FAIR

ON THE MIDWAY AT 24th STREET

Brought to America from Paris at great expense by American patrons of art, the Pantheon de la Guerre, famous world war panorama, is one of the outstanding attractions at the World's Fair. It is the work of 130 noted artists who toiled, often under shell fire, from the opening of hostilities in 1914 to the signing of the armistice in 1918 to complete the great masterpiece. It depicts accurately the battlefields of France and Belgium with life-size figures in the foreground of 6,000 leaders, statesmen and heroes of the twenty-four nations which fought on the side of the Allies. It is the largest historical panorama in the world measuring 402 feet long and 50 feet high. It weighs 12½ tons when packed in a huge metal lined box for shipment. This famous spectacle will be returned to Paris at the close of the World's Fair. It was viewed by more than 8,000,000 persons in the French Capital before being shown in America. All who have seen the Pantheon de la Guerre pronounce it the most dramatic, gripping and artistic production at the Fair.
