SUNDAY, August 4th

A busy day is in store for you in the Cleveland area, beginning with a trip over the Shaker Heights Rapid Transit System. This trip will originate at Cleveland Union Terminal at 9:00 AM EDT, using one or more of the three types of PCCs, plus the use of the ex-Cleveland Interurban Railway Kuhlman-built car #12, now a work car. Return to CUT about Noon for lunch.

Following lunch we will leave CUT once again, this time on an excursion over the CTS Rapid Transit, using CTS's modern St. Louis-built transit cars to Windermere making several photo stops returning to West Park terminal.

Here we will board a waiting CTS chartered bus to go to the Columbia Park & Southwestern at Olmstead Falls, Ohio. While there you will have the unique opportunity of photographing and riding Brill-built, four-wheel, open cars from Veracruz; Aurora, Elgin & Fox River Electric lightweight cars; recently purchased Chicago, Aurora & Elgin interurban cars; and Cleveland Railway drop-center door cars.

Following our visit to the CP&SW we return to downtown Cleveland ending a long day of riding modern and old-style electric cars.

Returning, Chicago fans will leave on New York Central's "The Forest City" at 10:55 PM EDT, arriving at LaSalle Street Station 5:30 AM CDT, Monday, August 5th.
