in the fighting forces, we make this column an open letter to the Devon servicemen all over the world.

Well, boys, all the buses have left Devon and are in the new Lawrence Avenue Garage, at Lawrence and Lipp. The Foster Avenue and Northwest Highway routes have been merged, and shuttle service has been instituted on Kedzie between Bryn Mawr and Peterson.

You should see State Street now on Monday nights! It looks like Christmas Eve, for the stores are opening at noon and staying open until 9 p. m. State Street, you see, also has gone to war as have the rubber bands off our transfers.

By the way, we got recent letters from Paul Dzielienski, who is plying the Atlantic, and Vince O'Rourke, who is in Africa. They reported they are doing fine, and we hope the same goes for all of you.

One of those on the home front who is really doing his share these days is Motorman Paul Lea. When Motorman Herman Schroeder, who is in the Edgewater Hospital, needed a blood transfusion, Paul volunteered, making it the second time he has answered a blood donor call here at Devon.

Our Baby Department these days reads like this: Motorman Elwood Hammond, one of our newer men, a boy, Daniel Robert; Clerk Bill Pinasco, a girl, Diane (the first of a series, Bill says!); and Conductor J. Quinn, a girl.

Motorman Phil Jolly, who was all that his last name implied, passed away recently. We're sure you boys remember him and join the rest of us in extending sympathy to his family.

Well, boys, we'll close now; but if the

censors don't interfere you'll hear more from us next month.

So long, fellows, and lots of luck from every last one of us here.—Ed May.

## Division

**F**ROM THE HALLS of Montezuma to the shores of Tripoli . . . Our Division servicemen are scattered as widely as the places mentioned in the Marine hymn. Some are in England, some in Africa, and others on various islands in the Pacific.

To them and to all other Surface Lines employees in the fighting forces this issue of the magazine is dedicated.

Motorman Irv Green's brother Ben came home for a furlough last month from his bomber base in Texas. Although only 19 years old, he is a technical sergeant and a rear gunner on a B-17. He says he hopes his next stop will be Tokyo.

Another 19-year-old, Corporal Ed Pearson, brother of Motorman William Pearson, is stationed with the air forces in Maryland.

Private Edmund Davis, brother of Motorman Roy Davis, visited Chicago last month from Camp Blanding in Florida.

Motorman Paul Plant's sister Virginia now is a full-fledged WAAC. She is stationed at Fort Des Moines, Iowa.

Our stock clerk, James Cepican, enlisted in the navy last month and is receiving his training at Great Lakes. Good luck, Jim!

Frank Chabalowski got a good spring tonic the other day when his son came home for a short furlough.

If you want first-hand information on the credit union, the O. C. D. or even on world affairs, see John McMahon. (Isn't that right, Davis?)

John Janco and Motorman Pete King have returned to work after their recent illnesses. Welcome home, boys!

Rumor has it that our friend V. Max may soon be married to a South Side lassie. How about it, Max?

Even the army M. P.'s who were directing city traffic last month didn't faze Conductor Vernon Wenneberg who is studying the junior supervisor's handbook.

All the boys were puffing cigars March 7 to help celebrate the birth of Motorman William T. Hanson's son Robert.

Motorman Sammy Regas gave his infant son his first haircut last month. All worked out well, except for a peculiar wave in front. (It seems there was a nick in the bowl!)

There's no truth in the rumor that if a man is "sharp" at Belmont and Western he is given solitary confinement in Supervisor Bob Winther's green and red concrete shanty.

So acute was the recent meat shortage that Supervisor Emil Gagler couldn't even buy a half pound of globaloney.

After spotting the fuzz on Motorman Boldt's upper lip, we are tempted to spell his first name *Hairy* instead of Harry.

Recent balmy weather caused Conductor Howard Patterson to remark he'll soon be at Wonder Lake with his family.

Although the bowling season isn't quite

finished, all the boys are yearning for that All-American game "Hit the Dirt"—or, to be crude, baseball.

Congratulations to Motormen Ted Fijack and L. P. Goodin, who are celebrating wedding anniversaries this month; and happy birthdays to the following: Dennis, son of Supervisor Al Pfeiffer; John, Jr., son of Motorman John Mohawk; Rita Marie, tiny daughter of Conductor Frank Kouba; and Thomas and Camille, twin children of Motorman Tom Radicke.

All of us, especially the older men who knew him best, mourn the passing last month of Conductor Joe Adamczyk, one of our "day car" men.

Are there really gremlins whose sole duty it is to change traffic lights from green to red just when a conductor is about to give two bells?

Here's a reminder, boys. Your scribe must

## Front Cover

**R**EPRESENTING THE army, navy and marines on the front cover of this special servicemen's issue are three former employees—a conductor, a motorman and a bus operator—all now non-commissioned officers.

For the names and former stations of the men, see the caption for another photo of them on page 5.

have your news items the day *before* the last day of each month to get them in the following month's magazine. Photos should come to us even earlier.

