

Bus Route Descriptions

February, 1989

PACE SUBURBAN BUS ROUTE DESCRIPTIONS

The attached listing gives a capsule summary for each of Pace's suburban bus routes. In most cases, the starting date for pre-RTA routes is unknown. The ridership data are the annual daily averages for 1988. (Weekday, Saturday, Sunday)

For comparative purposes, all routes are divided into four categories. The inner suburban (I) includes most routes operating in Cook County. The Satellite (S) and Outer suburban routes (O) are all regular routes in the five collar counties as well as certain routes in Cook County where service levels, population, density, and land use are more like the collar counties. Rush hour (R) includes all routes which operate solely during the morning and afternoon rush hour periods.
