Each train has a minimum of two accessible rail cars. At one end of each accessible rail car, a seat can be folded up so a wheelchair or other mobility device can be secured.

Security

The CTA has a strong commitment to customer security. In addition to uniformed and plainclothes police who patrol buses and trains, the CTA contracts with private companies including roving canine patrols. If you need to communicate directly with CTA personnel:

On each rail car, all CTA trains have a two-way intercom system in each car that allows customers to talk to the rail operator in an emergency.

When you need help or in case of an emergency, look for **the blue light** on the rail car lighting panel. Push **the operator call button** to contact the rail operator.

If instructed, follow the yellow and red *In Case of Emergency* procedures posted at each passenger door exit of each car.

At each rail station, Customer Assistant call buttons are located near the turnstiles and on the platform. Push the button to call for assistance at your location.
