FIRST CLASS

Special Rules

1. PASSING POINTS.

At passing points between trains of the same class the train to be passed may proceed before the arrival of the following train on verbal orders from the dispatcher, and the following train will run, expecting to find the other ahead, but limiteds must not be delayed. Local trains must in all cases avoid delay to limiteds. Should a local train be unable to reach scheduled passing point in time to avoid delay to a following limited, it will allow the limited to pass before reaching such point, without orders from the dispatcher.

2. REGISTERING.

All trains will register at Evanston, N. Chicago Jct. and Harrison. The register must show the date at top of page, the train number, car number, arriving time, kind of signals carried at any time on the train, and the points from and to which signals were carried, and will be signed in the proper place by the senior conductor. If the train stays at the register station longer than two (2) minutes, both the arriving and leaving time will be shown on register. Otherwise, the arriving time only. Harrison is the initial station for trains running out of Milwaukee, and N. Chicago Jct. is the initial station for trains running from Waukegan. All trains will report to dispatcher at register stations unless telephone line is out of order. Extra trains are required to report in any event before leaving. All regular trains running on Libertyville Branch will register at Lake Bluff Jct.

3. TEMPORARY SINGLE TRACK.

When temporary single track is established, no train of any class or direction may leave the end of double track without train orders, unless accompanied by pilot authorized by dispatchers.

4. MOVEMENT OF TRAINS IN YARDS.

All trains will approach and pass through yards under control, expecting to find the track obstructed. Yard motors and extra trains may make movements inside yards on verbal orders from the dispatcher, and the above instructions will not apply inside yards, neither will such motors or trains, when inside yards be required to clear the time of regular trains as required outside of yards. They will, however, avoid delay to regular trains and will use such protection as may be necessary.

5. NACHOD AUTOMATIC SIGNALS TYPE M. D. GOVERNING OPERATION BETWEEN ROSE AND KENNEDY.

Terms used in the operation of these signals are: "SIGNAL" is the box or case containing the DISCS (the day indication) and LIGHTS (the night indication). The CONTACTOR is the device which operates the signal and is placed overhead in the trolley line. In order to actuate signal there must be power in the trolley wire and the trolley wheel must touch the contactor, but the controller handle may be in any position.

The operation of the signal is as follows:

1. The NEUTRAL signal, no LIGHT and no DISC indicates that the track is clear in the block ahead.

2. If upon approaching the contactor the signal shows NEUTRAL the passage of the car under the contactor will cause a WHITE DISC and WHITE LIGHT to appear. This is termed the PERMISSIVE SIGNAL and indicates that the other end of the block is protected by a RED DISC and a RED LIGHT, termed the STOP signal. The change to the PERMISSIVE signal gives the authority to continue through the block. The STOP signal means to stop and stay behind the contactor until the signal returns to NEUTRAL.

3. If upon approaching the contactor a WHITE DISC and a WHITE LIGHT (The Permissive Signal) is already showing, it indicates that the block is occupied by one or more cars moving in the same direction and the train receiving this signal may proceed with caution into the block expecting to find a train ahead. As the car passes under the contactor the WHITE DISC and WHITE LIGHT will momentarily disappear and reappear again, showing that the car is properly counted in. It is very important that this "blink" be observed. If the signal does not "blink" it must be regarded as a STOP signal.

4. One or more cars up to fourteen may follow into the block and it will be necessary that the same number pass out at either or both ends of the block before the signal will again indicate a clear track.

5. When two trains enter the block from opposite ends, passing under the contactor at the same instant, both signals will show "STOP." In this case the north bound train must back out of the block when the signals will be set properly for the train in the block which will go forward upon receiving the PERMISSIVE signal.

6. The signals work in pairs and are controlled by the trolley wheel passing through the contactor. The instant a car passes under the contactor to enter the block the result upon the signal must be noted by the motorman. When it leaves the block the conductor will see that the trolley has passed through contactor and will give two bells before proceeding. The trolley of each car in train must pass through the contactor. In case trolley should leave wire before the car counts out under contactor the car will back under contactor with trolley pulled down and go forward again with trolley up. This operation must be reported to the Dispatcher at once.

7. A car having entered the block past a contactor has been counted in and must pass out under a contactor again in order to be counted out of block.

