Sunday Schedule will be operated on New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.

SPECIAL INSTRUCTIONS

The following letters when placed before the figures of the schedule, or in the schedule column where no time is shown, indicate:

A.—Arrive;
b.—regular stop, Saturday only;
c.—regular stop, Sunday only;
d.—regular stop, Saturday and Sunday only;
e.—flag stop, Saturday only;
f.—flag stop to receive or discharge traffic; at flag stops trains will stop, except that when it is known that there are no passengers to be discharged, and conductor has given proceed signal, and no passengers are waiting at the station, trains may proceed without stopping;
g.—flag stop, Sunday only;
J.—regular stop, daily except Sunday;
k.—regular stop, daily except Saturday and Sunday;
L.—leave;
m.—regular stop, daily except Saturday;
n.—trains do not stop, or where no time is shown trains do not stop;
s.—regular stop;
u.—stop for Towermen;
v.—stop to discharge passengers from Howard Street and points south;
w.—time applies Saturday and Sunday only;
y.—time applies Sunday only.

The following letters when placed above the train numbers, indicate:

B.—carries baggage car;
b.—baggage train, but no baggage car;
S.—rear car used as smoker, daily except Sunday, when three or more cars;
SS.—rear car used as smoker, daily except Sunday, when two or more cars;

Company Mail trains will be designated by Bulletin

GENERAL INFORMATION

All persons entering into, or remaining in the employ of this Company, are warned that this is an ELECTRIC RAILROAD, and that it is operated by HIGH VOLTAGE TRANSMISSION AND TROLLEY WIRES. Employes are positively forbidden from touching or in any manner putting themselves in personal contact with THESE HIGH VOLTAGE WIRES.

If it becomes necessary for an employe, in the discharge of his duty, to pass in proximity to these HIGH VOLTAGE WIRES, he is hereby warned against the dangers attending personal contact with them.

Particular attention is called to the poles and wires used in the electric operation of trains. These may become displaced from the action of the elements or by the reason of failure of some mechanical part, and when out of place are a source of danger.

Employes must exercise care to avoid injury to themselves or others by observing the condition of equipment and the tools which they use in performing their duties and when found defective will, if practicable, put them in safe condition, reporting defects to the proper authority.

They must expect trains to run any time, on any track, in either direction.

They must not stand on the track in front of an approaching engine or car for the purpose of boarding the same.

Employes are warned that on the road, at stations, in yards and on industrial tracks there are buildings, structures and obstructions which, owing to local conditions or requirements do not give clearance to men on top or side of car.

They must familiarize themselves by personal observation with these conditions existing in the district in which they are employed, so that risk of injury may be prevented. Employes must exercise great care in this respect.

During foggy or stormy weather motormen must not make up time, but take extraordinary precaution at stations, switches and junction points. Fast schedule time is not license to operate trains faster than allowed by good judgment, the rules, or special instructions. During foggy or stormy weather freight and switching movements should be kept off the Main lines so far as practicable and when necessary, full protection must be provided by flagman. Under conditions above mentioned delays are expected and it should be understood by all that SAFETY is the first consideration.

SPECIAL RULES

1. LOCATION OF STANDARD CLOCKS AND BULLETIN BOARDS

Place	Standard Clock	Bulletin Board
Milwaukee Terminal Trainmen's Room;		X
Edison Court Switch Shanty;		X
Tenth Street Shore Line Terminal	X	X
Pettibone Yard (Great Lakes) Trainmen's Room;	X	X

2. SUPERIOR DIRECTION.

South and eastbound trains are designated as southbound trains.

North and westbound trains are designated as northbound trains.

Southbound trains are superior to northbound trains of the same class, unless otherwise provided.

3. DOUBLE AND SINGLE TRACK.

Double track is operated on all divisions, except as follows:

(a) Single track between Austin and Oklahoma, trains operate on signal indications, except as provided in Special Rule 16(d) (e) and (f).

(b) Single track between the switch at Green Bay Road and Lake Bluff Jct. using north or westbound track. The section of southbound track adjoining this single track may not be used by trains except by permission from the train dispatcher.

(c) Single track Gauntlet over bridge south of Glencoe Station, Shore Line.

(d) When temporary single track is established where double track is normally operated, trains may not enter the single track without orders from the Pilot, and in the absence of the Pilot, without orders from the train dispatcher.

(e) On double track, trains will use right hand track.

4. TRAIN ORDERS.

Unless otherwise provided extra trains must not be run without train orders. Extra trains will run with the current of traffic without train orders between Waukegan and Chicago on the Shore Line, Skokie and Chicago on the Skokie Valley Line, and between Harrison Street and Milwaukee Terminal.

5. REPORTING STATIONS.

CHICAGO—Northbound Skokie Valley trains and all extra trains will report before leaving. All southbound regular trains will report delays or unusual occurrences enroute. All southbound extra trains will report.

HIGHWOOD—Northbound trains destined beyond Fort Sheridan will report.