Any acceptable photos of servicemen not used this month will appear in subsequent issues.—R. T. W.

## Elston

**E**NJOYING THE SPRING weather as they burn up their spare time pushing baby buggies are Motorman Pete Sciotius and Conductor Ray Gehrké, both of whom recently became papas of baby daughters.

Motorman Mort Daly, who is attending a naval officers' training school in Michigan, asked to be remembered to all the boys whom he missed seeing during his recent furlough.

Welcome back to Motorman H. Weider! He left us 13 years ago, but says he is glad to return.

Our Red Cross drive was a great success, and Stationmaster Balfanz has asked your scribe to thank all of you for supporting that worthy charity.

Our deep sympathy goes out to Motorman Al Durr in the recent death of his wife.—Emmett Kane.

## Noble

**S**PRING CLEANING at the depot is already completed. The new paint job and the new service flag brighten things up a lot.

Three-cornered bundles, both boys, were left last month at the Art Raben and Jake Rusnak homes. Congratulations, papas, and best wishes for the wee ones!

Private Lou Keeshin paid us a visit recently. He is looking fit as a fiddle, and says army life is great.

J. Reilly, Repair Department, must have caught Lou's enthusiasm for he joined up last month.

A recent postcard from Corporal Reggie Anderson announces he is feeling fine. He reports running across Paul Ferrigan, who is in the military police at Patterson Field. So Paul finally got what he was always looking for—a shillelagh. Congratulations, Paul!

Don't be alarmed at the commotion which comes from the inner office about noon each day. It's nothing but Chief Clerk Nick Grimaldi, Receiver Charles Vanek and Supervisor Lou Cerone trying to figure out how many ration stamps their lunches will cost them.

Our heartfelt sympathy goes out to the wife and family of Carl C. Gibbs who passed away recently.—Charles Karcal.

## North Avenue

**D**UR CONGRATULATIONS to Clerk Bill Pinasco, Devon, who was presented a fine baby girl on March 22. The little lady was named Dianne. Bill was a clerk here for some time and formed many friends, all of whom send their congratulations and best wishes.

Sympathy is extended to the family of Salvator Greco, who died March 16. Mr. Greco, who had been on the retired list for some time, was the father of George, a trainee at this station.

Little Bobbie Junior, son of John R. Miller, has just reminded us he had a birthday March 18. He is now three years old.

Motorman H. Russow was presented a baby boy on February 16; and the little lad was named Norman. This is number two for Russow, both boys.

Let's write a letter to Tom, Dick or Harry, or whatever his name might be, who is away from home doing his part for our country in the armed services. A letter from home oftentimes means the difference between loneliness and contentment. Of course, it's easier to drift along, going to shows, entertainments, or listening to the radio all evening; but let's sacrifice a little of our pleasure to bring happiness to our former co-workers and friends now in strange places.

News from home is the biggest event of the month to those who are across the seas. The Government realizes this, for it has made elaborate arrangements to see that mail is

delivered to all points where men are stationed. Then, too, it has provided V-mail, even printing and giving away V-mail forms to make it easier for you. These can be obtained from any post office—just for the asking. In Guadalcanal, Tunisia, Ireland, England and all such far-away places, time is measured from one arrival of mail to the next.

The most forlorn figure in the world is the soldier, sailor or marine who draws a blank in the mail distribution. So, if you're proud of these fighting boys, who are winning the battles for us, and want to do something to help keep them in high gear, keep the mail bags filled to overflowing. Names and mailing addresses of many of our boys in the armed forces may be found posted in the trainroom.

Now that spring is in the air, and the White Sox are back in style again, Harold King (the man of few words) has come back to life and giving us some news about baseball and other things. One of these days we are going to start a talking bout between George Christie, of Lawndale, and Harold King of our station. Christie is known as "Silent George" at Lawndale and King is known as "Lockjaw King" at North Avenue.

Harold says Jack O'Malley's wife told him if Jack expected to eat this year that he will have to make a bigger Victory Garden than the one he raised in a flower pot last year.

Fritz Blake, Oscar Falk, Bill Smith, L. W. Johnson, No. 1; and Regional Supervisor Stuart Sim are back with us again after serving several months with Uncle Sam's armed forces. Welcome home, boys.

The North Avenue Sewing Club made up of Trainmen Eltman, Joe Juelke, Halek, Conroy, Beyer and Essig meet every morning at 5:30 at the corner of North and Cicero. Meetings are presided over by Eltman, after being led in prayer by Essig and a song and dance by Conroy and Juelke.

Every time a Cicero car goes by all the watches of the members are drawn and compared. Halek usually closes the meetings by reading all the foreign news to the boys from the newspapers on the corner stand. Halek reports he read where Goebbel's has discovered that cockroaches were pure Aryans and are being taught to say "Heil Hitler!"

We'll be seeing you next month with bigger and better news.—W. G. Echols.