8. If for any reason, the signal fails to change from NEUTRAL to PERMISSIVE in entering the block then the STOP signal will not have been set at other end of block. In such a case the car should back under contactor and go forward again. If not successful the Dispatcher must be called for orders.

9. If a train is held unduly by a STOP signal such as would be left by preceding car failing to pass under the contactor in leaving the block, Dispatcher must be called for orders. Upon receiving a train order authorizing the train to proceed, one car must be run past the contactor with the trolley down and backed over it with the trolley up before the train proceeds.

10. The RED DISC will show in the absence of power on the line and no train must pass a contactor to enter the block when signal shows RED.

11. In addition to calling Dispatcher for train orders the crew must report in writing to this office any failure to obtain a PERMISSIVE signal, any failure to clear block with no car following, any case of having to run against a STOP signal (giving train order number) and the absence of burning out of any signal light.

12. The signal at this block is so arranged that all switching movements will be taken care of automatically without avoiding the contactor, but care must be exercised in switching cars at a point where a contactor is located in order to avoid tying up the block indefinitely. If a car touches contactor by mistake it must pass clear through the contactor and back again to leave the signals as before its entrance, or, if in switching it has entered the block without intending to go through it must back out again under either contactor to clear the signals.

13. A car must not be stopped or a trolley replaced on the wire when under the contactor.

14. A train must not enter the block without a proper train order when:

(A) Red Light or Signal is displayed.

(B) Signal remains NEUTRAL after car has passed through contactor.

(C) In case PERMISSIVE Signal is displayed before contactor is reached, when signal does not "blink" as car passes through contactor.

15. In order to avoid delay to Limiteds a local train will not pass under contactor when a Limited is due or overdue without verbal permission from the Dispatcher in case he can be reached.

7. MEETING POINTS AT ENDS OF DOUBLE TRACK.

Meeting points are shown at ends of double track when the difference between the times of opposing trains is five (5) minutes or less.

8. LOCATION OF YARDS.

Yards are located as follows:

Ravinia Park Yards.

From a point three hundred (300) feet south of the south crossover to a point three hundred (300) feet north of the north crossover.

Highwood Yards.

From a point three hundred (300) feet south of Highwood Ave. to a point five hundred (500) feet north of Sheridan crossover.

North Chicago Yards.

From a point five hundred (500) feet south of the Naval Station switch to a point five hundred (500) feet north of the Valley Jct. switch, and from Valley Jct. south on the west line cut-off to Green Bay Jct., and from N. Chicago Jct. north on the east line through Waukegan.

Waukegan Yards.

Five hundred (500) feet each way, north and south, from Edison Ct. switch, and on Electric Park line.

Milwaukee Yards.

From Oklahoma Ave. north.

9. SLOW ORDERS AND SAFETY STOPS.

(a) **General.**—Weather conditions, places and circumstances will always be taken into consideration in determining the speed of trains. Trainmen are required to use good judgement in this respect even though the case is not covered by the rules or special instructions. Fast schedule time between any two points is not license to operate trains faster than allowed by good judgment, the rules or special instructions.

(b) **At Gauntlet in Glencoe.**—All trains will approach and run through the gauntlet track at Glencoe under full control. Should opposing regular trains approach this gauntlet at the same time the north bound train will have the right of track. In foggy or stormy weather, when motormen are unable to see clearly the opposite end of gauntlet, they must bring train to full stop and listen for the approach of an opposing train, and if no train is in hearing distance, they will give one long blast of the whistle and proceed under such control that train can be stopped immediately, if an opposing train should come in sight.

(c) **Approaching Crossovers.**—All trains will approach crossovers under control expecting to find the track obstructed. This does not relieve trainmen from using necessary protection when crossing over.

(d) **Spring Switches.**—Trains running over facing point spring switches will be kept under such control as will enable them to be stopped at once should switches split. Trains will not exceed fifteen (15) miles per hour when running through trailing spring switches set for other tracks.

(e) **Signal Trolley Switches.**—Trains must not exceed ten (10) miles per hour at block signal trolley switches.

(f) **Over Railroad Crossings.**—Trains will not exceed fifteen (15) miles per hour when passing over railroad crossings or between the derails at interlocking. Full stops will be made before running over unprotected crossings.