NORTH SHORE OFFICE—Northbound trains destined to North Shore Office or Fort Sheridan will report. Southbound trains scheduled to stop will report.

NORTH CHICAGO JCT.—All trains scheduled to stop will report.

MILWAUKEE—All trains will report.

LAKE BLUFF—All trains on Lake Bluff-Mundelein Division will report.

MUNDELEIN—All trains will report.

SPECIAL RULES—Continued.

6. TRAIN MOVEMENTS.

(a) Regular trains becoming two hours late lose both right and class and cannot thereafter proceed except by train order. On double track trains may proceed until communication can be had with the train dispatcher.

(b) Local trains between North Chicago Jct. and Milwaukee will avoid delay to limited trains, and when delayed, may allow a following limited to pass without orders from the train dispatcher, but will notify the train dispatcher at the first communicating station.

(c) Extra trains on the Milwaukee, Skokie Valley and Lake Bluff Mundelein Division must clear the time of all first class trains five (5) minutes.

(d) All trains on the Shore Line Division, except in automatic block signal territory, must be run at speeds which will permit stopping within the motorman's range of vision. Care must be used when approaching, running on, or leaving city streets.

(e) All trains pulling out of sidings or yards, or crossing over from one main track to another, must first be protected as prescribed by Rule 172.

(f) Except where station platforms are elevated, or separated by a continuous fence, a train approaching a station which is occupied by a passenger train will stop outside the station until the other train has passed, except that where there is an opening in the fence for pedestrians an opposing train may enter the station, but must stop short of the pedestrian crosswalk.

(g) Trains will not enter a station when an opposing train not scheduled to stop is approaching station, until the opposing non stop train has passed the station. When conditions require trainmen must warn passengers against an approaching non stop train.

7. YARDS AND YARD INSTRUCTIONS.

Yards indicated by yard limit boards are located as follows:

HIGHWOOD—300 feet south of Highwood Avenue to 500 feet north of Ft. Sheridan crossover;

SOUTH UPTON—500 feet south of Kelly's crossover to and including Lake Bluff station (Skokie Valley) and from South Upton Jct. to South Upton Tower and from Green Bay Road viaduct to 200 ft. W. of Bradley Road.

NORTH CHICAGO—500 feet south of north transfer track switch at Downeys (Skokie Valley) to 500 feet north of Valley Jct. including west line cut off, and 500 feet south of facing point switch at Downeys (Shore Line) to all points north on Shore Line;

EDISON COURT—500 feet south of southbound switch south of Glen Rock Ave. to 1400 feet north of Washington Street;

KENOSHA—500 feet south of south switch at freight house to 500 feet north of 52nd Street crossover;

RACINE—500 feet south of Sorensen's crossover to 500 feet north of Racine crossover;

MILWAUKEE—500 feet south of facing point switch at Oklahoma, to Milwaukee Terminal.

MUNDELEIN—300 feet south of St. Mary's Crossover to end of tracks in Mundelein.

Within yard limits the main track may be used, protecting against first class trains.

Extra trains must move within yard limits prepared to stop unless the main track is seen or known to be clear.

8. FUSEES AND TORPEDOES:

(a) A train finding a fusee burning on or near its track must stop and will then proceed at RESTRICTED SPEED.

(b) The explosion of one torpedo is a signal to stop, the explosion of two torpedoes not more than 200 feet apart is a signal to reduce speed and look out for danger or danger signal.

(c) In passenger cars a supply of fusees and torpedoes must be kept in cases provided; in freight service in cabooses and in engines in tool boxes.

(d) Trainmen must not place lighted fusees or torpedoes on bridges, culverts, poles, or near station platforms.

9. WHISTLING.

At all crossings where the sounding of the whistle is not forbidden the regular crossing whistle will be sounded, timing the last blast so the whistle is sounded when the train crosses the crossing.

Except when necessary to prevent accident the whistle will not be sounded in Wilmette, Kenilworth, and Milwaukee, and at other points which may be specified. Northbound trains and southbound non-stop trains will sound whistle approaching Lincoln Ave., Highland Park.

10. FLAGGING. RULE NO. 172.

(a) When a train stops or is delayed under circumstances in which it may

SPECIAL RULES—Continued.

10. FLAGGING. RULE NO. 172—Continued.

be overtaken by another train, the flagman must go back immediately with stop signals not less than 2,000 feet or 20 poles on straight track, and in clear weather and where he can have an unobstructed view of an approaching train at least 1,000 feet farther, and place one torpedo on rail on motorman's side or before if train is approaching and will remain there until recalled or train has arrived and stopped. At night, in foggy or stormy weather he will place a burning red fusee in the center of the track five hundred feet back of the rear of the train and will go back at least 2,000 feet farther.