## Seventy-Seventh

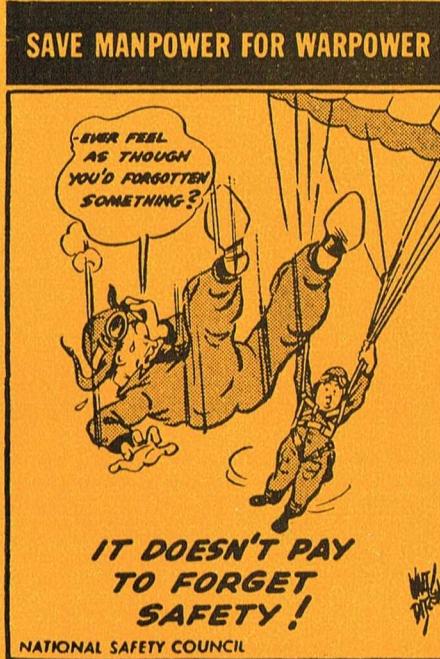

**T**HE NEWS is hot from Africa and so is the word from Dave Magee. By a wide stretch of the imagination, he contrives to call that end of the world his home. They used to laugh about the expression "frying eggs in the sun;" but Dave knows now it can be done and it's no laughing matter. It's too hot to be funny, and so, as we said, is the news, and so is Dave.

That old stork sure got away from us lately, but we think it's because new fathers are wont to keep their good news a secret and that's not nice. It was just by chance that we learned that Ed Gillooley has a new baby at his house—a nice little colleen to go

with that boy. Congratulations! We suggest that from now on all new fathers wear a pink carnation.

The happiest fellow at the station recently was Ervin Knapp. He didn't have a pink carnation, but we could tell that he felt like breaking out a brass band. After 16 years of married life, little Patricia Anne finally came along. By all Erv's reports, she's worth waiting 16 years for.

This war emergency gave Miley Creps quite a scare last month. It was the zero hour and not a taxi was in sight. So Miley called the patrol wagon—no, not to get to the station on time—to get his wife to the hospital. We're still talking about babies! The patrol

wagon got there all right, but not by much. The little one was born a half hour later.

Graduating 10th in his class, Buddy Shaw, our faithful mascot, gave pop and the boys something to cheer about. He's up there at Great Lakes just finishing his boot training, and now has earned the privilege of choosing his special schooling. Pop says he'll probably go in for aviation machinist or gunnery. My, my, how time flies! It seems like yesterday that Bud was just able to carry our bats. All hands here wish him the best of luck.

Another sailor from Great Lakes showed up at the station the other day and if we had not been up to our neck in the draft we'd have certainly pumped him for some dope. It was Former Clerk Arnold Hillstrom, and he looked in the pink. Well, that's the navy for you. Your scribe used to be in the pink, too, when he was in the navy; but since we've been married we've been mostly in the red.

We recently saw a picture of Mike Hogan on the U.S.S. *Chicopee*. We don't know what kind of a ship she is, but Mike looked contented, so it doesn't make any difference. For

a sailor, the ship is home; and with a name like *Chicopee*, Mike couldn't miss. It's so peaceful sounding it reminds us of the song "Waters of Minnehawhaw."

Well, what do you think Mike Tierney's doing now? He's enlisting women for the marines! We don't know what they are going to be called, but if they are to be instilled with anything like the Leathernecks stand for, it will be something like WHAMS! Mike's doing all right, too. Got a full column recently in a South Side newspaper, and that's what we call breaking into print.

Sympathy is extended to the family of Conductor R. A. Post, who died last month, and to the following men because of recent deaths in their families: John and Daniel McGoldrick, their brother; J. S. Greenhill, his mother; J. F. Brady, his mother; E. B. Woods, his father and J. B. Hogan, his mother.—Walt Story.

## Sixty-Ninth

**U**NCLE SAM must have heard that we were short of motormen so he sent Eddie Parker and George Kristof home from the armed forces last month. Mighty glad to have you back, boys. We need you, even though the army doesn't.

Conductor John Sexton left us for army service in March. Instructor Marunis Cooper informs us that his son has also joined up. Best of luck to both of these fine boys.

We were honored last month by visits from quite a few of our trainmen, now in Uncle Sam's service. Conductors J. J. Lynch, Henry Schroeder, Danny Carew, and Tom Nash all put in appearances at the depot and so did Motorman J. P. McCarthy. All were warmly greeted. We are only sorry that the visits of Tom Nash and John McCarthy were occasioned by deaths in their families.

To Motorman J. J. McCarthy we also extend our sympathy on the sudden passing of his wife.

Our Absent-Minded Club has two new members—Joe Carrington, who rode a street car home one evening, then recalled that he had left his auto parked at 69th and Ashland; and Emil Brayak, who learned that a green fedora can't be successfully substituted for a uniform cap if one expects to work.