(g) **Trestles**—

St. Francis cut off trestle trains must not exceed a speed of fifteen (15) miles per hour while crossing.

Bottom Street Trestle trains must come to a full stop at least 100 feet from the approach to the trestle, and must not exceed a speed of five (5) miles per hour while crossing.

Twenty-five (25) miles per hour past Masterson's crossing, Camp Perry.

Ten (10) miles per hour between Naval Station crossover and Great Lakes Station.

10. SPEED RESTRICTIONS IMPOSED BY STATE, CITY OR VILLAGE AUTHORITY.

Wilmette—Eight (8) miles per hour across streets. Fifteen (15) miles per hour on Greenleaf Ave., five (5) miles per hour across Linden Ave., Wilmette Ave., Central Ave. and Lake Ave.

Kenilworth—Fifteen (15) miles per hour on the streets. Five (5) miles per hour across streets. Full stop at Kenilworth station.

Winnetka—Fifteen (15) miles per hour on the streets. Eight (8) miles per hour across streets. Fifteen (15) miles per hour past Indian Hill and Sunset Station between the hours of 8:30 a. m. and 9.30 a. m. and between 11:30 a. m. and 1:30 p. m. and between 3:30 p. m. and 4:30 p. m. on school days.

Hubbard Woods—Fifteen (15) miles per hour on Hubbard St. Five (5) miles per hour across Hiawatha Ave.

Glencoe—Full stop just before crossing Park Ave. Eight (8) miles per hour across Lincoln Ave.; twenty-five (25) miles per hour across Green Bay Road.

Ravinia—Eight (8) miles per hour across Roger Williams Ave.

Highland Park—Eight (8) miles per hour across Lincoln Ave. Full stop just before crossing Laurel Ave. South bound trains four (4) miles per hour across, and north bound trains, full stop just before crossing Central Ave.

Highwood—Twenty (20) miles per hour across Highwood Ave. and Washington Ave.

Lake Forest—Fifteen (15) miles per hour across Deerpath Avenue and Westminster Avenue.

Lake Bluff—Ten (10) miles per hour across streets running into C. & N. W. station.

Zion—Between the hours of 8:00 a. m. and 9:00 a. m. all trains will approach and cross 21st St. under control.

Kenosha—Fifteen (15) miles per hour across Salem Ave., Selick Ave., Prairie Ave. and Grand Ave.

Racine—Trains must not exceed twenty (20) miles per hour across streets.

Milwaukee—Series only on the street and four (4) miles per hour at all fire crossings.

11. WHISTLING.

Except when necessary to prevent accident, the whistle will not be sounded in Milwaukee or Waukegan on east line. All signals to stop or start the train will be answered either by gong or whistle. Except where forbidden the road crossing whistle must be sounded as the train approaches each crossing. This includes the road crossings south of Highwood as well as the crossings north of Highwood.

12. LIBERTYVILLE CONNECTIONS, ETC.

The following trains will connect with the Libertyville trains: Trains due at Lake Bluff at 5, 18, 23, 53 and 58 minutes past the hour northbound, and 25, 27, 47 and 55 minutes past the hour southbound will make connections with Libertyville trains due at Lake Bluff at 15 and 45 minutes past the hour.

Train No. 29 will make connection with train No. 372 on Libertyville Division.

13. MEETING AND PASSING POINTS.

Meeting and passing points are indicated on this time-table by figures in full face type. Small figures above such time indicate the train or trains to be met, and small figures below indicate the train or trains to pass or be passed.

14. ON LINES OF OTHER COMPANIES.

Trainmen while on the lines of the Northwestern Elevated R. R. Co. and the Chicago and Milwaukee Electric Railway will be subject to the rules of those companies.

15. STOPS ON DAILY LIMITED TRAINS.

CHICAGO:

Randolph and Wells. To discharge passengers from Wilmette and limited stations north.

Madison and Wells. To discharge passengers from Wilmette and limited stations north.

Quincy and Wells. To discharge passengers from Wilmette and limited stations north.

LaSalle and Dearborn. To discharge passengers from Wilmette and limited stations north.

State and Dearborn. To discharge passengers from Wilmette and limited stations north.

Adams and Wabash. To discharge and pick up passengers to and from Wilmette and limited stations north.

