

# TRANSFERS

ISSUED BY

# CTA

The purpose of this booklet is to illustrate the seven (7) types of transfers issued by CTA. In addition, it explains which system issues each type of transfer, and the type of service for which each transfer is acceptable.

For detailed instruction in the correct methods of issuing transfers, checking transfers for validity, and re-issuing transfers, see the booklet, "Transfer Instructions."

NOTE: The color of the ink used on transfers may be changed periodically. The color of the transfers shown in this book may not be the color currently in use.
