CHICAGO SURFACE LINES

ANYWHERE IN CHICAGO BY SURFACE LINES

The largest street car system in the world, the Chicago Surface Lines covers the entire city of Chicago. Every industrial district, every business center and 98 per cent of the homes inside the city limits can be reached directly or within three blocks by one or more Surface Lines routes.

The system comprises street car lines, trolley bus and gasoline bus service. Car stops on rail lines are indicated by white bands on the poles at street intersections. Bus stops are indicated by bus stop signs at the curb. The fare is 7 cents with free transfers issued at the time the fare is paid. Transfers are good as long as the passenger is going in the same general direction and uses the most direct and reasonable route.

There is also an inter-transfer system between the Chicago Surface Lines and the Chicago Rapid Transit Company for a 10-cent cash fare. See detailed instructions on Page 15.

CHICAGO SURFACE LINES ROUTES

And Instructions for Use of Surface- Elevated Transfers

Below are listed alphabetically all of the routes of the Chicago Surface Lines, describing the operation of street cars or buses from one end of the line to the other. The lines are shown on the folder map in this booklet.

The fare on the Surface Lines is 7 cents with free transfers issued at the time fare is paid. Transfers are good as long as the passenger is going in the same general direction and uses the most direct and reasonable route.

Transfers between the Surface Lines and the Elevated (Chicago Rapid Transit System), issued on the payment of a 10-cent cash fare, are allowed at 56 Elevated transfer stations, indicated on the accompanying map. These transfers can be made only from Surface Lines tributary to the stations.

Passengers unfamiliar with the system should ask the conductor at what station they will be permitted to transfer. These transfers are good for additional rides on the Surface Lines if required to reach the proper Elevated transfer station. They are accepted as fare on the Elevated at the proper stations, and may be retained for additional rides on the Surface Lines if these are required to reach the passenger's destination. The transfers must be time-stamped by passengers in the automatic machines provided for that purpose at the Elevated station where the passenger again transfers to the Surface Lines.

Transfers from the Elevated to the Surface Lines will be issued by the agent on the payment of a 10-cent fare and at the time of paying the fare. These transfers, when time-stamped at the transfer station, are accepted as fare on tributary Surface Lines.

CHICAGO SURFACE LINES ROUTES
