Using The Card

Using The Card

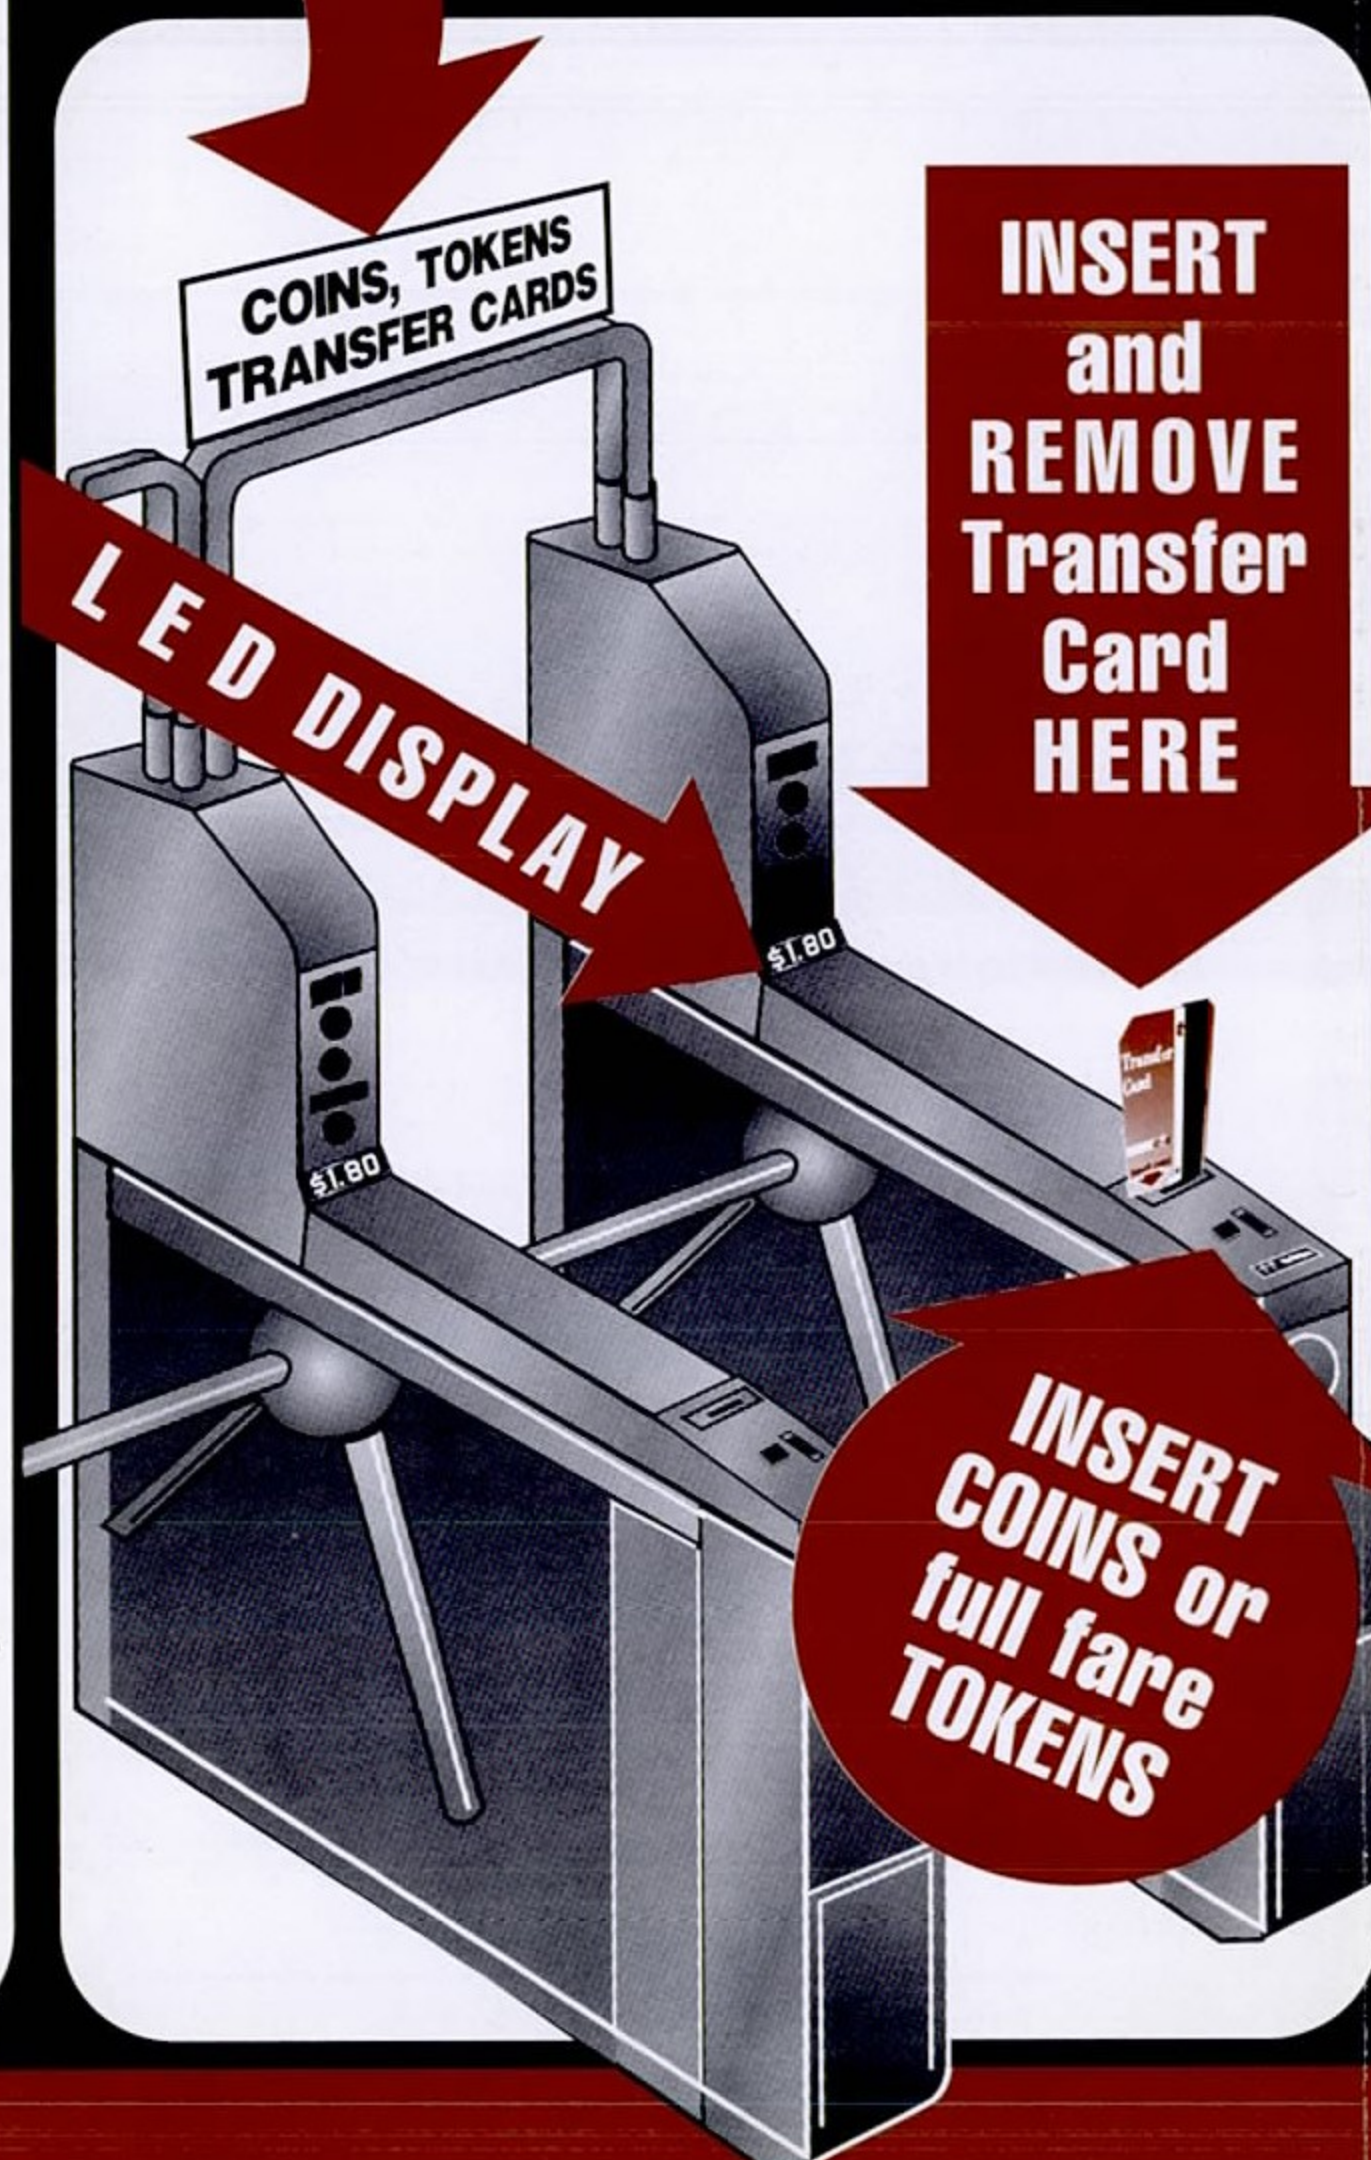

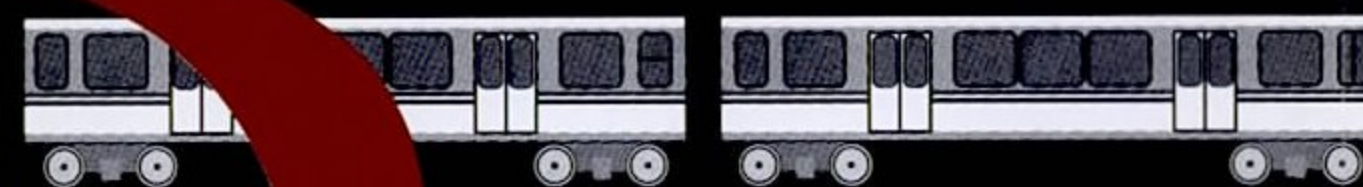

Use the **Transfer Card** in any turnstile with a U-shaped bar over it, or give it to a station agent.

Insert the **Transfer Card** into slot on top of the turnstile, with the front of the card facing you.

The machine will “grab” the card, read it, and “pop” it back up to you.

Take it, and then go through. The turnstile will not unlock until you remove the card from the slot.

AT TRAIN STATIONS

● The first time you use the card, the LED display will read:

**THANK YOU T 1
PLEASE ENTER**

On the back of the card, the number “1” will appear to the left of the expiration time, indicating the card is valid for one more ride.

● The second time you use the card, the LED display will read:

THANK YOU TO
PLEASE ENTER

On the back of the card, “**VOID**” will appear twice, covering the “**1 EXP**”, indicating no more rides are left.

Again, take the card with you – the machine doesn't keep expired cards. The turnstile lets you through only after the card is removed.