Supervisor Joe Woodville, who has been a fixture at 63rd and Western all winter, has left us for the police department. This resulted in a little shifting around of our supervisory force and the addition of one new man, Motorman Roy Anderson. Supervisor Joe Hemzacek has also left us, but he's still in the service. If you look carefully, you'll find him somewhere among the tall buildings down in the Loop.

Conductor-Clerk Charlie Harrington states that his favorite song is an old-timer called "I'm Looking at the World Through Rose-Colored Glasses." When asked how he happened to select this tune, he just gets red in the face and refuses to talk.—H. E. Harris.

## Departments and Divisions

### Accident Investigation and Legal

WILLIAM J. HENDERSON celebrated the 50th anniversary of his marriage to Emily J. Dutton of Ingersoll, Ontario, on March 28. Relatives and a few close personal friends helped celebrate the event, some of the relatives coming here from Canada. Bill was born at Simcoe, Ontario. After nine years as a conductor and 10 years as a receiver at Elston Depot, Bill came to this department. He will round out his 50th year with the Surface Lines this fall. Congratulations, Bill!

Welcome is extended to these new employees who joined us last month: Clerk Corinne Just and Statementmen William Herman and William Friel. Glad to have you with us, folks.

Eddie Karkocki and Bill Sunlin, two of our sailors, recently dropped in for a brief hello. Hope to see you back soon, boys.—Audrey.

### Accounting

EUGENE DENNIS is the name of the baby born recently to Mr. and Mrs. E. F. Collins. To the proud parents, we extend congratulations.

John Rietz, Timekeeping Division, who joined the coast guard last December, writes he is now doing picket patrol duty "somewhere along our eastern coast" and that he intends to be married in Chicago when he returns on his next furlough. He plans to take his bride back East.

As we go to press, we are looking forward to the speedy recovery of Ruth Reichhardt who is home ill.

Birthday greetings were extended last month to Marion Danner, Marie Kinser, Bernice Biernat, Martha Neffas, Lorraine Koehler, William Kennedy and Roy Wilson.

Mary Adamson, Payroll Division, who left us March 13, was remembered with a farewell gift from her associates.

Robert Malmquist and Clement J. Rodell have said *au revoir* to their many friends after receiving calls to enter military service. Their leaving brings to 15 the number of stars on our departmental service flag. Good luck, boys.

Private Ray Backlund gave us a pleasant surprise by paying us a visit on his furlough. Ray certainly looks good. Apparently army life and the North Carolina climate agree with him.

To Mrs. Estelle Allen who recently re-

ceived a new assignment, we wish all kinds of good luck! The same goes for F. W. Church, transferred to the Track Department, and to these newcomers: Mrs. Delia Jennings, Mrs. Eulalia Parson and Thomas E. Healy.

Word received from Stockholm, Sweden, mentions that Bill Malmberg, who is stationed there with the navy, is enjoying good health and likes his duties. He sends his best regards to the office force, and urges that we keep on buying war bonds until victory.—Thomas F. Coan.

### Car and Bus Repair

ARCHER: We recently had a visit from John McCrea, now stationed in Louisiana. We surely were glad to see you, John!

A nice letter was also received from Corporal H. Stuvee, now in the Pacific, and we were glad to get his correct address.

Why not write a few lines to our boys all over the world, fellows, for a word or two at times like these will cheer them up considerably.

Pat Considine and Patrick O'Shaughnessy have returned to their former position after

having been honorably discharged by Uncle Sam. Glad to have you back with us, boys!

T. Harris's face has been wreathed in smiles of late, and for a very good reason, too. He is the proud daddy of a 10-pound baby boy. Congratulations to the new mother and dad; and thanks for the cigars!

We offer our sincere sympathy to Dan F. Bowles, stationmaster, in the loss of his beloved wife.

77th STREET: William Moore, Jr., former storeroom clerk, surprised us recently with a visit from the air corps at Jefferson Barracks, Missouri. He surely looks grand and is the picture of health. He visited the girls at the South Shops office, and they tell us he made a great hit! Those uniforms are great things all right!

Martin C. McMahon, Jr., also paid us a visit recently from Duncan Field, Texas. He certainly looks fine with those sergeant stripes on his sleeves, denoting his rank in the air corps.

We received a very interesting letter from Patty Faherty recently, and among other things he states he enjoys his employment with Uncle Sam very much.

To Jim and Frank Havel we extend our heartfelt sympathy in the recent loss of their mother.

To Joe Porten we also express our sympathy in the recent loss of his stepfather at Fond-du-lac, Wisconsin.

### Engineering

TRACK: Clarence Kelly is convalescing at the Illinois Masonic Hospital, and we hope to see him back to work soon.

Violet McFarlane is recovering from an operation and Dorothy Peterson is home

## Is the Right Beneficiary on Your Life Insurance Certificate?

OUR INSURANCE DEPARTMENT has recently settled an unusual number of death claims where employees' beneficiaries had died before the death of insured employees.