When recalled he may return after placing a second torpedo on the rail two hundred feet from the first one, if no train is due within five minutes. If so, he must remain until it has been stopped. Upon returning to his train he will place a burning red fusee in the center of the track five hundred feet behind the rear of the train. The front of a train must be protected by the motorman in the same manner when necessary.

(b) At night or in foggy or stormy weather should a train be thrown off schedule under circumstances in which it may be overtaken by another train a burning fusee must be thrown off to insure safety.

(c) When a train is going to take a siding or crossover to let another train pass, it will throw off a burning red fusee at least two thousand (2,000) feet back of said siding or crossover.

11. SWITCH INDICATORS.

Switch indicators are installed on all switches in automatic block signal sections. Before a switch is opened, the switch indicator must be used to see whether or not the block is occupied. Blueprint instructions posted inside the door of clock-work type indicators must be followed. Indications displayed do not relieve Motormen and Trainmen from protecting their trains as required by the rules.

12. DEFINITIONS.

MEDIUM SPEED.—A speed not exceeding 30 miles per hour.

RESTRICTED SPEED.—Proceed prepared to stop short of train, obstruction, or switch not properly lined and to look out for broken rail.

AUTHORIZED SPEED.—Speed authorized by Time Table, Bulletin or Dispatcher.

13. AUTOMATIC BLOCK SIGNALS.

The following sections of track are provided with automatic block signals:

Howard Street to 600 feet south of North Chicago Junction on Skokie Valley Division;

From 142 feet north of 22nd Street, West Line, North Chicago, to Kenosha Interlocking;

Ryan Interlocking to Harrison Street, Milwaukee;

1800 feet north of Kenilworth, to 1000 feet south of South Avenue, Glencoe, Shore Line Division.

All automatic block signals are equipped with number plates.

Indications for Automatic Block Signals, except last signal in each section:

GREEN
Indication—Proceed
Name —Clear

YELLOW
Indication—Proceed preparing to stop at next signal. Train exceeding medium speed must at once reduce to that speed.
Name —Approach

RED
Indication—Stop, then proceed at restricted speed through block.
Name —Stop and proceed.

Indications for last Automatic Block Signal in each location:

The last Automatic Block Signal in each section is equipped with number plates and a sign "E".

YELLOW
Indication—Proceed; Track is clear to end of automatic block circuit only. Track ahead is not protected by automatic block signals.
Name —Caution

RED
Indication—Stop, then proceed at restricted speed to end of block zone, which is indicated by a sign "END OF BLOCK ZONE".
Name —Stop and proceed

SPECIAL RULES—Continued.

14. MANUAL BLOCK SIGNALS.

Manual Block System Rules Nos. B305 to B308h incl., B311 to B316 incl., B318 to B319 incl., B321 to B322 incl., B325 to B329 incl., B333 to B337 incl., B339 to B344 incl., B361 to B365 incl., and B370 to B372 incl., govern train movements between Kenosha and Ryan. Signals governing the use of the blocks are located opposite the interlocking towers at Kenosha, Racine and Ryan.

Indications for Manual Block Signals:

GREEN over RED
Indication—Proceed
Name —Block clear

RED over RED
Indication—Stop
Name —Stop; block occupied

15. INTERLOCKING SIGNALS.

(a) Approach Signals

Approach signals not incorporated in automatic block sections are placed in advance of home signals and regulate the approach thereto as follows:

South Upton—Southbound and Northbound
Lake Bluff—Mundelein Div.
Ryan —Northbound
Racine —Southbound and Northbound

Indication for Approach Signals

GREEN
Indication—Proceed to Home Signal.
Name —Clear signal.

YELLOW
Indication—Proceed preparing to stop at Home Signal. Train exceeding medium speed must at once reduce to that speed.
Name —Caution signal.

(b) Home Signals

Indication for Home Signals

GREEN over RED
Indication—Proceed
Name —Clear

YELLOW over RED
Indication—Proceed preparing to stop at next signal or through interlocking limits. Train exceeding medium speed will at once reduce to authorized speed.
Name —Approach

RED over YELLOW
Indication—Proceed on diverging route preparing to stop at next signal. Train exceeding medium speed will at once reduce to authorized speed.
Name —Approach restricting.

RED over RED
Indication—Stop.
Name —Stop

GREEN over RED over RED
Indication—Proceed
Name —Clear

YELLOW over RED over RED
Indication—Proceed preparing to stop at next signal. Train exceeding medium speed will at once reduce to that speed.
Name —Approach

RED over RED over YELLOW
Indication—Proceed at restricted speed.
Name —Restricting

RED over RED over RED
Indication—Stop
Name —Stop

(c) Dwarf Home Signals

Indications for Dwarf Home Signals:

YELLOW
Indication—Proceed at restricted speed.
Name —Restricting

SPECIAL RULES—Continued.

(c) Dwarf Home Signals—Continued.

Indications for Home Signals.

RED
Indication—Stop
Name —Stop

16. AUSTIN-OKLAHOMA BLOCK RULES.

(d) Northbound signal at Austin and southbound signal at Oklahoma, Milwaukee, are 3-indication color light type over RED indication signals and are positive blocks for all trains.

