FIRST CLASS

Note 6.—No. 324 will wait until 5:20 p. m. at Area for connection with Soo Line if necessary.

Special Rules

1. SUPERIORITY BETWEEN HARRISON AND CARROLLVILLE.

Nos. 61 and 62 are second class trains and must keep out of the way of and clear the time of first class trains at least five (5) minutes. See also Note 3, page 18. All other trains shown herein are first class and have equal rights as between themselves except as follows:

On the single track between and at Harrison and Carrollville, southbound regular trains are superior by direction to northbound trains of the same class. Any train so superior by direction (southbound) has an absolute time table right to the track, and any regular train of the same class in the inferior direction (northbound) must be clear of the main track before the leaving time of the superior train of the same class, unless a schedule meeting point is shown with such southbound train.

If a southbound train finds an inferior train of the same class overdue at Harrison, or if it does not find the expected train of the same class at a scheduled meeting point, it will, after coming to a full stop, and after complying with last paragraph of this rule, proceed, approaching all sidings prepared to stop until the expected train is met.

When a scheduled meeting point is shown between a first class southbound train and a first class northbound train, such southbound train will be due to leave at the time shown in its schedule, if it has met the train or trains scheduled to be met. If, however, the train or trains scheduled to be met have not arrived, such southbound train will not be due to leave until five (5) minutes after the time shown in its schedule, and the northbound train or trains will be required to clear such later time. All northbound first class trains must clear the leaving time of all southbound first class trains, unless a scheduled meeting point is shown with such southbound train.

2. PASSING POINTS.

At passing points between trains of the same class the train to be passed may proceed before the arrival of the following train on verbal orders from the dispatcher, and the following train will run, expecting to find the other ahead, but limiteds must not be delayed. Local trains must in all cases avoid delay to limiteds. Should a local train be unable to reach scheduled passing point in time to avoid delay to a following limited, it will allow the limited to pass before reaching such point, without orders from the dispatcher.

3. REGISTERING.

All trains will register at Evanston, N. Chicago Jct. and Harrison. The register must show the date at top of page, the train number, car number, arriving time, kind of signals carried at any time on the train, and the points from and to which signals were carried, and will be signed in the proper place by the senior conductor. If the train stays at the register station longer than two (2) minutes, both the arriving and leaving time will be shown on register. Otherwise, the arriving time only. Harrison is the initial station for trains running out of Milwaukee, and N. Chicago Jct. is the initial station for trains running from Waukegan. All trains will report to dispatcher at register stations unless telephone line is out of order. Extra trains are required to report in any event before leaving. All trains running on Libertyville Branch will register at Lake Bluff Jct.

4. TEMPORARY SINGLE TRACK.

When temporary single track is established, no train of any class or direction may leave the end of double track without train orders, unless accompanied by pilot authorized by dispatchers.

5. MOVEMENT OF TRAINS IN YARDS.

All trains will approach and pass through yards under control, expecting to find the track obstructed. Yard motors and extra trains may make movements inside yards on verbal orders from the dispatcher, and the above instructions will not apply inside yards, neither will such motors or trains, when inside yards be required to clear the time of regular trains as required outside of yards. They will, however, avoid delay to regular trains and will use such protection as may be necessary.

6. OPERATION BETWEEN ROSE AND KENNEDY.

Bulletin No. 28, dated March 11, 1914, will govern between Rose and Kennedy.

7. MEETING POINTS AT ENDS OF DOUBLE TRACK.

Meeting points are shown at ends of double track when the difference between the times of opposing trains is eight (8) minutes or less.

8. LOCATION OF YARDS.

Yards are located as follows:

Ravinia Park Yards.

From a point three hundred (300) feet south of the south crossover to a point three hundred (300) feet north of the north crossover.

Highwood Yards.

From a point three hundred (300) feet south of Highwood Ave. to a point five hundred (500) feet north of Sheridan crossover.

North Chicago Yards.

From a point five hundred (500) feet south of the Naval Station switch to a point five hundred (500) feet north of the Valley Jct. switch, and from Valley Jct. south on the west line cut-off to Green Bay Jct., and from N. Chicago Jct. north on the east line through Waukegan.

Milwaukee Yards.

From the north end of Filer & Stowell Trestle north.

9. SLOW ORDERS AND SAFETY STOPS.

(a) **General.**—Weather conditions, places and circumstances will always be taken into consideration in determining the speed of trains. Trainmen are required to use good judgement in this respect even though the case is not covered by the rules or special instructions. Fast schedule time between any two points is not license to operate trains faster than allowed by good judgment, the rules or special instructions.

(b) **At Gauntlet in Glencoe.**—All trains will approach and run through the gauntlet track at Glencoe under full control. Should opposing regular trains approach this gauntlet at the same time the north bound will wait for the south bound except that locals will wait for limiteds.

(c) **Approaching Crossovers.**—All trains will approach crossovers under control expecting to find the track obstructed. This does not relieve trainmen from using necessary protection when crossing over.

(d) **Spring Switches.**—Trains running over facing point spring switches will be kept under such control as will enable them to be stopped at once should switches split. Trains will not exceed fifteen (15) miles per hour when running through trailing spring switches set for other tracks.

(e) **Signal Trolley Switches.**—Trains must not exceed ten (10) miles per hour at block signal trolley switches.

(f) **Over Railroad Crossings.**—Trains will not exceed fifteen (15) miles per hour when passing over railroad crossings or between the derails at interlocking. Full stops will be made before running over unprotected crossings.