All employees should check their Surface Lines insurance certificates closely, for in such instances there is always an unnecessary expense to the deceased's estate and an equally unnecessary delay in settlement.

If the beneficiary you have indicated has passed away since your certificate was made out, you should name another.

Have the necessary changes recorded with the Insurance Department. Forms for changing beneficiaries are available in the offices of all departments.

with a throat ailment. Both, we hope, will return before this is published.

We are all glad to see John Macfarlane back to work after a long siege of illness.

A hearty welcome is extended to Alden Carpenter and to Fred Church, both of whom joined us recently.

We had the pleasure of recent visits from Second Lieutenant Jack Minogue, upon graduation from Officers' Training School, and from Sergeant Tony Giovenco, who just returned to the good old U. S. A. after a year in Bermuda.

Since the last issue three of our men were inducted into military service and four were released. Inductees are John Marsala, Thomas Orsini and Steve Rodich. Those released were Sam Wilson, Adolph Kucera, Frank Palazzo and J. Skulich.

## Material and Supplies

ANDY GRAY, formerly of the General Storekeeper's Office, entered military service just in time to make the special servicemen's issue of the magazine.

Paul Kelam was transferred last month from the Downtown Office to Halsted Yard, and we wish him success in his new position.

We welcome to our department these four new mail boys: John Bozic, Michael Sorice, Anthony Cartolano, and George Calos.—R. E. Buckley.

## Schedule and Traffic

LOUIS B. KINCANON is the latest contribution of this department to Uncle Sam's armed forces. According to last reports, Louis was down in South Carolina taking his basic training.

Joseph Leger, traffic checker, announced

the birth of his second son on March 2. We understand Robert is a chip off the old block. Thanks for the cigars, Joe!

To our service men scattered throughout the length and breadth of the United States we send the greetings and best wishes of the department.—L. C. Dutton.

## South Shops

ERNEST SCHROEDER, Paint Department, retired, passed away March 20. He had worked for the Surface Lines since 1904. We extend sincere condolences to his bereaved family and relatives.

Stanley Janasek, Motor Repair, left us recently to join Uncle Sam's army. Good luck to you, Stanley. Remember we will always be happy to see you whenever you are in town.

Frank Coonan, Paint Department, has returned from the army and says that although he liked the life, he is glad to be back with us again.

Corporal Felix Winslow, Printing Department, writes he has been transferred from California to Wyoming and that he misses California's warm weather.

Private Jim Lamont, Motor Repair, writes he has been transferred from Missouri to Georgia. It looks like Jim is going to get Felix's warm weather.

Private John Tiggelaar, Motor Repair, recently inducted by the army, dropped us a card to let us know he is with the 555th Engineers up in Oregon; and John Kehoe, Motor Repair, who joined the navy, is now at Great Lakes.

Bernie O'Malley, Machine Department, now in the navy, sent the boys a "V" letter from England. He reported he recently received a promotion, but didn't mention what

it was. We're glad to hear about it, Bernie; and wish you all the luck in the world!

We offer our best wishes for a speedy recovery to Al Engberg, Machine Department, who underwent an operation last month. We're looking forward to having you back with us soon, Al.

We're happy to report that Al Nevin, Machine Department, has recovered from that lonesome feeling. Mrs. Nevin's return from a recent trip to California is the reason for Al's smiles nowadays.

Our deep sympathy is extended Mike Rubey, Machine Department, in the recent death of his father.

We hope for speedy recoveries for the loved ones of two of our employees: the son of John Lorentz, Motor Repair, who was injured in an accident; and the daughter of Andrew Christensen, watchman, who underwent a serious operation several weeks ago.—Elsie S. Frank.

## West Shops

JOSEPH GASSER, formerly of the South Shops, has come to West Shops to take over the duties of general foreman of the Carpenter Shop and Woodmill, and J. Boleck has been promoted to foreman of the Carpenter Shop. We extend our best wishes in their new jobs.

Alyce and Betty Wirth are recent additions to our clerical force. Alyce has taken over the duties of booth clerk in the Paint Shop, and Betty the junior mail clerk job. We are happy to have you with us, girls.

Ed Wendt celebrated his 25th anniversary with the Surface Lines on March 12. As he started to work here wearing "short pants" and weighing 89 pounds, we believe he is the youngest man on the 25-year list. Since beginning work, he has added a few inches to his stature and a few pounds to his weight!

We were visited last month by two of our boys. Gus Girardi made his appearance in a sailor suit, being stationed at the Great Lakes. Jack Lee came in on a furlough from Fort Bragg, North Carolina, where he is in the glider infantry. We were happy to see you, boys!

From many not able to visit us, we received very welcome letters. Ed Zimmer wrote from Puerto Rico, where he is now stationed; George Emery from Great Lakes (he wishes he was back in the office, having heard of all the new young ladies who are now with us); and George Brignac, doing his share in the air corps, from Sheppard Field, Texas.

