

*Picture Yourself Here*

**JUST WHEN YOU WANT TO BOARD QUICKLY..**

**..EVERYBODY ALIGHTS AT THE FRONT !**

Faster, more comfortable bus service results when passengers move through the vehicle, from front to rear.

### RIDERS CAN HELP IMPROVE SERVICE :

1. By moving to the rear of the bus after paying fare. This makes room for others who wish to board.
2. By exiting through the center door. This permits passengers to board and alight at the same time, without confusion or delay.

**PLEASE REMEMBER - - -**

when the bus operator requests cooperation,  
he is trying to improve **YOUR SERVICE**

**P.S. - You can further speed transit service by  
having exact fare ready when you board.  
THANK YOU!**