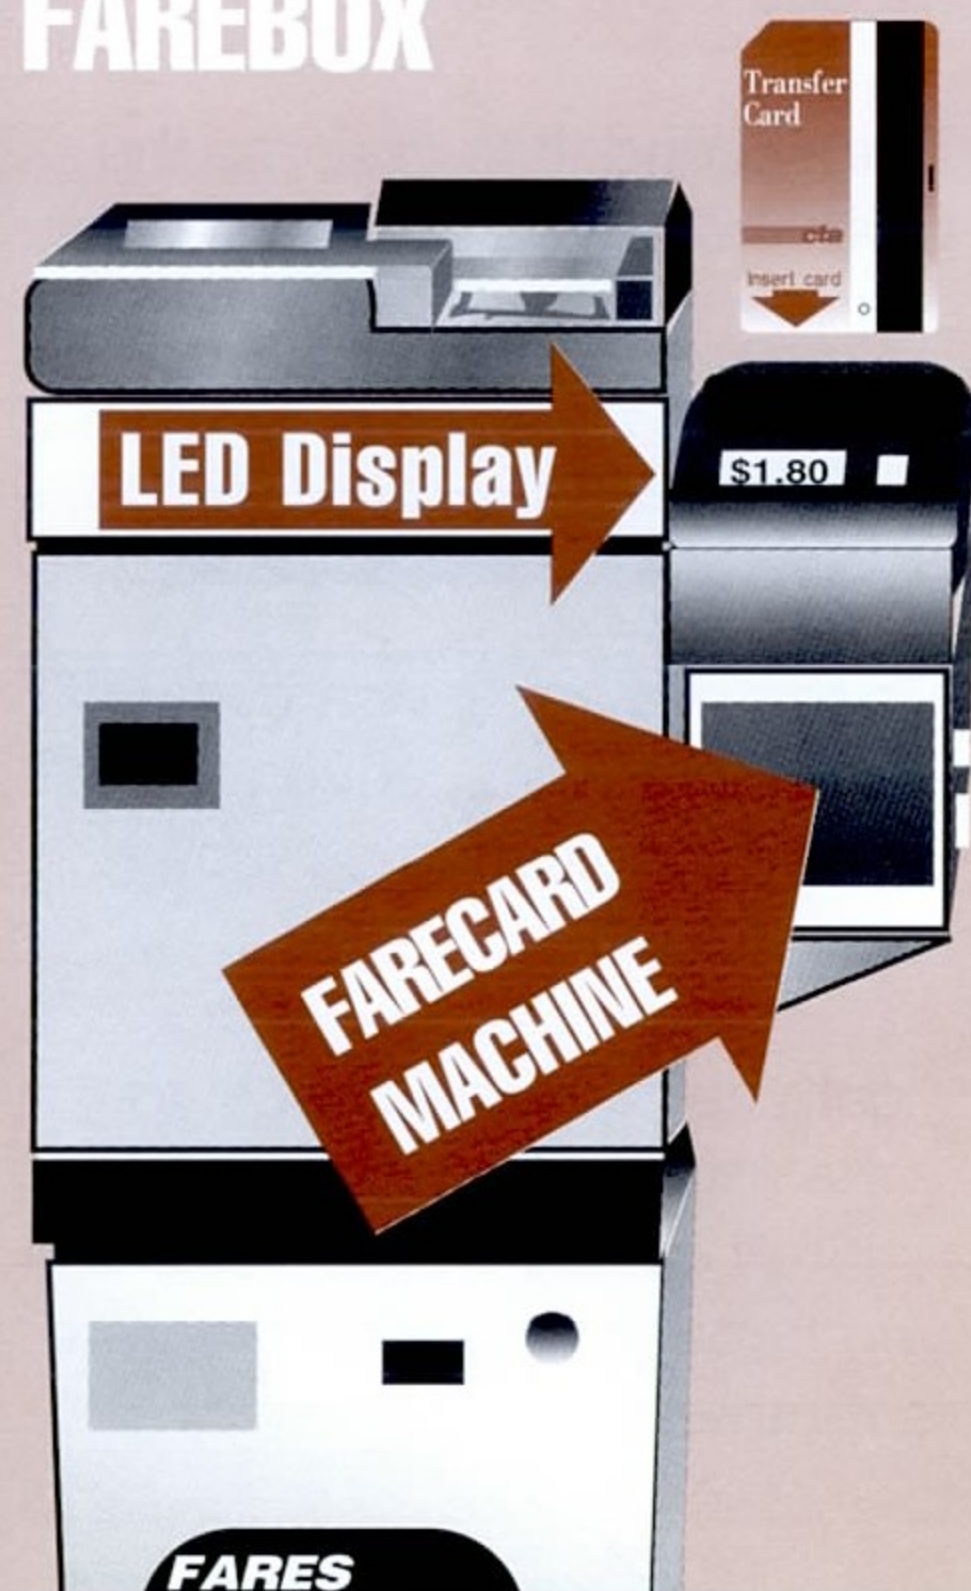

Getting The Card

1 Deposit the exact fare, including transfer charge, into the farebox.

2 The operator will put a **Transfer Card** into the Farecard Machine on the right side of the farebox. The machine activates the card.