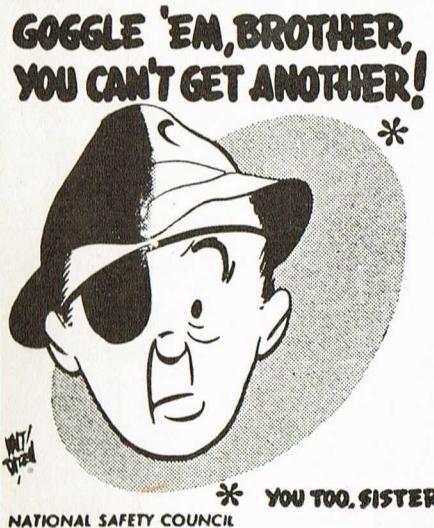

Word has just been received from Walter Hager, in the state of Washington, that he recently received his stripes as a sergeant. Congratulations, Watts!

Another recent visitor, Andy Barr, formerly of the Armature Room, West Shops, who is serving in the merchant marine, told us many interesting stories about his branch of service.

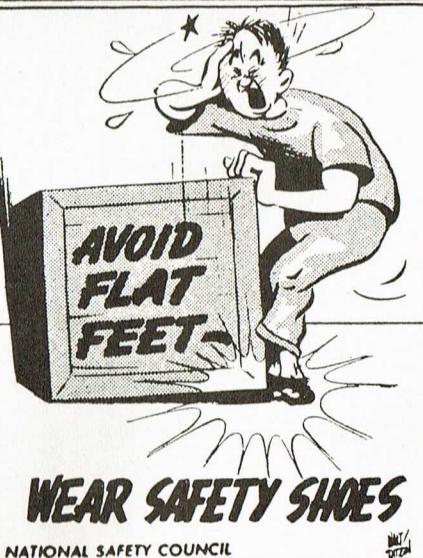

Among our new military recruits are Pat Porcelius, now a part of Uncle Sam's navy, and Jack Schwartz, who in a recent letter tells us he is in the army at Jefferson Barracks, Missouri. Good luck, boys!

Our sincere sympathy is extended the bereaved family of J. Gorski, Carpenter Shop, who passed away on March 6.—Mildred Habeger.

## SAVE MANPOWER FOR WARPOWER

## SAVE MANPOWER FOR WARPOWER

# Has Your Group Rung the Bell?

RANKED BY the percentage of their number who are investing 10% or more of their wages in war bonds through our payroll savings plan are the 25 chief groups of employees.