(e) When a train is stopped by a stop-indication it must stay until authorized to proceed, and will then proceed at restricted speed, or in case of failure of means of communication it may proceed when preceded by a flagman to the next signal displaying a proceed indication.

(f) The section of the northbound track for a distance of 1500 feet south of Signal No. 805 is an approach locking circuit for the Austin-Oklahoma block and the cut-in point is designated by a sign reading: "start of approach locking for single track". Trains must not occupy this section of the track when a regular southbound train is due in the block except by permission of the Train Dispatcher.

17. INTERLOCKING SIGNALS AND PLANTS. Railroad crossings at grade protected by interlocking are as follows:

Location	Name
C. & N. W. Ry. Co. Crossing, Lake Forest, Illinois	Tower K.O.
C. & N. W. Ry. Co. Crossing, West Lake Bluff, Illinois	South Upton
C. & N. W. Ry. Co. Crossing, Kenosha, Wisconsin	Kenosha
C. M. St. P. & P. Ry. Co. Crossing, Racine, Wisconsin	Racine
C. & N. W. Ry. Co. Crossing, Rawson, Wisconsin	Ryan

18. (a) A signal imperfectly displayed, or the absence of a signal at a place where a signal is usually shown, must be regarded as the most restrictive indication that can be given by that signal, except that when the day indication is plainly seen, it will govern.

(b) A signal imperfectly displayed or the absence of a signal at a place where a signal is usually shown, must be promptly reported to the Train Dispatcher.

(c) Trains or engines must not pass an interlocking signal indicating stop without receiving hand signals and must not proceed on hand signals until a member of the train or engine crew is fully informed of the situation; the movement must then be made at restricted speed.

(d) A reverse movement within the limits of an interlocking or a forward movement after making a reverse movement, must not be made without the proper interlocking signal indication or permission from the Towerman.

(e) If a signal indication, permitting a train or engine to proceed, after being accepted, is changed to a Stop-indication before it is reached, the stop must be made at once. Such occurrence must be reported to the Train Dispatcher.

19. MOVEMENTS AT SOUTH UPTON.

(a) Operators at South Upton Tower have authority to take orders and clearances.

(b) Northbound trains from Skokie Valley Division going onto Libertyville Division, or northbound trains from Lake Bluff Jct. to Mundelein, must have a written order from the Train Dispatcher to proceed from South Upton, ahead of an overdue train.

(c) When any train is stopped by a Stop-indication on the signal, the Conductor of such train so stopped will immediately communicate with the Operator by means of the telephone on the signal. If the Operator has orders for such train he will advise the Conductor of the fact, clearing the signal so train can move to the tower. No train so advised will leave the tower without orders or a clearance.

(d) Trains may make movements within South Upton Yard limits without written orders but must first communicate with Operator in Tower.

20. MOVEMENTS AT NORTH CHICAGO JCT.

(a) Trains must stop at STOP boards, and then will be governed by hand signals given by switchtender from right hand side of track provided switches are properly lined and motormen are sure route is clear of other trains.

(b) Signals by switchtenders to approaching trains must not be given before switches are properly set.

(c) Southbound trains on the Milwaukee Division or northbound trains on the Skokie Valley Division will only accept proceed signal given with GREEN flag by day or GREEN light by night.

(d) Southbound trains on the Shore Line Division or northbound trains

SPECIAL RULES—Continued.

on the Shore Line Division will only accept proceed signal given with WHITE flag by day or WHITE light by night.

(e) In all cases motormen must acknowledge each signal accepted by two short blasts of train whistle.

(f) NORTHBOUND trains on the Skokie Valley Division destined via the Shore Line or NORTHBOUND trains on the Shore Line Division destined via Milwaukee Division will give four blasts of whistle approaching STOP board to advise switchtender.

21. MOVEMENTS AT KENOSHA INTERLOCKING PLANT.

(a) Signals are electrically interlocked to clear automatically on approach of a train providing route is clear. On the southbound track the approach circuit extends from a point located 4,639 feet in advance of Distant signal No. 544, to Home signal No. L-10. On the northbound track the approach circuit extends from a point located 2,683 feet in advance of Distant signal No. 519, to Home signal No. R-8. Cut in points of these circuits are marked by a sign reading "CUT IN—KENOSHA INTERLOCKING".

(b) Two position color light dwarf signals are provided for reverse movements, indications as per Special Rule 15(c). Train crews will select route for back up movements as follows: To move south on northbound track open box on pipe post opposite dwarf signal and east of tracks, and depress button marked "Clear". The dwarf signal will then clear if route is clear. To move north on southbound track open box on pipe post opposite the other dwarf signal and west of tracks, and depress button marked "Clear". The dwarf signal will then clear if route is clear.