(g) **Trestles.**—At following trestles: St. Francis Cut-off and Bottom St., trains must coast across these trestles not faster than fifteen (15) miles per hour.

(h) Trains will not exceed a speed of twenty-five (25) miles per hour between Rose and Kennedy.

Except when necessary to prevent accident, the whistle will not be sounded in Milwaukee or Waukegan on east line. All signals to stop or start the train will be answered either by gong or whistle. Except where forbidden the road crossing whistle must be sounded as the train approaches each crossing. This includes the road crossings south of Highwood as well as the crossings north of Highwood.

12. LIBERTYVILLE CONNECTIONS, ETC.

16. TRAINS TWO HOURS LATE.

Any train becoming two hours late will lose both right and class and cannot thereafter proceed except by train order. See Note 3, Page 18.

17. CURRENT OF TRAFFIC.

On double track and between Rawson and Grange, trains will use right hand track, except as provided by Notes 1 and 4, pages 17 and 19.

18. DELAYING OTHER TRAINS.

As soon as it becomes apparent that any train will delay another at meeting point the dispatcher must be notified at the first available telephone. An inferior train unable to make a scheduled meeting point will call the dispatcher for orders.

19. FUSEES.

A fusee burning red, on or near the track, may be passed only after the train has remained at full stop for one minute, and the train will then proceed under control until the obstruction is passed, or until a clear signal is reached. Fusees will not be sufficient protection against superior trains.

20. RIGHT, CLASS AND DIRECTION.

A train may be made superior to another train by Right, Class or Direction. Right is conferred by train order; Class and Direction by time table. Right is superior to Class and Direction. Direction is superior between trains of the same class on single track only as specified.

21. MILWAUKEE CONNECTIONS.

The following trains on the Milwaukee Division will start from North Chicago Junction: Nos. 5, 9, 11, 13, 15, 21, 23 and will wait for connections with Nos. 5, 113, 11, 13, 15, 21, 23 on Evanston Division, which will run through to Waukegan.

The following trains on the Milwaukee Division will run as far as North Chicago Junction: Nos. 8, 10, 14, 16, 18, 24, making connections with Nos. 8, 10, 14, 16, 18, 24, at North Chicago Junction. These trains will start from Waukegan on Evanston Division. All other trains shown on Evanston-Milwaukee Division will run through. North bound trains on Evanston Division, making connections for Milwaukee will display Milwaukee local signs.

22. REGISTERING AT NORTH CHICAGO JUNCTION.

The above trains on Evanston Division North bound will register arriving time and Milwaukee trains will register leaving time. The south bound trains on Milwaukee Division will register arriving time and Evanston Division train will register leaving time. All extra trains are required to see that both trains have registered.

23. SINGLE TRACK.

The South or East bound track will be used as single track between Lake Bluff Jct. and end of double track on Libertyville Division.

24. OPERATOR AT CARROLLVILLE.

No train will leave the end of double track at Carrollville without clearance from Operator, Form 179 (Green). If Operator has no orders for the train and there are no overdue southbound trains, he will place two copies of clearance on train order hoop and hold in plain view so that train need not stop. Conductor will come forward when approaching Carrollville, so that both Motorman and Conductor may examine clearance at once to make sure that there are no overdue southbound trains of the same or superior class and that Operator has no orders for their train. Conductor and Motorman must each have a copy.

Should the Operator have orders for a northbound train he will not deliver clearance until Conductor has repeated and received complete on all such orders. The numbers of such orders must be shown on Clearance. If the Operator has no orders for a train, the word

"None" must be written in proper space; otherwise the Clearance is not valid.

Should the Operator not have any orders for a northbound train and yet some southbound train or section is overdue, the northbound train must be stopped before Clearance is delivered. All overdue southbound trains or sections, not more than two hours late, must be shown by numbers on Clearance even if Operator knows them to be annulled or running on time orders. If there are no overdue southbound trains or sections, the word "None" must be written in proper space; otherwise the Clearance is not valid.

25. REGISTER CHECK.

Conductor on each southbound train will fill out Register Check, Form 180, and throw off to Operator at Carrollville.

Train order hoops must be returned to Carrollville by southbound trains.

26. OPERATOR'S TRAIN REGISTER.

Operators at Carrollville will keep an accurate record in ink on Train Register as prescribed in Special Rule 3. This must show complete information concerning all trains in both directions.

27. TRAIN ORDER SIGNAL AT HIGHWOOD.

Train order signal will be used by Dispatcher at Highwood. The semaphore that governs is displayed to the right of the signal mast as seen from an approaching train. The horizontal position indicates "Stop." The inclined position indicates "Proceed."

A train must not pass Dispatcher's Office unless signal indicates proceed. If signal indicates "stop" motorman will whistle for "proceed" signal and if it is not given train must be stopped and Conductor will report to Dispatcher by telephone.

Conductors on first class trains starting from Highwood must, before leaving, report to Dispatcher and ascertain if he has orders for them and if all trains and sections, which are due, have arrived. Lower class and extra trains starting from Highwood or passing Highwood must not leave without written clearance from Dispatcher.

28. CROSSING BELLS AND GATES.

Trains will keep far enough apart so as to allow the head trains to cut out the road crossing signal before the rear train cuts in, but should a train cut in before another train cuts-out the rear train must approach crossing with train under absolute control, or if a train cuts in and the signal does not work the train must approach crossing under absolute control.

Where gates are maintained, motorman must not cross street or road crossing before coming to a full stop unless all the gates arms are down. And if gatemen do not lower gates in time, a written report must be made to Superintendent's office.
