How to read this timetable

1. Locate the timepoint on the map nearest to the place you will be boarding the bus. Timepoints are indicated on the map and in the timetable by this symbol ①.
2. Refer to the column in the timetable, for the direction you want to be heading, with the same timepoint number to determine what time buses pass that location.
3. Estimate how long it will take the bus to get between the timepoint and place you will be boarding the bus. The light dashed lines (---) are placed at approximately five minute intervals on the map. Buses will stop at any intersection on signal to pick up or discharge passengers. It is a good idea when you start to use the bus to be at your boarding point a few minutes earlier than the time you have estimated for the bus's arrival.