(c) When a back-up movement is cancelled after the "Clear" button has been depressed, there is a second button in each box marked "Cancel" which must then be depressed to avoid holding the route.

(d) In case of an emergency when a route will not clear up and there are no preceding or conflicting moves being made, the train crew can manually select their route by walking to the interlocking tower and operating a clockwork mechanism marked "C.N.S.&M." located on a pipe post at the northwest corner of the interlocking tower. To operate, the knob inside the case must be turned to the extreme right, then released. If there are no preceding or conflicting moves at the expiration of a two-minute time period, the Home signal will clear. If the Home signal does not then clear the Conductor must observe whether any train is approaching on the C&NW Ry. If no trains are approaching he will place one burning red fusee on the C&NW Ry. track 100 feet east of the crossing, and one burning red fusee on each C&NW Ry. track 100 feet west of the crossing. Upon returning to the crossing he may then signal train to proceed over the crossing. In each such case the Train Dispatcher must be notified at once.

(e) Circuits affecting this plant must not be occupied any longer than necessary in order to avoid delay to C&NW Ry. movements.

22. RAILROAD CROSSINGS AT GRADE.

(a) Crossing of the North Chicago Switch Ry. Co. at 22nd Street, East Line, North Chicago, Illinois, is protected by manually operated crossing gates. Indications:

Gates up on C. N. S. &. M. Ry. Co. tracks, showing green light, C. N. S. & M. Ry. Co. trains proceed at normal speed.

Gates across C. N. S. & M. Ry. tracks showing RED or no light, C. N. S. & M. Ry. Co. trains "Stop".

(b) Crossings of the C. & N. W. Ry. Co. at Highwood and North Chicago Switch Ry. Co. at Valley Jct., North Chicago, Illinois, are protected by manually operated railroad crossing gates.

Gates across steam tracks showing no light, C. N. S. & M. Ry. Co. trains proceed at normal speed.

Gates across C. N. S. & M. Ry. Co. tracks showing RED light, C. N. S. & M. Ry. Co. trains stop. The southbound facing point switch protection signal at Highwood Yard will also show RED indication if these gates are across C. N. S. &. M. Ry. Co. tracks.

(c) All trains will make a positive stop before crossing Transport Company tracks, at National Avenue, Milwaukee, and will then proceed according to traffic regulations.

23. SWITCH PROTECTION SIGNALS. The northbound facing point switches at Ravinia Park; Elm Place, Highland Park; Vine Avenue, Highland Park; Washington Street, Highwood; Downey's, Shore Line; and the southbound facing point switches at Harrison Street, Milwaukee; Highwood Yard and Scale House track, Rondout, are protected by two position color light signals. Indications:

GREEN—Proceed.
RED or no light—Stop, inspect switch points before proceeding.

SPECIAL RULES—Continued.

24. CROSSING PROTECTION SIGNALS.

(a) Crossing Protection Signals facing approaching trains are of two types; either a 2-position color light signal, or a WHITE light in a wooden box attached to a trolley pole.

GREEN or WHITE LIGHT—Gates down, Wig-wag or Bell and Lights working.

RED or NO LIGHT—Train approach crossing under control, prepared to stop short of obstruction.

(b) Where crossing bells or signals are operated by contact, trains will keep far enough apart to allow the leading train to leave the circuit before the following train cuts in, but should two trains get in the circuit, the following train must approach the crossing under restricted speed prepared to stop in case traffic is crossing. Bells and signals must be reported to Train Dispatcher when found not working.

(c) Where gates are maintained Motormen must not cross street or road crossing before coming to full stop unless gates are down. In case gates do not lower in time the Train Dispatcher must be notified at next station if gates are manually operated, or next telephone if electrically operated.

(d) Automatic gates are equipped with manual control switches for the purpose of avoiding unnecessary delay to highway traffic while a train is standing in the track circuit. To operate these gates manually turn the switch which controls the track upon which the train is standing. This will allow the gates to be lowered in case of a train coming on the opposite track. Only if it is necessary to raise the gates when there is a train standing on both tracks should both switches be turned.

(e) When cars are pushed by an engine, and the conditions require, a trainman must take a conspicuous position on the leading car and when shifting over public crossings at grade not protected by a watchman, or by gates, a member of the crew must protect the crossing.

25. GAUNTLET TRACK.

(a) Freight trains will use the gauntlet track at the following stations south of Dempster: Oakton Street, Crawford Avenue, Dodge Avenue, Asbury Avenue, Ridge Avenue, and Howard Street and at the following stations through the Winnetka Grade Separation: Harbor Street, Hubbard Woods, Eldorado, Elm Street and Willow Road.

(b) On normal movements through the Winnetka Grade Separation gauntlets, switches shall be closed in order according to the direction of traffic. Before reverse traffic movements, both switches of the gauntlet shall be opened and, upon completion of the movement, closed in the order of normal traffic direction. If the entering switch in the normal direction of traffic is used only, the leaving switch shall be opened and closed to properly clear signals.