16. STOPS ON WAUKEGAN-CHICAGO LIMITED TRAINS AND SATURDAY AND SUNDAY ONLY MILWAUKEE LIMITED TRAINS.

Church St., Central St., Linden Ave., 4th St., 6th St., 8th St., 10th St., Wilmette Ave., Kenilworth, Indian Hill, Elm St., Winnetka, Hubbard Woods Station, Park Ave., Glencoe, Ravinia Station, Central Ave., Highland Park, Highwood Ave., Highwood, Guard House Station, Ft. Sheridan, Deerpath Ave., Lake Forest, Lake Bluff, Masterson's, Great Lakes, North Chicago Jct., Edison Court.

When running through on Saturday and Sunday—Zion, Kenosha, Racine and regular limited stops in Milwaukee.

17. TRAINS TWO HOURS LATE.

Any train becoming two hours late will lose both right and class and cannot thereafter proceed except by train order.

18. CURRENT OF TRAFFIC.

On double track, trains will use right hand track, except as provided by Notes 1 and 2, page 19; Note 5, page 20; Note 6, page 26.

19. DELAYING OTHER TRAINS.

As soon as it becomes apparent that any train will delay another at meeting point the dispatcher must be notified at the first available telephone. An inferior train unable to make a scheduled meeting point will call the dispatcher for orders.

20. FUSEES.

A fusee burning red, on or near the track, may be passed only after the train has remained at full stop for one minute, and the train will then proceed under control until the obstruction is passed, or until a clear signal is reached. Fusees will not be sufficient protection against superior trains.

21. RIGHT, CLASS AND DIRECTION.

A train may be made superior to another train by Right, Class or Direction. Right is conferred by train order; Class and Direction by time table. Right is superior to Class and Direction. Direction is superior between trains of the same class on single track only as specified.

22. MILWAUKEE CONNECTIONS.

The following trains on the Milwaukee Division will start from North Chicago Junction: Nos. 5, 7, 9, 11, 13, 15, 17, 21, 23, 25, 27, and will wait for connection with Nos. 101, 107, 115, 121, 133, 145, 161, 173, 185, 197, 209 on Evanston Division.

The following trains on Milwaukee Division will run as far as North Chicago Junction: 4, 8, 10, 12, 14, 16, 18, 22, 24, 26. Northbound trains on Evanston Division making connections for Milwaukee will display Milwaukee local signs.

23. REGISTERING AT NORTH CHICAGO JUNCTION.

The above trains on Chicago Division North bound will register arriving time and Milwaukee Division train will register leaving time. The south bound trains on Milwaukee Division will register arriving time and Chicago Division train will register leaving time. All extra trains are required to see that both trains have registered.

24. SINGLE TRACK.

The South or East bound track will be used as single track between Lake Bluff Jct. and Libertyville and North or West bound track between Libertyville and end of double track on Libertyville Division. Schedule trains on Libertyville Division will use North or West bound track between Green Bay Jct. and Lake Bluff Station except trains 301, 303, 362 and 372.

25. TRAIN ORDER SIGNALS AT HIGHWOOD.

The lights governing the north bound trains are placed east of the main line and the lights governing the south bound trains are placed west of the main line. The white signal light will indicate "clear" or "proceed." The red signal light will indicate "stop." In case neither red nor white is shown, it will indicate "stop," the same as though red was shown.

Motorman must not pass signal unless signal indicates "proceed." If signal indicates "stop," motorman will whistle for "proceed" signal, and if it is not given, train must be stopped and conductor will report to Dispatcher by telephone.

Conductors on all trains starting from Highwood, must, before leaving, report to Dispatcher and ascertain if he has orders for him, and if all trains and sections which are due have arrived.

26. CROSSING BELLS AND GATES.

Trains will keep far enough apart so as to allow the head trains to cut out the road crossing signal before the rear train cuts in, but should a train cut in before preceding train cuts-out the rear train must approach crossing with train under absolute control, or if a train cuts in and the signal does not work the train must approach crossing under absolute control.

Where gates are maintained, motorman must not cross street or road crossing before coming to a full stop unless all the gate arms are down. And if gatemen do not lower gates in time, a written report must be made to Superintendent's office.

27. MAIL TRAINS.

NORTH BOUND

No. 7 between North Chicago Jct. and Milwaukee, due at Milwaukee at 9.28 a. m.