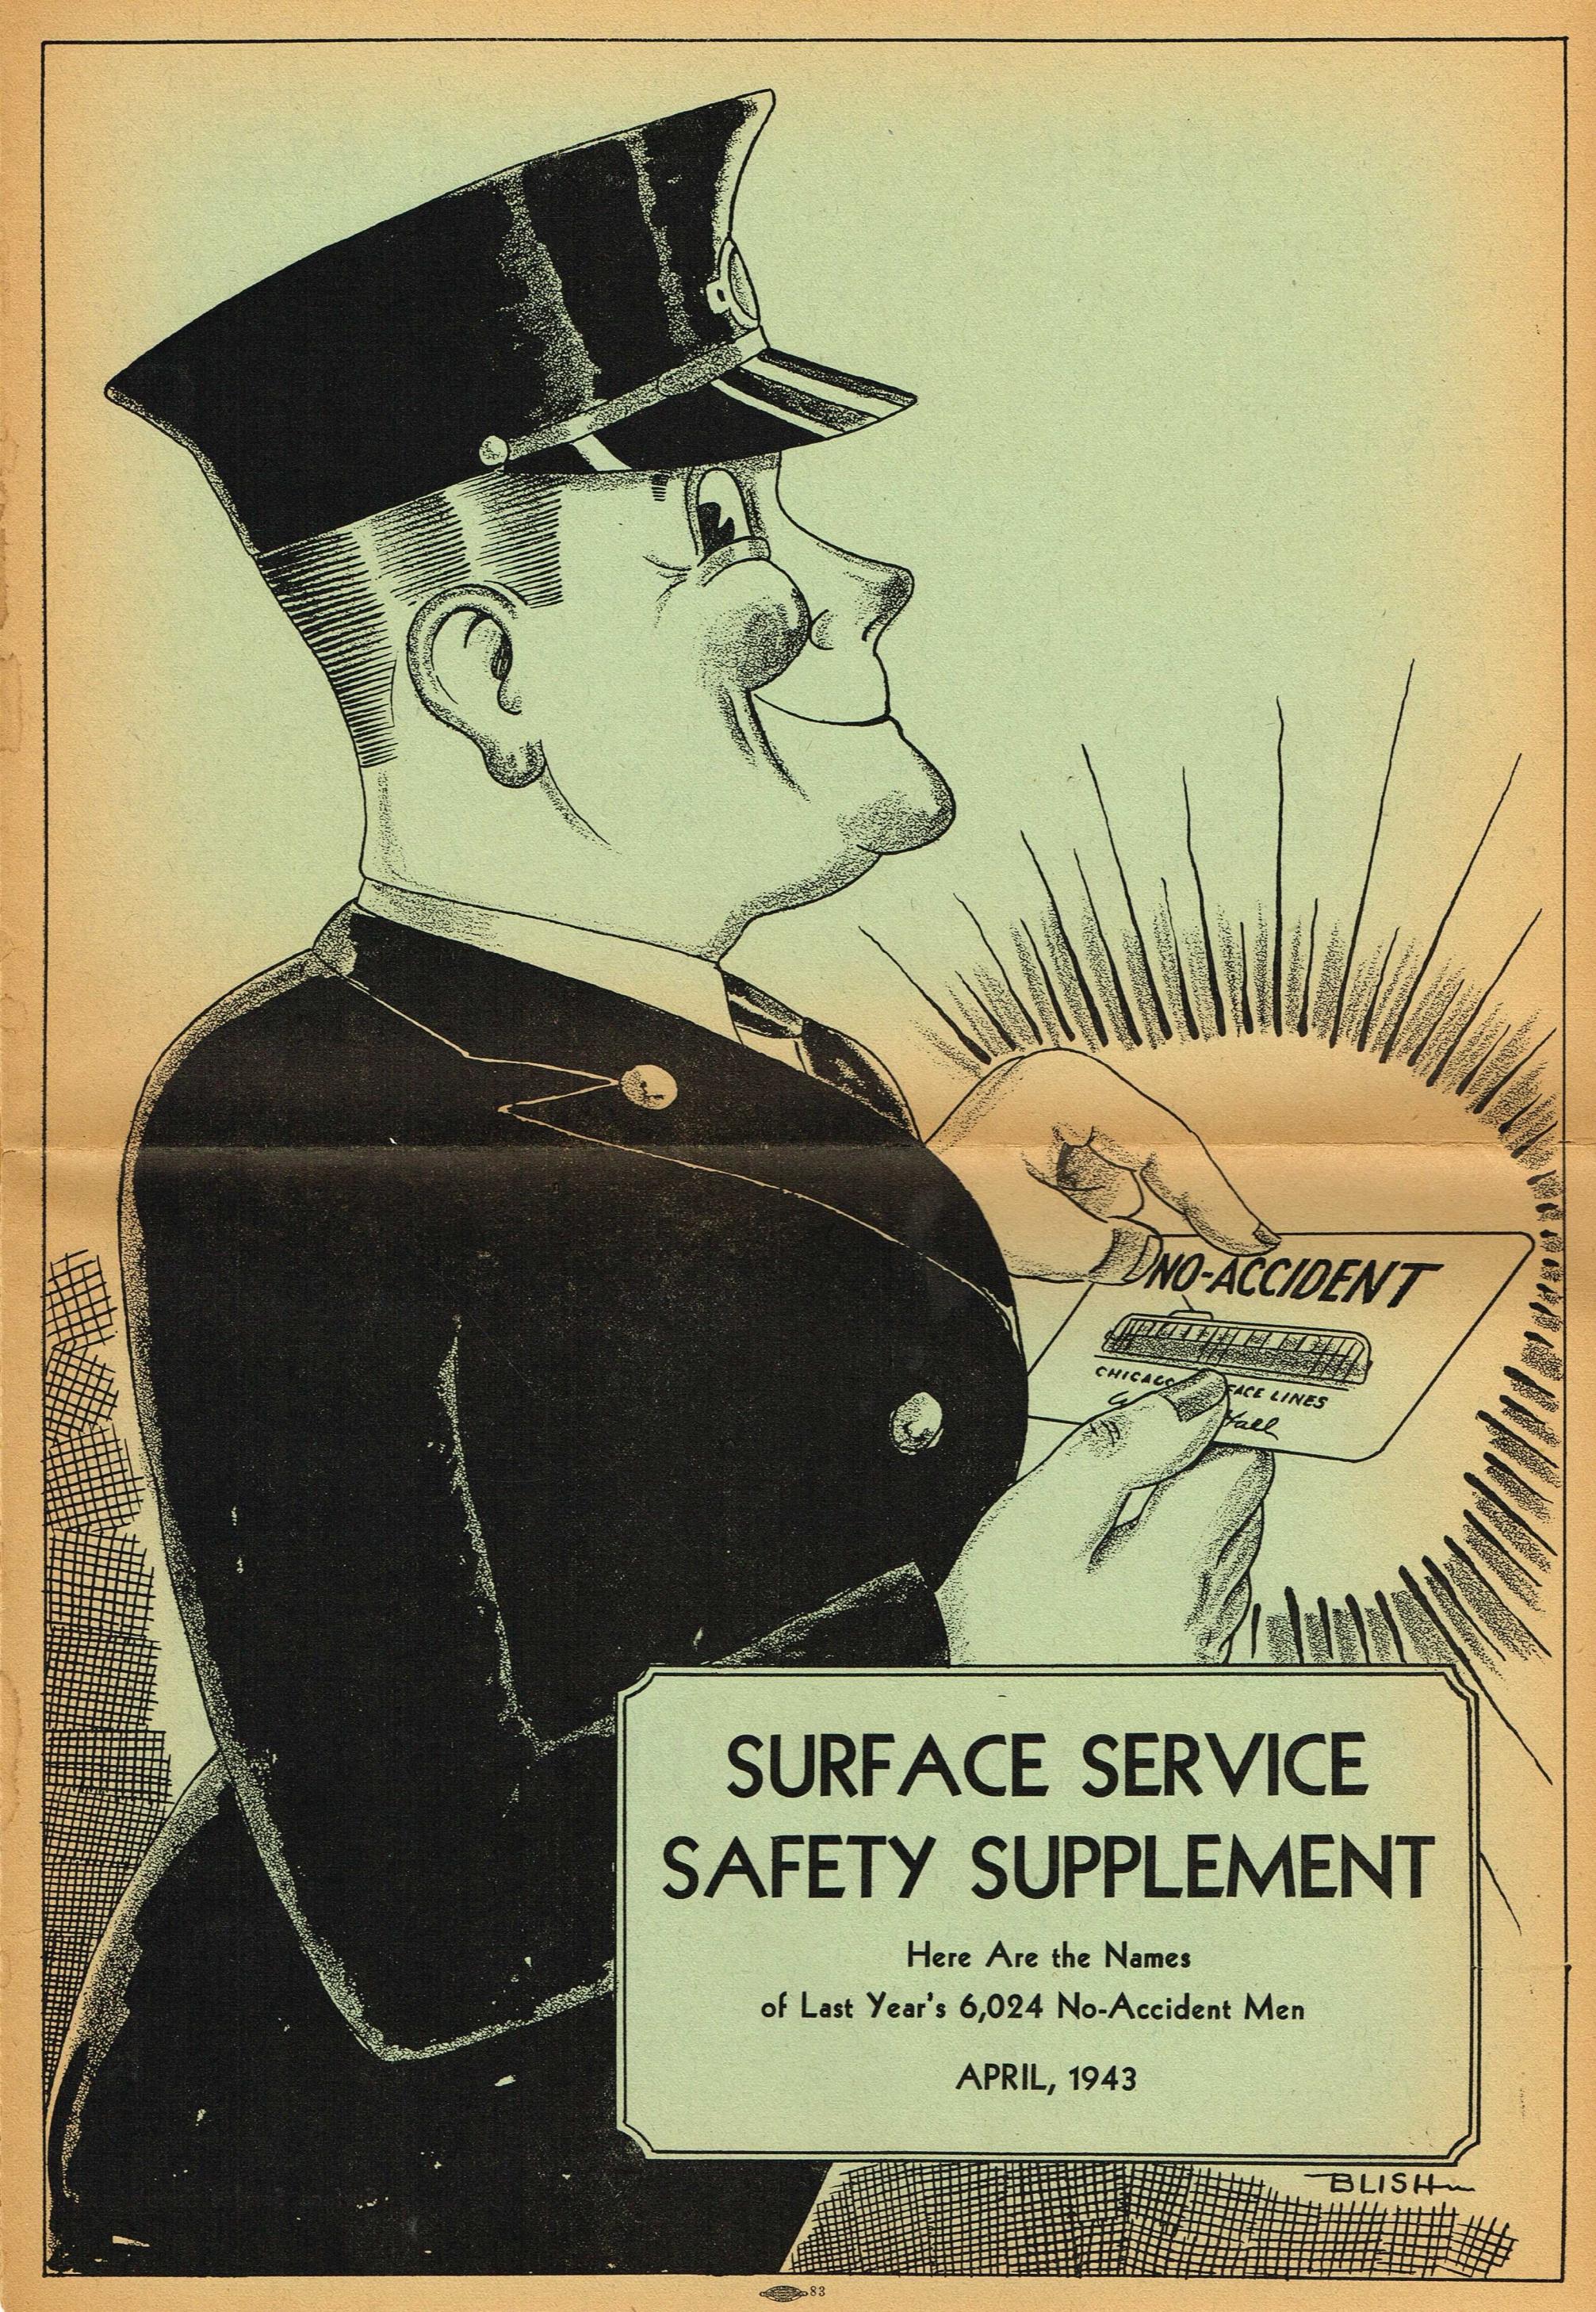

Numbers following the names of those six groups which showed progress last month indicate the number of steps toward ringing the bell each climbed.

Utility employees' outstanding progress came when seven more of the group saluted Uncle Sam by boosting their bond buying to 10% or more.