26. CLEARANCE SCALE.

Maximum width and height of loads above the top of rail that will pass with safety.

	Height	Width
Howard Street to E. Prairie Road	16′-5″	8′-6″
Howard Street to E. Prairie Road (Gauntlets)	16′-5″	10′-3″
E. Prairie Road to South Upton	18′-3″	11′-8″
South Upton to Rondout	17′-0″	12′-0″
Rondout to Mundelein	17′-0″	10′-10″
South Upton to North Chicago Junction	18′-6″	12′-0″
North Chicago Junction to Racine Wye	17′-6″	11′-0″
Racine Wye to Harrison Street	17′-0″	11′-0″
Lake Bluff to Green Bay Junction	15′-3″	11′-0″
No. Chicago Jct. to 10th Street, E. Line	14′-6″	11′-0″
No. Chicago Jct. to Ravinia	14′-9″	10′-4″

The above widths do not apply lower than 3 feet from top of rail.

Locomotive 458 will not clear E. J. & E. bridge on the east line at North Chicago, C. & N. W. Bridge on the Shore Line at North Chicago Junction or C. & N. W. Bridge on northbound track at Lake Bluff.

"Freight trains must not meet under the C&NW Ry. Co. viaduct, Shore Line, at North Chicago Junction."

27. TOILET COMPARTMENTS on passenger cars must be closed and locked between Milwaukee and Harrison and between Howard Street and Chicago on Skokie Valley trains. Toilet compartments must be closed and locked on Shore Line trains except between Highland Park and North Chicago may be opened on request.

28. DIAPHRAGMS AND STEP PLATES.

Trainmen on limited trains operating between Chicago and Milwaukee must see that step plates are down in place and diaphragms are fastened across between cars so equipped while operating between Harrison and Skokie.

SPECIAL RULES—Continued.

29. HOURS OF SERVICE LAW.

Trainmen and enginemen are permitted to remain on duty a total of sixteen (16) hours in any twenty-four hour period.

After making sixteen (16) consecutive hours, they are required to have ten (10) consecutive hours off duty, and after making sixteen (16) hours in the aggregate in any twenty-four (24) hour period, they are required to have at least eight (8) consecutive hours off duty.

The term "on duty" includes all time from the time required to report for duty until the time actually relieved from duty.

No operator, train dispatcher, or other employee who by the use of the telegraph or telephone, dispatches, reports, transmits, receives, or delivers orders pertaining to or affecting train movements, shall be required or permitted to be or remain on duty for a longer period than nine hours in any twenty-four hour period in all towers, offices, places and stations continuously operated night and day, nor for a longer period than thirteen (13) hours in all towers, offices, places and stations operated only during the daytime, except in case of emergency, when the employees named in this proviso may be permitted to be and remain on duty for four additional hours in a twenty-four hour period and not exceeding three days in a week.

Emergencies consist of cases of casualties or unavoidable accidents, or the act of God, or where the excess service was result of cause not known to carrier, its officers, or agents in charge of such employee at the time, and which could not have been foreseen.

When emergencies arise, permission from the chief train dispatcher, if possible, should be secured to work beyond the regular assigned hours or in excess of hours in service permitted by law, and in every case where such hours of service are exceeded each employee involved will make prompt and full report in writing direct to the superintendent.

30. ON LINES OF OTHER COMPANIES.

(a) Trainmen while on the lines of the Chicago Transit Authority will be subject to the rules of that company.

(b) Trip cock valve in motorman's cab on passenger and merchandise dispatch trains must be open while trains are operating south of Skokie or Linden Avenue, and must be closed at all other times.

(c) Trains must not exceed forty-five (45) miles per hour between Howard Street and Wilson Avenue, and must not operate south of Wilson Avenue with the controller beyond the full series point. All rules and regulations relative to speed on curves, fog and other restrictions, must be fully complied with when operating over Chicago Transit Authority tracks.

31. SPEED RESTRICTIONS. BETWEEN WILMETTE AND WAUKEGAN.

	Miles Per Hour
Wilmette, full stop before crossing Linden Ave., southbound	Stop
Northbound across Linden Ave. and all street intersections on Greenleaf Ave. in both directions	8
Both directions on Greenleaf Ave.	15
Opposing trains will not clear each other on curve just south of Wilmette Station. Southbound trains have preference to the station. Northbound trains must stay south of clearance point when a southbound train is approaching or occupying Wilmette Station. Southbound trains must stay north of Wilmette Ave. when a northbound train is occupying Wilmette Station.	
Kenilworth—Full stop before crossing Kenilworth Avenue	Stop
Crossing Kenilworth Avenue	5
On pavement through Kenilworth	15
Indian Hill—Restricted speed during hours students are going to and from school	R.S.
Glencoe—Southbound trains have preference at the gauntlet track south of Glencoe Station, but all trains must approach and run through the gauntlet at restricted speed. When vision is obscured trains must stop, listen for approaching train, sound long whistle signal, and then if no opposing train is in sight or hearing, may proceed under control through the gauntlet. When conditions require trains must be preceded by a flagman.	R.S.
Full Stop before crossing Park Avenue	Stop
Ravinia—crossing Roger Williams Avenue	25
Highland Park—crossing Lincoln Avenue	25
Full stop before crossing Laurel Avenue	Stop
Crossing Central Avenue	4

SPECIAL RULES—Continued.

