PACE SUBURBAN BUS ROUTE DESCRIPTIONS

The attached listing gives a capsule summary for each of Pace's suburban bus routes. In most cases, the starting date for pre-RTA routes is unknown. The ridership data are the year end averages for 1987. (Weekday, Saturday, Sunday)

For comparative purposes, all routes are divided into four categories. The inner suburban (I) includes most routes operating in Cook County. The Satellite (S) and Outer suburban routes (O) are all regular routes in the five collar counties as well as certain routes in Cook County where service population density and land use are more like the collar counties. Feeder service (F) includes all routes which operate solely as feeders to or from commuter rail stations, regardless of their geographic location.
