# Special Rules

## 1. SUPERIORITY BETWEEN HARRISON AND CARROLLVILLE.

Nos. 61 and 62 are second class trains and must keep out of the way of and clear the time of first class trains at least five (5) minutes. See also Note 4, page 18. All other trains shown herein are first class and have equal rights as between themselves except as follows:

On the single track between and at Harrison and Carrollville, southbound regular trains are superior by direction to northbound trains of the same class. Any train so superior by direction (southbound) has an absolute time table right to the track, and any regular train of the same class in the inferior direction (northbound) must be clear of the main track before the leaving time of the superior train of the same class.

If a southbound train finds an inferior train of the same class overdue at Harrison, or if it does not find the expected train of the same class at a scheduled meeting point, it will, after coming to a full stop, and after complying with last paragraph of this rule, proceed, approaching all sidings prepared to stop until the expected train is met. See Note 6, page 22. No. 425 is only required to be clear at Harrison before 10:07 p. m.

When scheduled meeting point is shown at Rawson for a first class southbound train, such south bound train will be due to leave Rawson at the time shown in its schedule, if it has met the train or trains to be met at Rawson. If, however, the train or trains to be met have not arrived, such southbound train will not be due to leave Rawson until five (5) minutes after the time shown in its schedule, and the inferior train of the same class will be required to clear such later time.

## 2. PASSING POINTS.

At passing points between trains of the same class the train to be passed may proceed before the arrival of the following train on verbal orders from the dispatcher, and the following train will run, expecting to find the other ahead, but limiteds must not be delayed. Local trains must in all cases avoid delay to limiteds. Should a local train be unable to reach scheduled passing point in time to avoid delay to a following limited, it will allow the limited to pass before reaching such point, without orders from the dispatcher.

## 3. REGISTERING.

All trains will register at Evanston, N. Chicago Jct. and Harrison. The register must show the date at top of page, the train number, car number, arriving time, kind of signals carried at any time on the train, and the points from and to which signals were carried, and will be signed in the proper place by the senior conductor. If the train stays at the register station longer than two (2) minutes, both the arriving and leaving time will be shown on register. Otherwise, the arriving time only. Harrison is the initial station for trains running out of Milwaukee, and N. Chicago Jct. is the initial station for trains running from Waukegan. All trains will report to dispatcher at register stations unless telephone line is out of order. Extra trains are required to report in any event before leaving. All trains running on Libertyville Branch will register at Lake Bluff Jct.

## 4. TEMPORARY SINGLE TRACK.

When temporary single track is established, no train of any class or direction may leave the end of double track without train orders, unless accompanied by pilot authorized by dispatchers.

## 5. OPERATION BETWEEN ROSE AND KENNEDY.

Bulletin No. 28, dated March 11, 1914, will govern between Rose and Kennedy.

## 6. MOVEMENT OF TRAINS IN YARDS.

All trains will approach and pass through yards under control, expecting to find the track obstructed. Yard motors and extra trains may make movements inside yards on verbal orders from the dispatcher, and the above instructions will not apply inside yards, neither will such motors or trains, when inside yards be required to clear the time of regular trains as required outside of yards. They will, however, avoid delay to regular trains and will use such protection as may be necessary.

## 7. MEETING POINTS AT ENDS OF DOUBLE TRACK.

Meeting points are shown at ends of double track when the difference between the times of opposing trains is five (5) minutes or less.

## 8. LOCATION OF YARDS.

Yards are located as follows:

### Highwood Yards.

#### **19. FUSEES.**

A fusee burning red, on or near the track, may be passed only after the train has remained at full stop for one minute, and the train will then proceed under control until the obstruction is passed, or until a clear signal is reached. Fusees will not be sufficient protection against superior trains.

#### **20. RIGHT, CLASS AND DIRECTION.**

A train may be made superior to another train by Right, Class or Direction. Right is conferred by train order; Class and Direction by time table. Right is superior to Class and Direction. Direction is superior between trains of the same class on single track only as specified.

#### **24. OPERATOR AT CARROLLVILLE.**

No train will leave the end of double track at Carrollville without clearance from Operator, Form 179 (Green). If Operator has no orders for the train and there are no overdue southbound trains, he will place two copies of clearance on train order hoop and hold in plain view so that train need not stop. Conductor will come forward when approaching Carrollville, so that both Motorman and Conductor may examine clearance at once to make sure that there are no overdue southbound trains of the same or superior class and that Operator has no orders for their train. Conductor and Motorman must each have a copy.

Should the Operator have orders for a northbound train he will not deliver clearance until Conductor has repeated and received complete on all such orders. The numbers of such orders must be shown on Clearance. If the Operator has no orders for a train, the word "None" must be written in proper space; otherwise the Clearance is not valid.

Should the Operator not have any orders for a northbound train and yet some southbound train or section is overdue, the northbound train must be stopped before Clearance is delivered. All overdue southbound trains or sections, not more than two hours late, must be shown by numbers on Clearance even if Operator knows them to be annulled or running on time orders. If there are no overdue southbound trains or sections, the word "None" must be written in proper space; otherwise the Clearance is not valid.

The following trains on the Milwaukee Division will run as far as North Chicago Junction: Nos. 8, 10, 14, 16, 18, 24, making connections with Nos. 8, 10, 14, 16, 18, 202 at North Chicago Junction. These trains will start from Waukegan on Evanston Division. All other trains shown on Evanston-Milwaukee Division will run through. North bound trains on Evanston Division, making connections for Milwaukee will display Milwaukee local signs.

#### **22. REGISTERING AT NORTH CHICAGO JUNCTION.**

The above trains on Evanston Division North bound will register arriving time and Milwaukee trains will register leaving time. The south bound trains on Milwaukee Division will register arriving time and Evanston Division train will register leaving time. All extra trains are required to see that both trains have registered.

#### **25. REGISTER CHECK.**

Conductor on each southbound train will fill out Register Check, Form 180, and throw off to Operator at Carrollville.

Train order hoops must be returned to Carrollville by southbound trains.

#### **26. OPERATOR'S TRAIN REGISTER.**

Operators at Carrollville will keep an accurate record in ink on Train Register as prescribed in Special Rule 3. This must show complete information concerning all trains in both directions.

#### **27. TRAIN ORDER SIGNAL AT HIGHWOOD.**

Train order signal will be used by Dispatcher at Highwood. The semaphore that governs is displayed to the right of the signal mast as seen from an approaching train. The horizontal position indicates "Stop." The inclined position indicates "Proceed."

A train must not pass Dispatcher's Office unless signal indicates proceed. If signal indicates "stop" motorman will whistle for "proceed" signal and if it is not given train must be stopped and Conductor will report to Dispatcher by telephone.

Conductors on first class trains starting from Highwood must, before leaving, report to Dispatcher and ascertain if he has orders for them and if all trains and sections, which are due, have arrived.