SPEED RESTRICTIONS. BETWEEN WILMETTE AND WAUKEGAN. Continued.

	Miles Per Hour
Vine Avenue. Restricted speed during hours students are going to and from school	R.S.
Freight Trains crossing Vine Avenue bridge	20
Highwood—crossing Highwood Avenue and Washington Street	25
Between Washington Street and C&NW crossing	15
All trains entering and running through Highwood Yard must be prepared to stop short of unprotected trains or obstructions	R.S.
Lake Forest—full stop northbound before crossing Deerpath Ave.	Stop
Crossing Deerpath and Westminster Avenues	15
Freight trains crossing Woodland Ave. Bridge	20
Lake Bluff—Lake Bluff Station to C&NW depot	20
Twenty Second St. North Chicago (East line) before crossing	Stop
Second Ave. North Chicago (East line) before crossing	Stop
Foss Park Ave.	Stop
North Chicago, Shore Line, across all streets	15
Tenth Street Terminal, before entering station area	Stop

Other locations where speed is restricted by bulletin are indicated by diagonal signs, showing letters "R.S." and figures denoting miles per hour. Freight Trains must not meet on bridge at Vine Avenue or Woodland Avenue.

SPEED RESTRICTIONS. BETWEEN SKOKIE AND MILWAUKEE.

	Miles Per Hour
Skokie—Oakton St. curve	35
Skokie (Dempster St.) Northbound	30
Southbound	40
C. &. N. W. Tower K. O.	40
C. &. N. W.—South Upton	30
Between South Upton Jct. and Lake Bluff	30
Between South Upton Jct. and South Upton Tower	15
North Chicago Junction	15
Valley Junction	10
Edison Court, across Washington Street	10
Kenosha, across 67th, 64th, 60th and 52nd Sts	20
Kenosha Interlocking (C&NW)	40
Racine Interlocking (CMStP&P)	40
Racine, across all streets	20
Ryan Interlocking (C&NW)	40
Austin, Northbound	30
Southbound	20
Oklahoma, Northbound	20
Southbound	30
Harrison, restricted speed approaching crossovers	R.S.
Milwaukee—across all fire crossings	4
passing schools and school yards	12
approaching, running on, or leaving city streets	15
facing point tongue switches	4

SPEED RESTRICTIONS. BETWEEN LAKE BLUFF AND MUNDELEIN.

	Miles Per Hour
Between Green Bay Jct. and South Upton (C&NW)	20
Libertyville, across Stewart and Milwaukee Ave's.	20
Mundelein, before entering station track	Stop

Other locations where speed is restricted by Bulletin are indicated by diagonal signs, showing letters "R.S." and figures denoting miles per hour.

MAIN LINE CROSSOVERS-BETWEEN SKOKIE AND MILWAUKEE.

Ridge Avenue,

MAIN LINE CROSSOVERS—BETWEEN LAKE BLUFF-MUNDELEIN.

Scale House, east,
Scale House, west,
Liberty Lake,
Milwaukee Avenue,
St. Mary's,
Mundelein Station.

LOCATION OF RERAILING EQUIPMENT.

Oakton Street—north end of platform.
South Upton Tower—outside north wall.
West Downeys—south switch.
North Chicago Junction—switchman's shanty.
Edison Court—southbound platform.
Racine Tower—blocking only.
Ryan Tower—blocking only.
Harrison—west of Milwaukee Barn.
Milwaukee Terminal—under platform.
Rondout Scale House—west wall.
Mundelein—northbound platform.
Highwood (North Shore office) wreck car and box east of lamp house.
Tenth Street Shore Line—south of southbound platform.

Boxes contain two rerailers, spikes, sledge hammer, wedges, blocks, and one piece of chain or cable and must be replaced after using.

LOCATION OF EMERGENCY JUMPERS.

Skokie—in northbound phone booth.
South Upton Tower—inside Tower.
North Chicago Junction—in southbound Skokie Valley phone booth.
Kenosha—in southbound shelter.
Racine—box on south of station.
Church St., Evanston—box in southbound shelter.
Linden Avenue—box in southbound shelter.
Winnetka—box on southbound platform.
Glencoe—box on northbound platform.
Highland Park—box in southbound shelter.

When emergency jumpers are used, the train dispatcher must be notified to provide replacement.