3 When the card pops up — take it!

FAREBOX

ON BUSES

Using The Card

1 Insert **Transfer Card** into Farecard Machine, with the front of the card facing you. The machine will “grab” the card and read it.

2 The first time the card is used, it “pops” back up to you.

The LED display will read:

THANK YOU T 1

On the back of the card, a number “1” will appear to the left of the expiration time.

3 The second time the card is used, the voided card pops out the back of the machine to the operator.

The LED display will read:

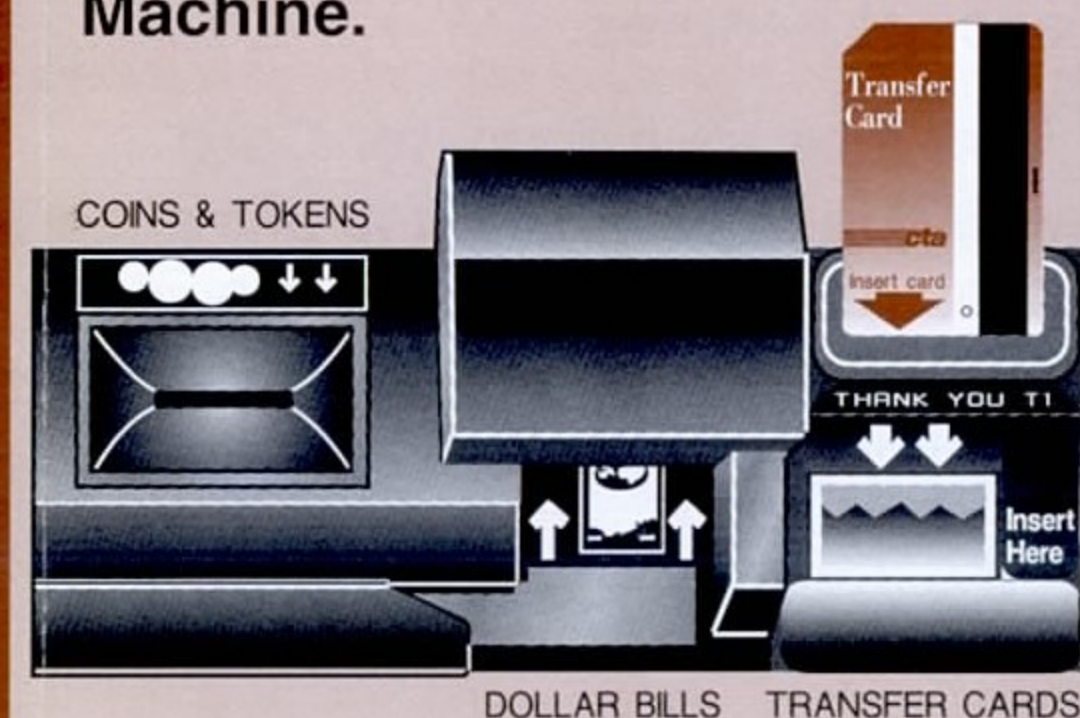

THANK YOU T 0

On the back of the card, “VOID” will appear twice, covering the “1 EXP”, indicating no more rides are left.

Checking The Value

The number of rides remaining on the **Card** can be checked without removing any rides.

Ask the bus operator to check the value before you put the **Card** into the **Farecard Machine**.

1 The operator will press a special button.

2 Insert card into Farecard Machine.

The LED display will read:

1 TRF REMAIN

or

2 TRF REMAIN

3 The card is then returned to you.
