^fNumber of service schedule cars required on Ravenswood: AM - 96, PM - 84

Number of service schedule cars required on Evanston: AM - 72, PM - 78

During the PM rush hour, Evanston uses one set of Ravenswood equipment. Therefore, the actual number of PM cars required is: Ravenswood - 90; Evanston - 72, thus the PM total is six less than AM

All other cars from active series will be AFR'd or have been AFR'd. Most are off the property of the Authority or have been converted to work motors or training cars. Due to the energy crisis, scrapping of AFR'd cars has been halted and some cars that have been AFR'd or are awaiting AFR, are being held in "storage". The lists on the back of this sheet -- "Cars Awaiting AFR", "Cars AFR'd -- Waiting for Scrap", and "Training Cars" -- include those cars that are still on CTA property.