LOCATION OF OIL, WASTE, PACKING TOOLS

Wilmette Ave. Station—box on west outside wall.
Dempster Street, Skokie—station basement.
Pettibone—trainroom and engine house.
North Chicago Junction—box outside shanty.
Edison Court—switchmens shanty.
Kenosha—passenger station basement.
Racine—freight house basement.
Ryan Tower—inside tower.
Rondout—scalehouse shop.
Mundelein—station basement.

CHICAGO TRANSIT AUTHORITY

TO ALL EMPLOYEES:

IN THE EVENT OF ANY UNUSUAL OCCURRENCE CAUSING A DELAY, TELEPHONE THE RADIO-TELEPHONE DISPATCHER AT ONCE. GIVE HIM AS MUCH INFORMATION AS POSSIBLE TO ENABLE HIM TO SEND THE NECESSARY EQUIPMENT TO THE SCENE.

IN THE EVENT OF POWER TROUBLE, CALL THE RADIO-TELEPHONE DISPATCHER, WHO WILL IMMEDIATELY NOTIFY THE POWER SUPERVISOR.

THE ABOVE INSTRUCTIONS MUST BE OBSERVED WITHOUT FAIL.

TO CALL THE RADIO-TELEPHONE DISPATCHER ALWAYS DIAL 2-3-4-5 ON THE C. T. A. DIAL TELEPHONE SYSTEM FROM ANY LOCATION.

FROM ILLINOIS BELL TELEPHONES DIAL FI-6-0270, OR ON MANUAL PHONES GIVE THE OPERATOR THE CALL AS FINANCIAL 6-0270.

R. J. McKINNEY
GENL. SUPT. OF TRANSPORTATION

C. T. A. RULE NO. 57. The following signals will be displayed to the rear of every train from sunset to sunrise, and under such other conditions as circumstances may require;

Two red marker lamps and a white hand lamp and such other signals as may be required by special orders or bulletins.

C. T. A. RULE NO. 99. Motormen must operate their train on sight and run at such speed that they can stop within the distance between their train and the preceding train. During foggy, thick or stormy weather motormen must operate their trains at such a speed that they can stop within the distance they can see the track to be clear. However, the rear Trainman must protect the rear end of his train by flagging when circumstances permit, and especially when a train makes a stop due to an accident, a defect in roadway or equipment, or a delay ahead which would cause it to stand still for an appreciable length of time; and also when a train makes a stop on or near a curve, where the rear end is not plainly visible to the Motorman of the following train, or at an unusual place, or during foggy or stormy weather when vision is restricted, or during non-rush hours when trains are operated on a longer headway.

Should the motorman think it advisable to send out a Flagman, he will sound the whistle signal for Flagman to protect the rear end of the train as prescribed by Rule No. 54.

When the Motorman is ready to proceed he will sound the whistle signal for Flagman to return to his train as prescribed by Rule No. 54. Motorman must not proceed until Flagman has returned and has passed up a "Go-ahead" signal.

Should the rear Trainmen think it advisable to go back to flag he will signal the Motorman by passing up one bell as prescribed in Rule No. 56.

To protect the rear end of a train the rear Trainmen should go back a sufficient distance to enable the following train to stop before colliding with his train. He will use a red flag by day and a white lantern during the hours of darkness. He must not return to his own train until he has received an acknowledgment (two blasts of the whistle) from the train he is flagging or until he is called in and the safety of his train will permit. The location of a train in territory protected by automatic block signals does not relieve Conductor and rear Trainmen from the responsibility of protecting the rear of their train.

When necessary the front of the train must be protected in the same manner by the Motorman.

It is the Conductor's duty to see that the rear Trainman goes back and the Motorman goes forward to flag when circumstances require.

C. T. A. RULE NO. 158. MOTORMEN MUST TAKE EVERY PRECAUTION FOR THE SAFETY OF THEIR TRAINS AND PASSENGERS. When the train is in motion the responsibility for safe running rests entirely upon the Motorman.

No collision with another train will be excused.

C. T. A. RULE NO. 159. Should the train be brought to a stop on or near a curve, or at any other place where the rear end is not plainly visible to the Motorman of the following train, it is the Motorman's duty to sound the whistle signal for Flagman to protect the rear end of the train as prescribed in Rule No. 99.

C. T. A. RULE NO. 178. When following another train Motormen must keep at such a safe distance and run at such a speed that they will be able to stop safely should the train ahead come to a sudden stop at an unexpected place.

C. T. A. RULE NO. 184. When the Motorman's range of vision is restricted by fog, snow or from any other cause he must take extraordinary precautions. THE SAFETY OF THE TRAIN DEPENDS ENTIRELY ON THE MOTORMAN BEING ABLE TO STOP WITHIN THE DISTANCE HE CAN SEE THE TRACK TO BE CLEAR. The schedule should be disregarded and every precaution taken to insure the safety of the train.

During foggy, thick or stormy weather a fog trip order will be issued to Motormen at the beginning of each trip. Failure to sign or receive a FOG TRIP ORDER does not relieve the Motorman of responsibility.
